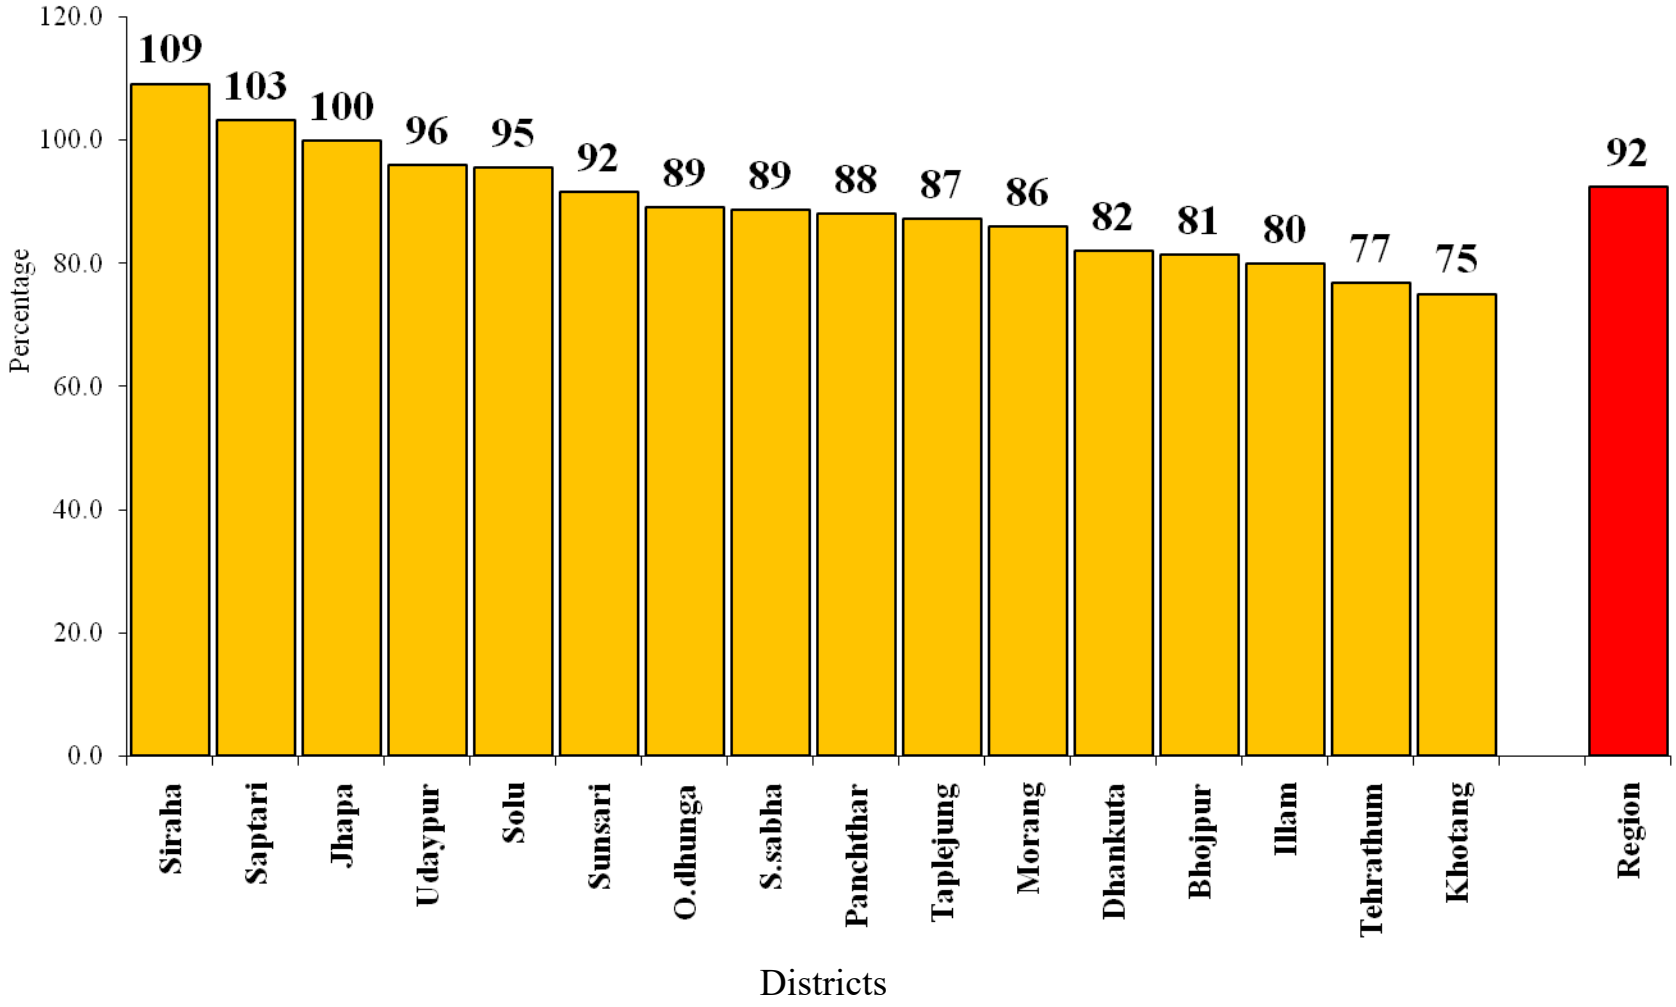
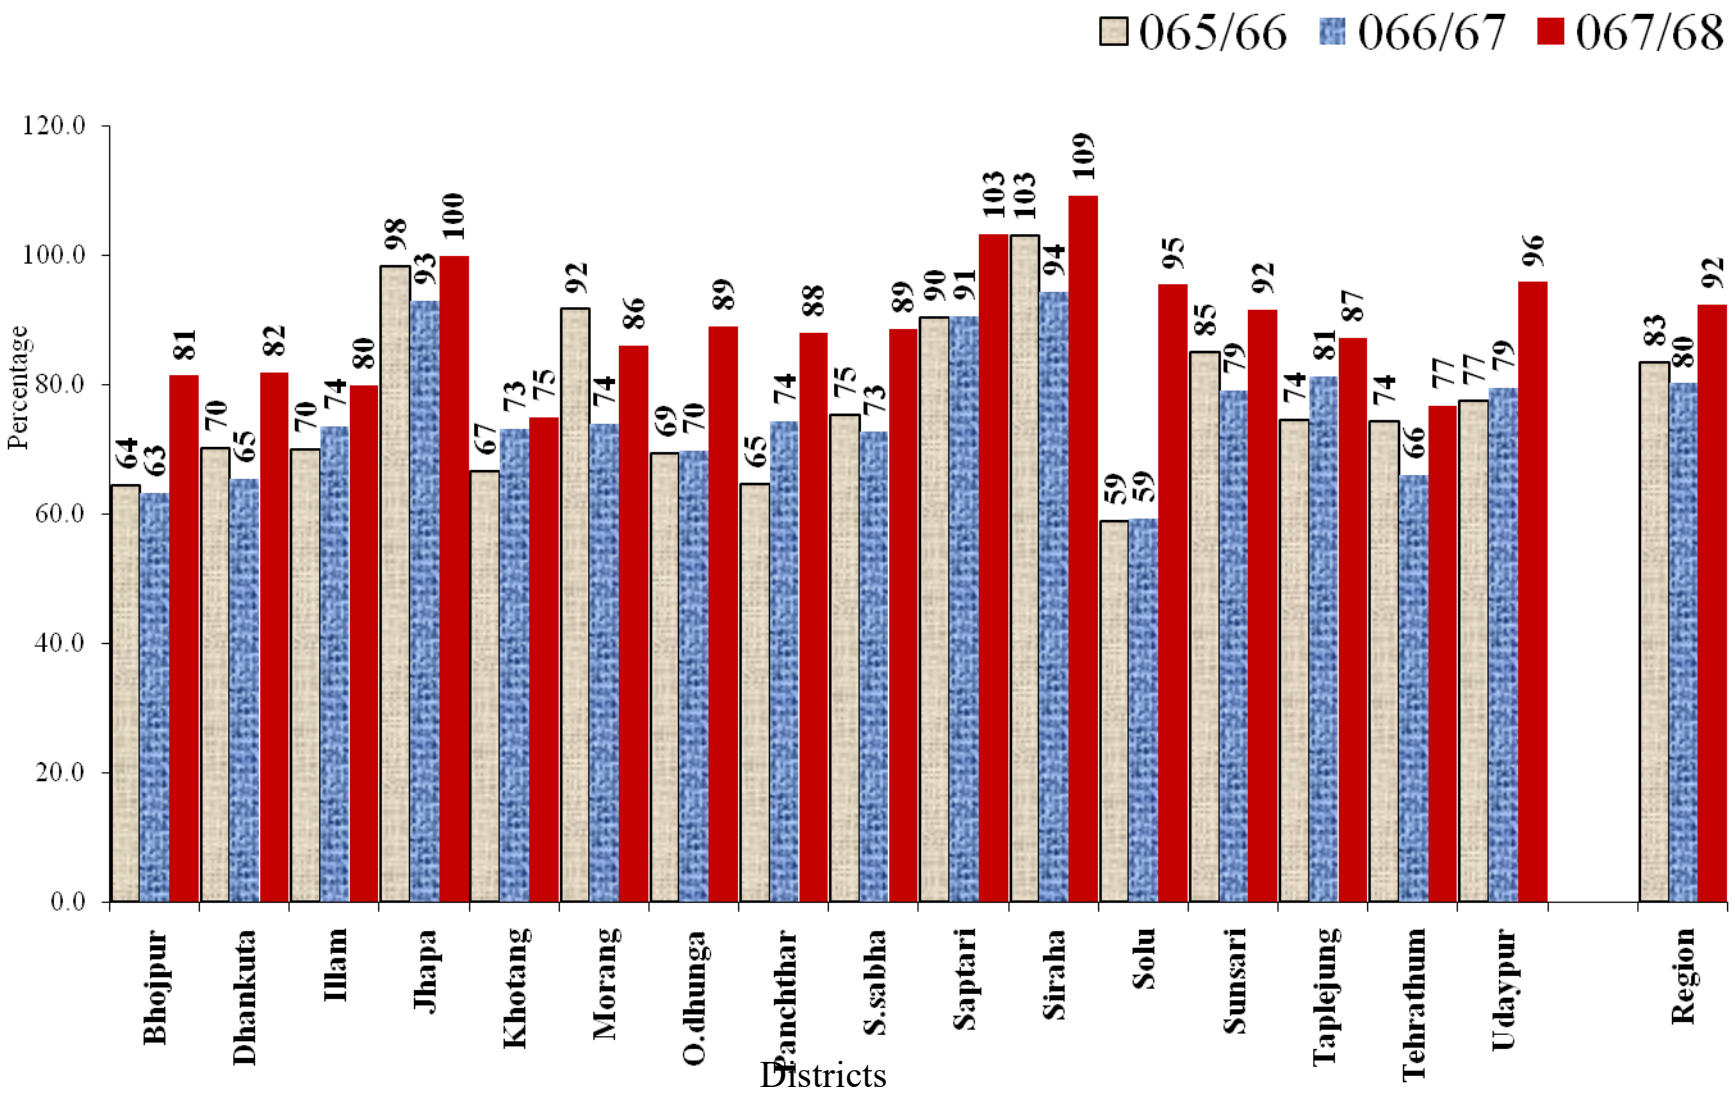
Child Health Program

National Immunization Progam (NIP)

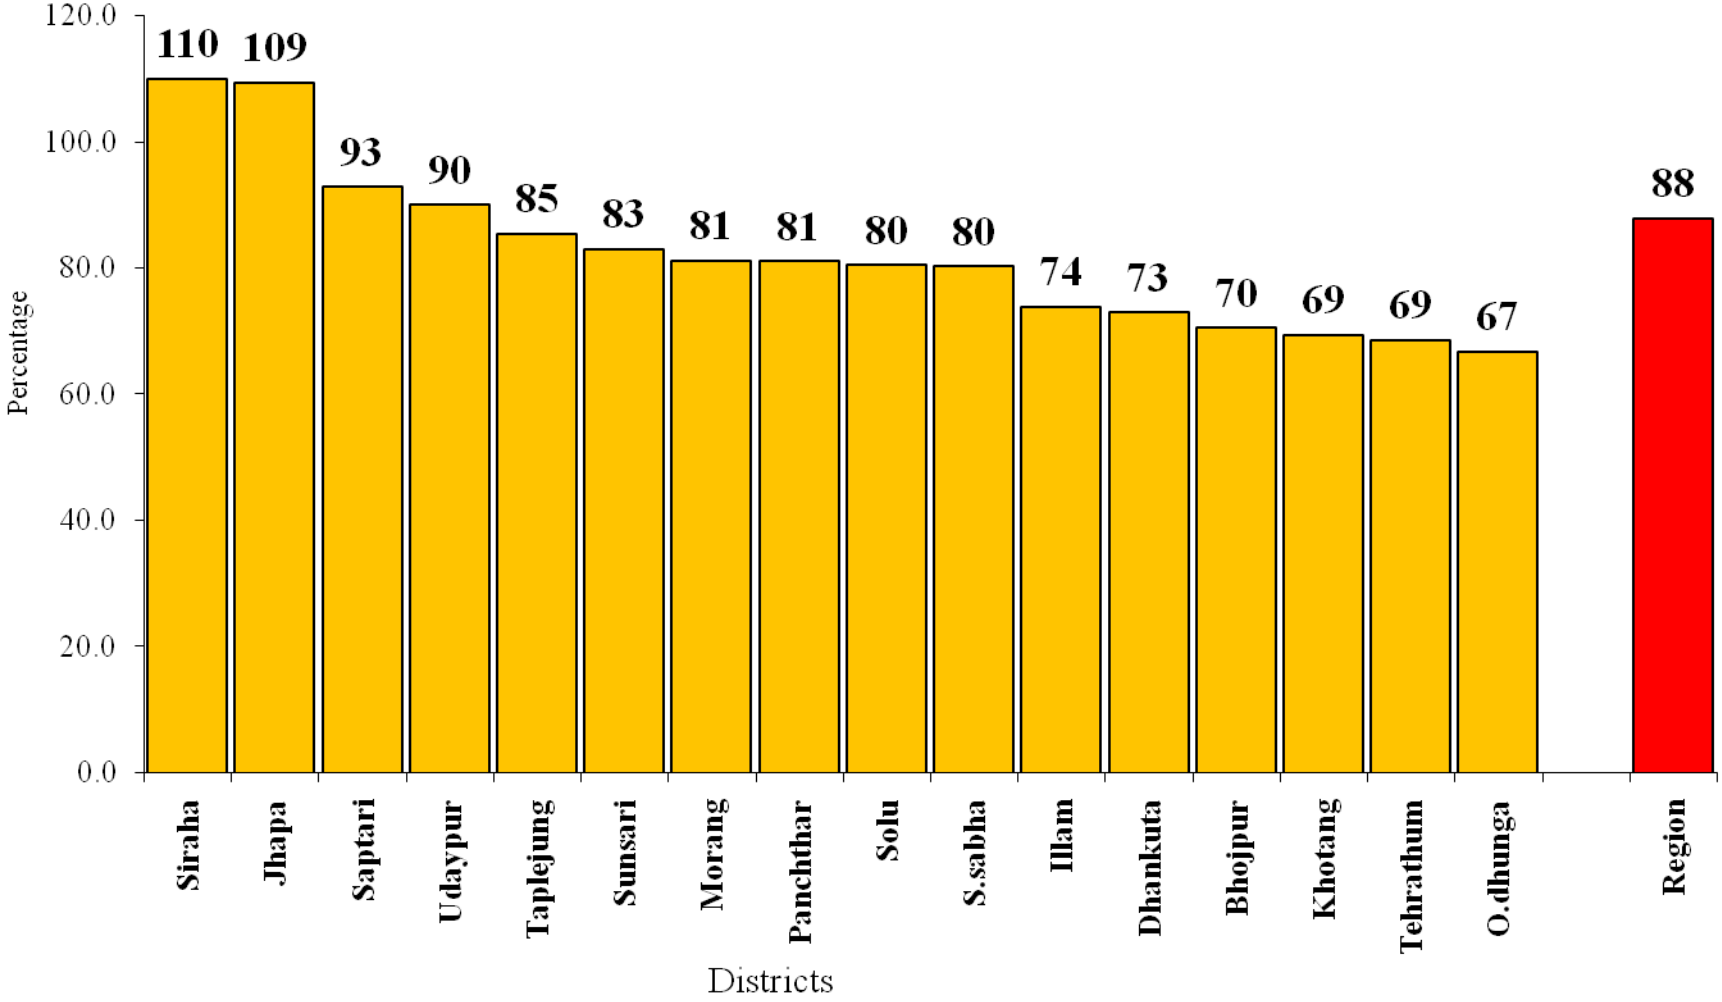
DPT - Hep B -Hib 3 Coverage
F.Y. 2067/068



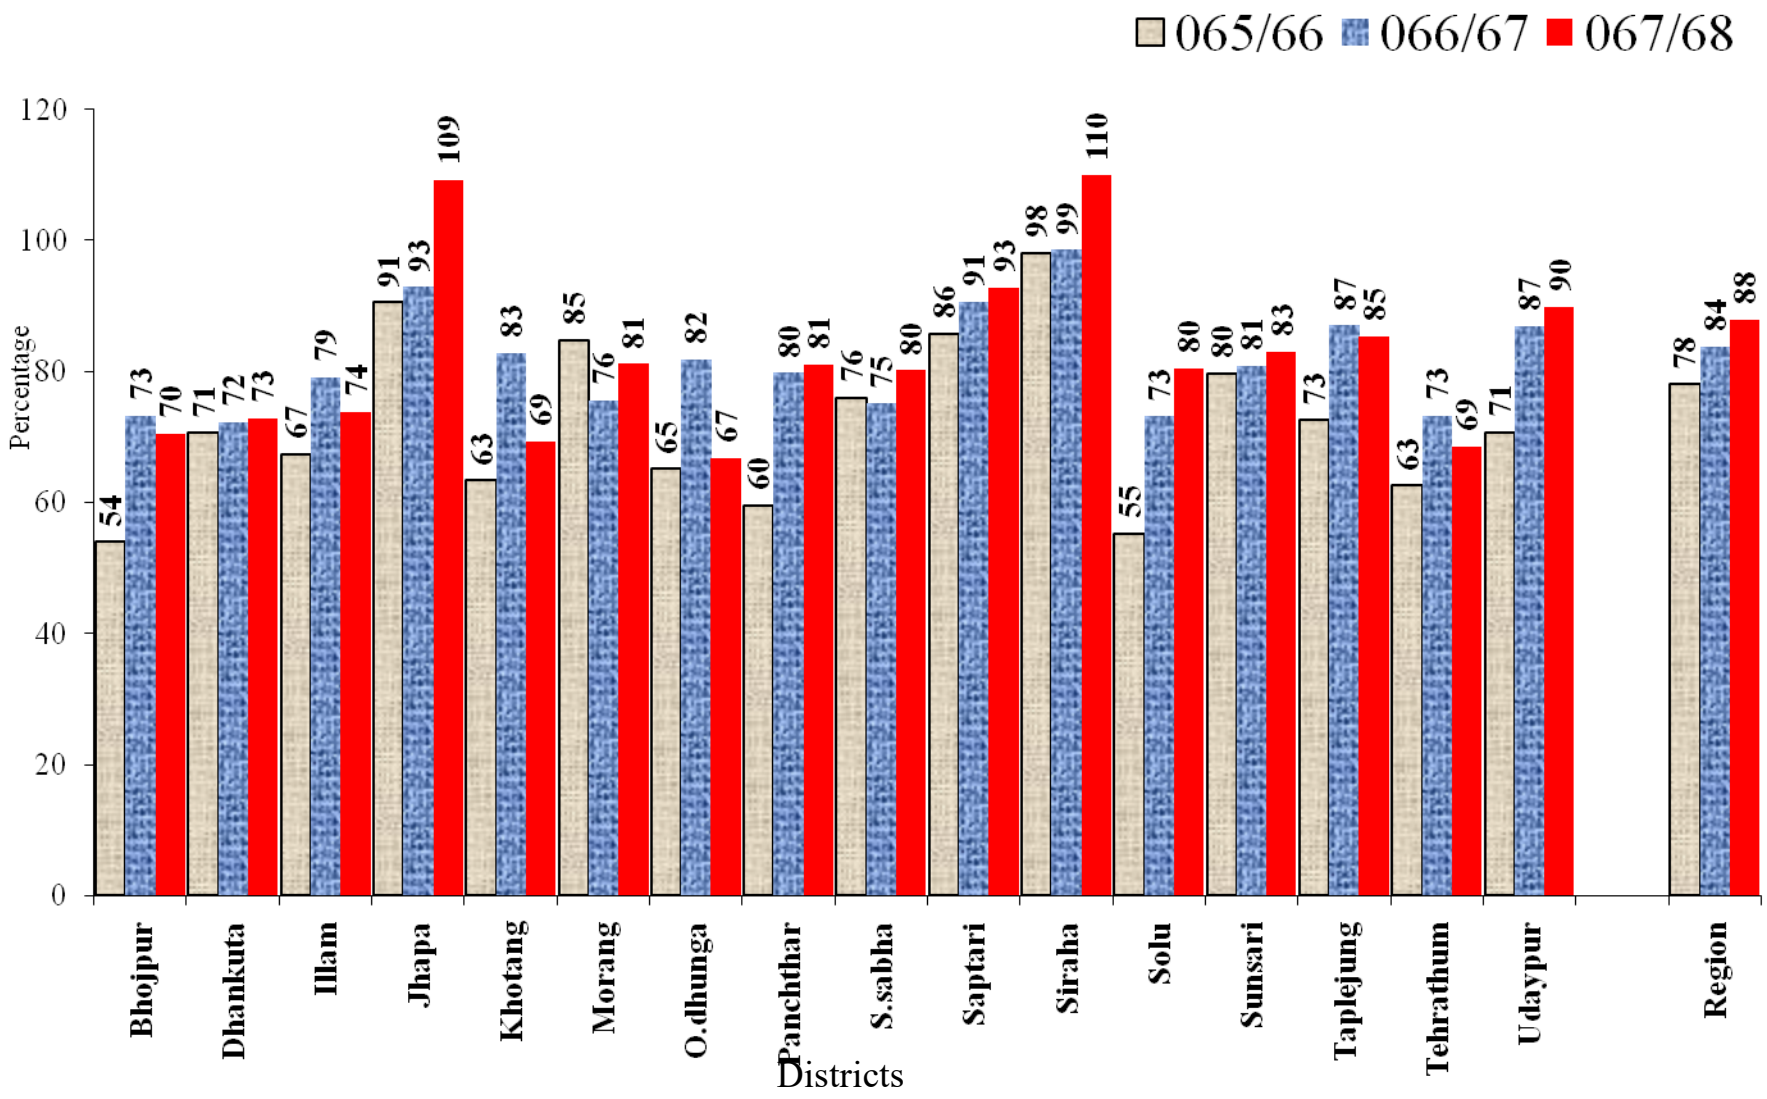
DPT - Hep B -Hib 3 Coverage
F.Y. 2065/66-2067/068



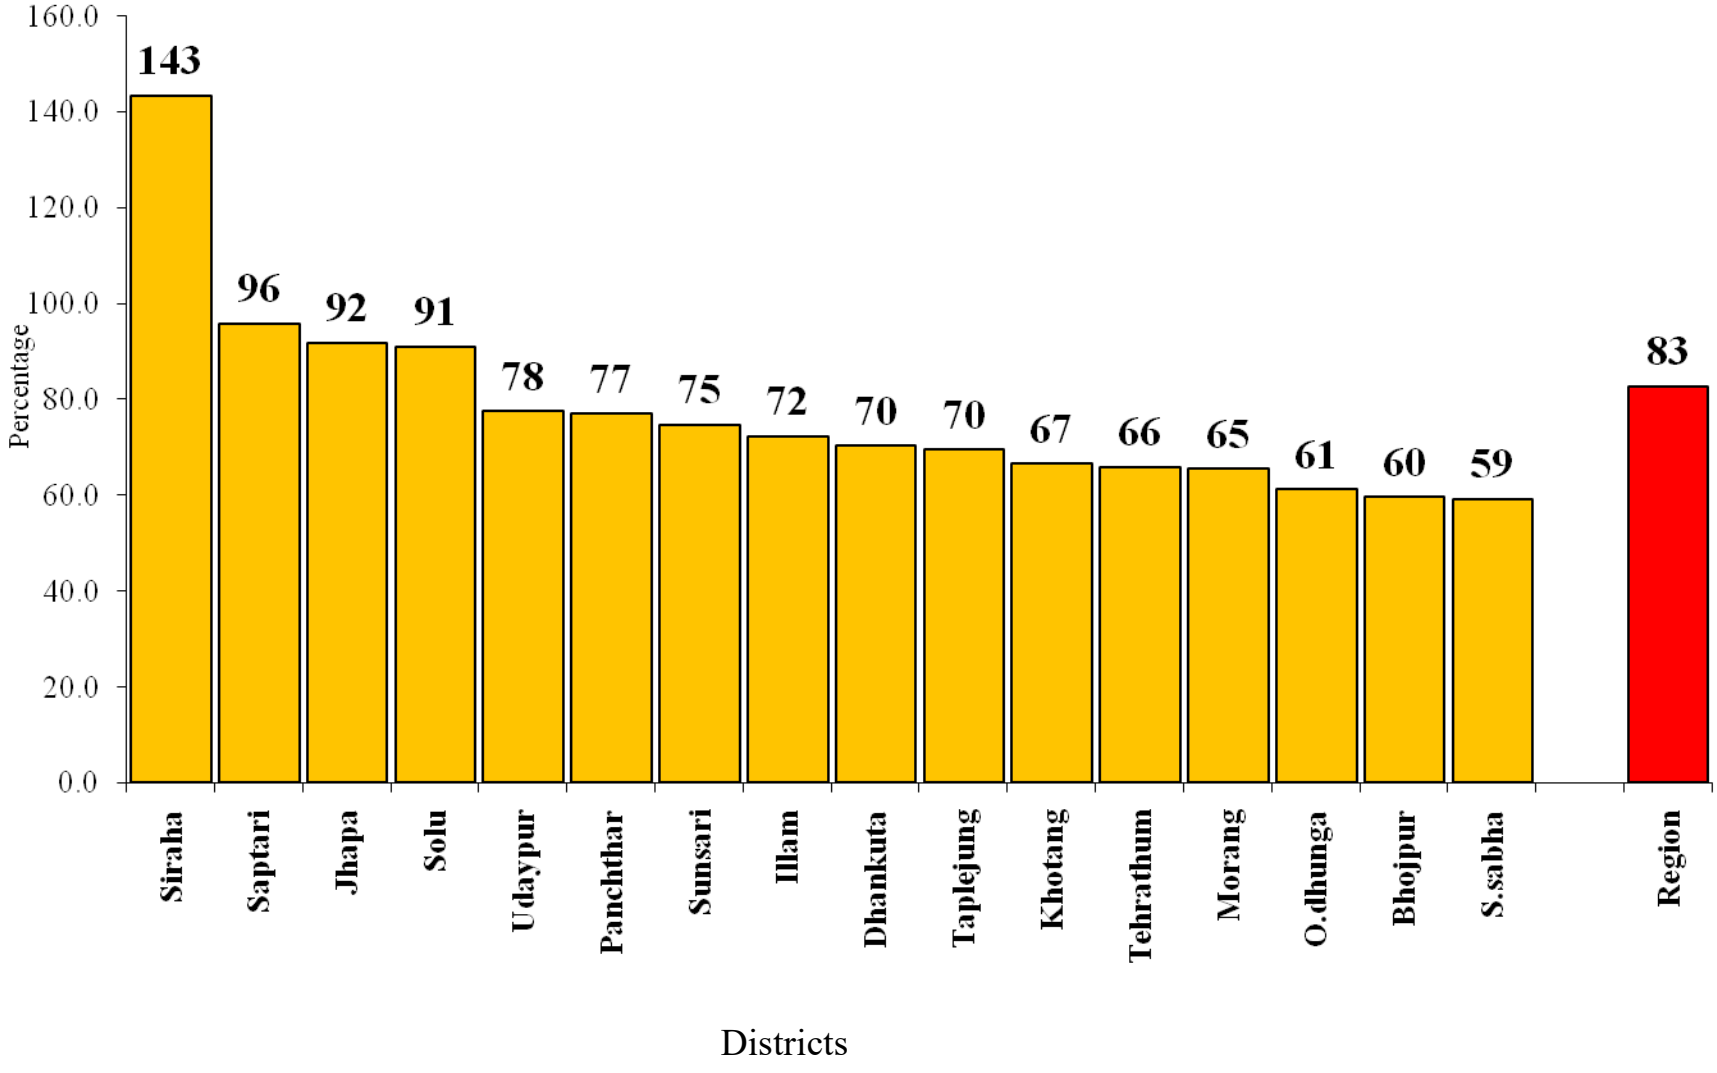
Measels Coverage
F.Y. 2067/068



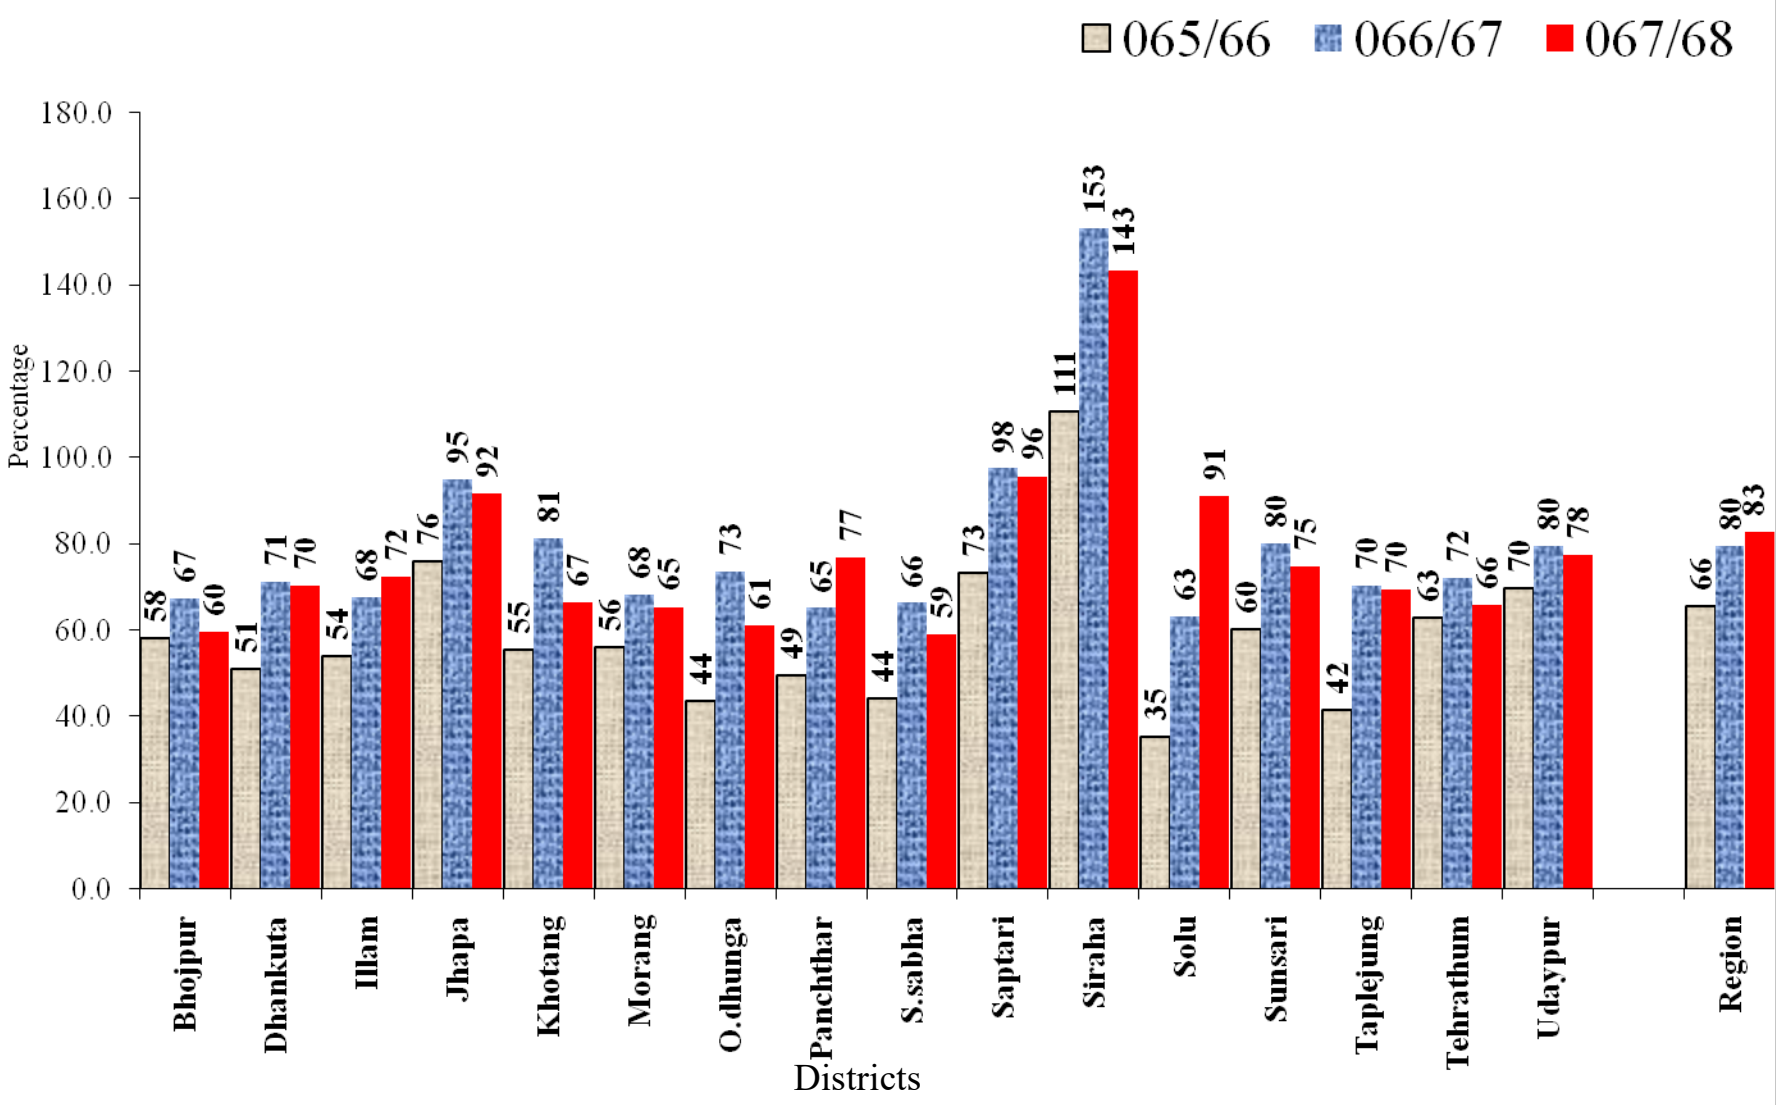
Measels Coverage
F.Y. 2065/66-2067/068



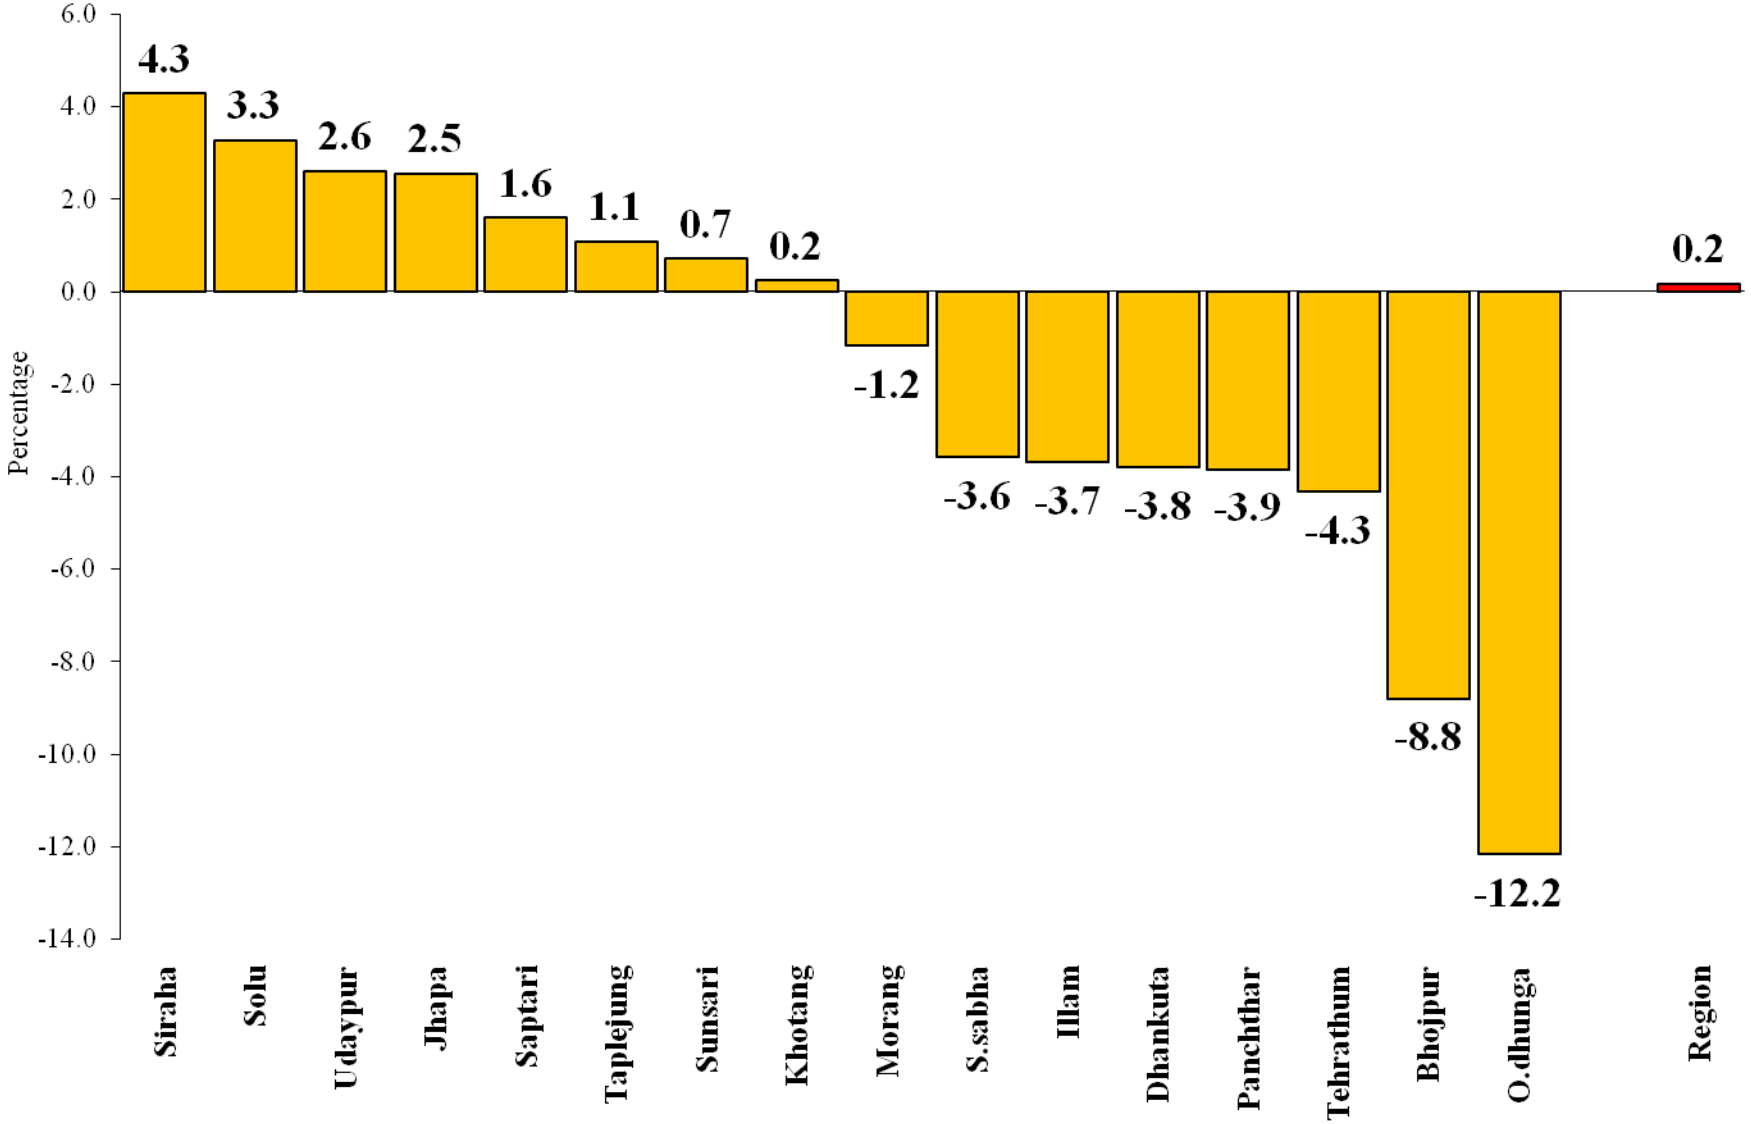
TT2+ (Sum of TT2 & TT2+) as % of Expected Pregnancy
F.Y. 2065/66-2067/068



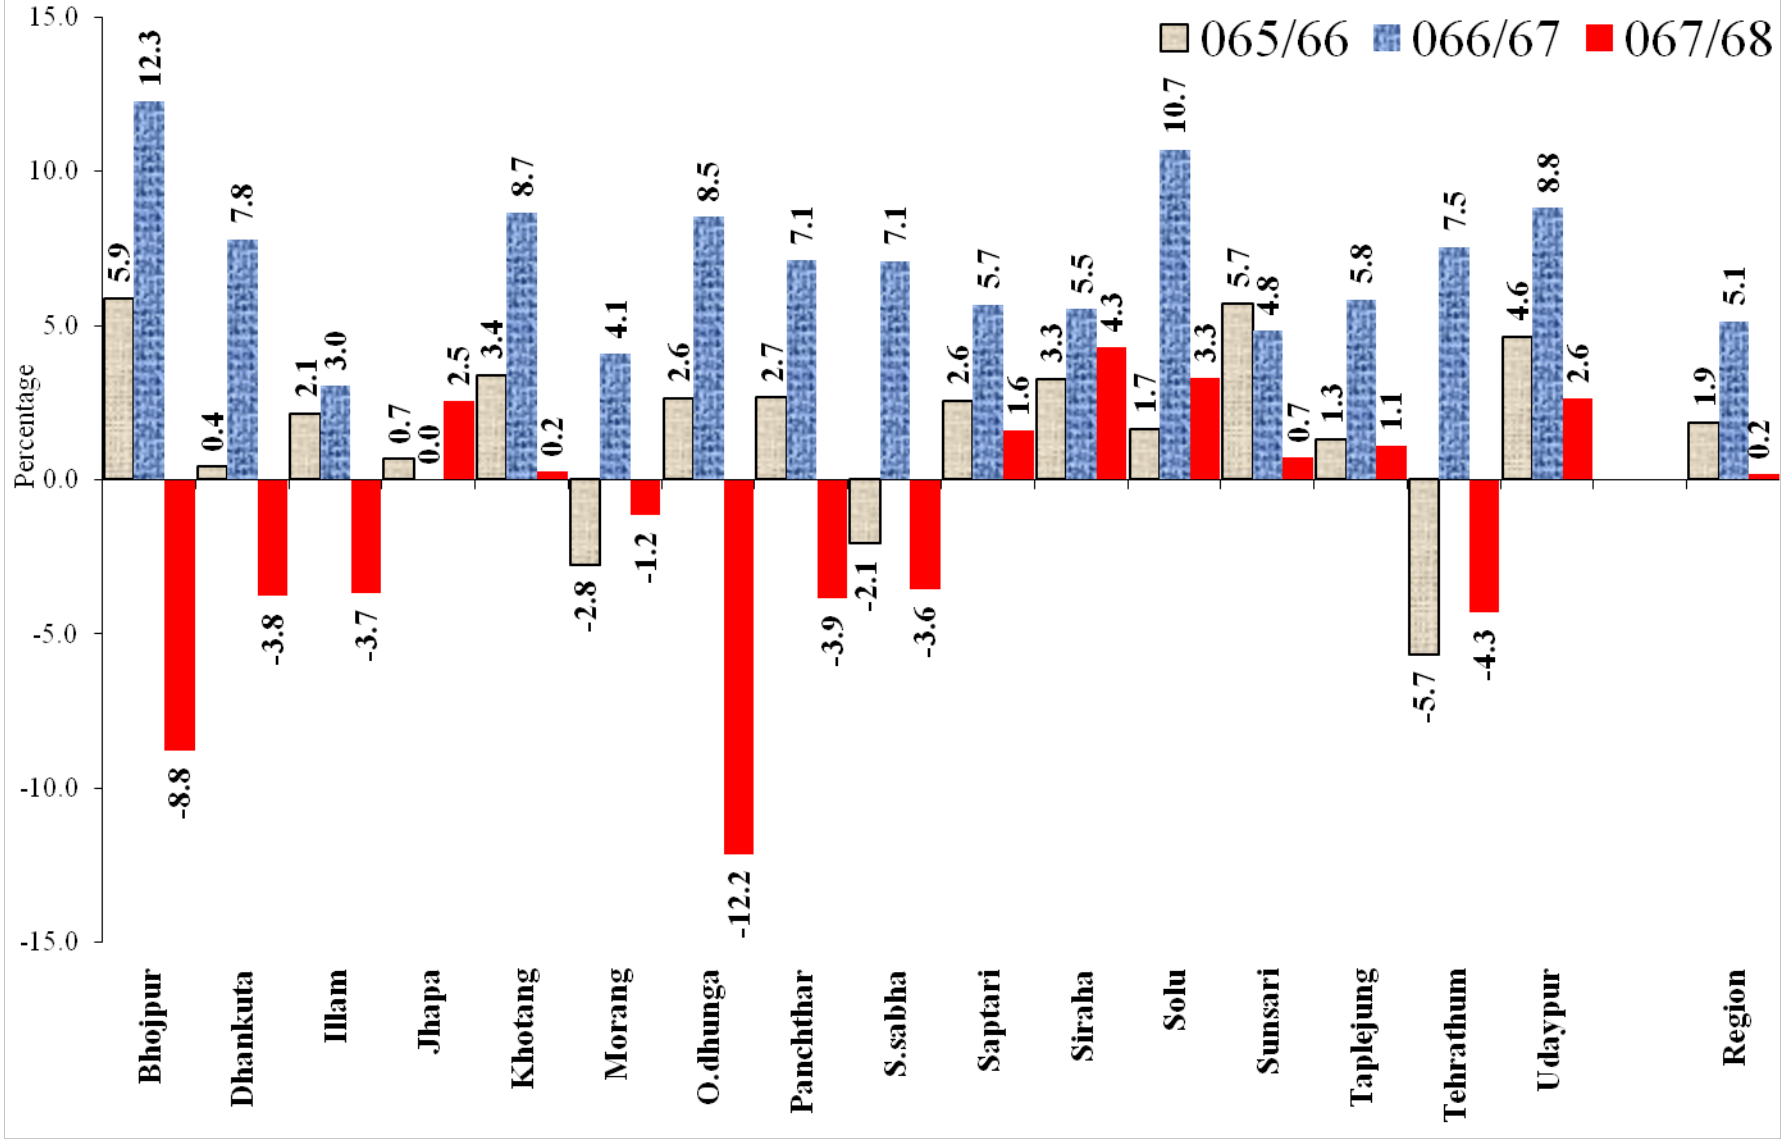
TT2+ (Sum of TT2 & TT2+) as % of Expected Pregnancy
F.Y. 2065/66-2067/068



Drop Out Rate DPT1 vs DPT3
F.Y. 2065/66-2067/068

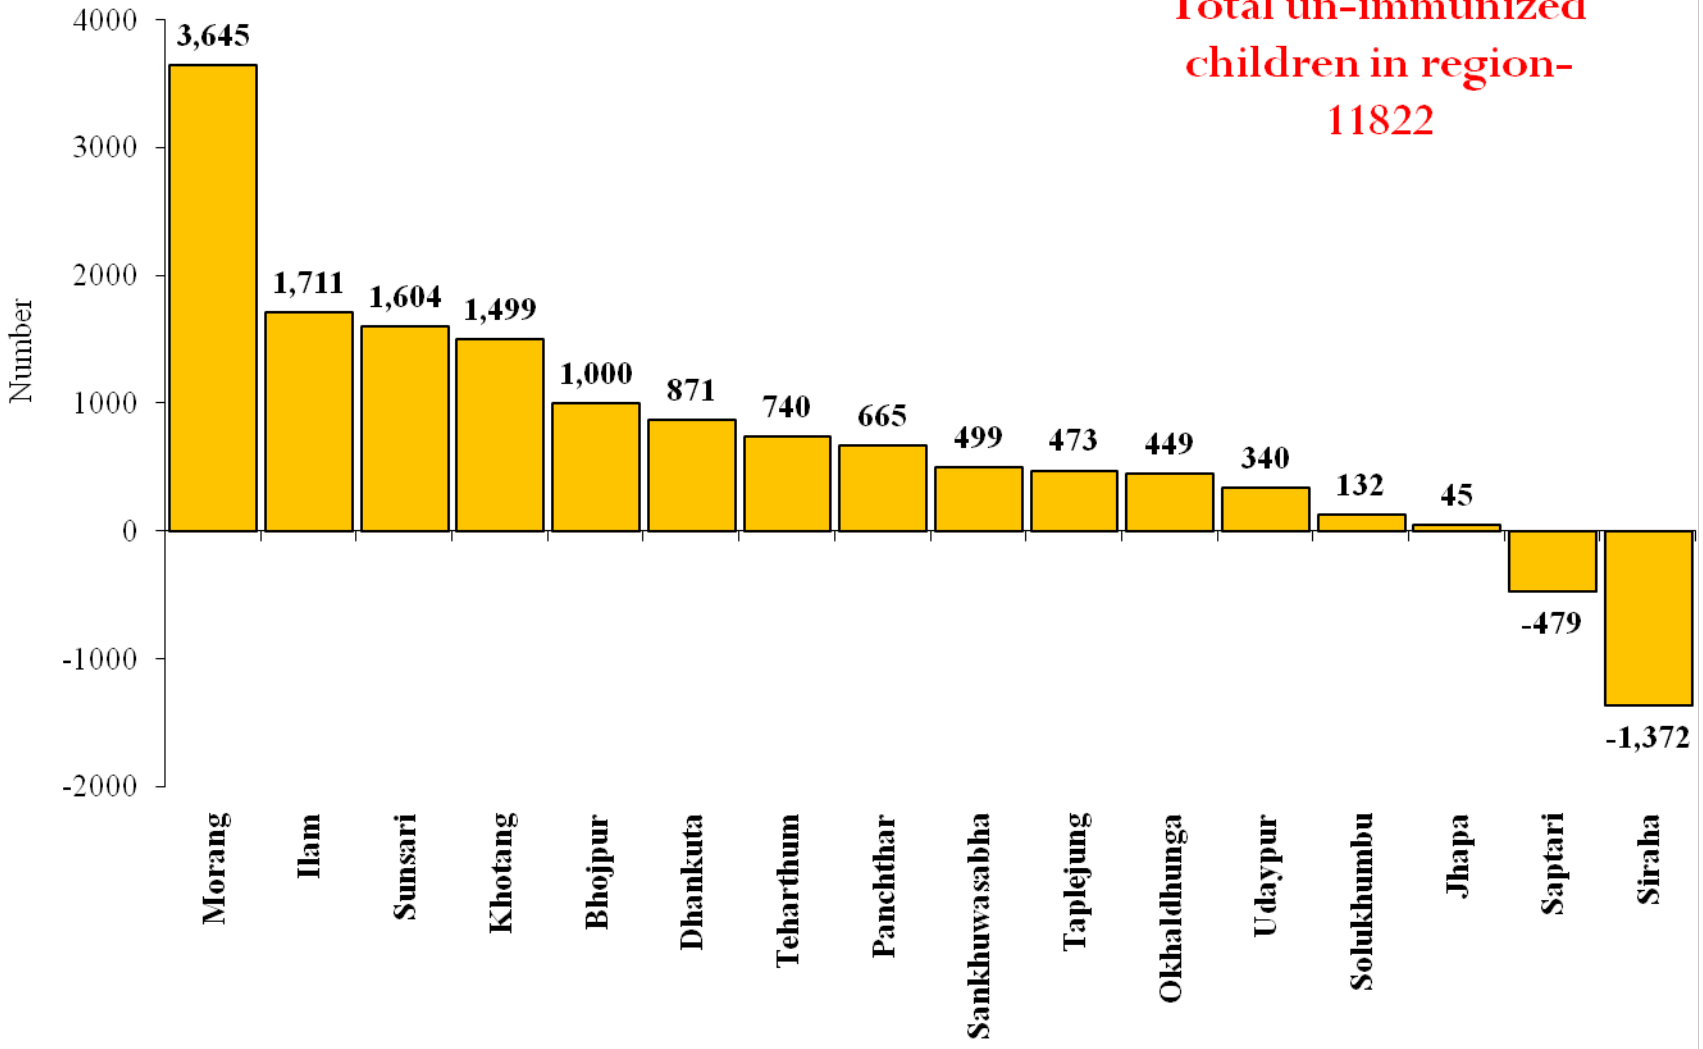


Drop Out Rate DPT1 vs DPT3
F.Y. 2065/66-2067/068

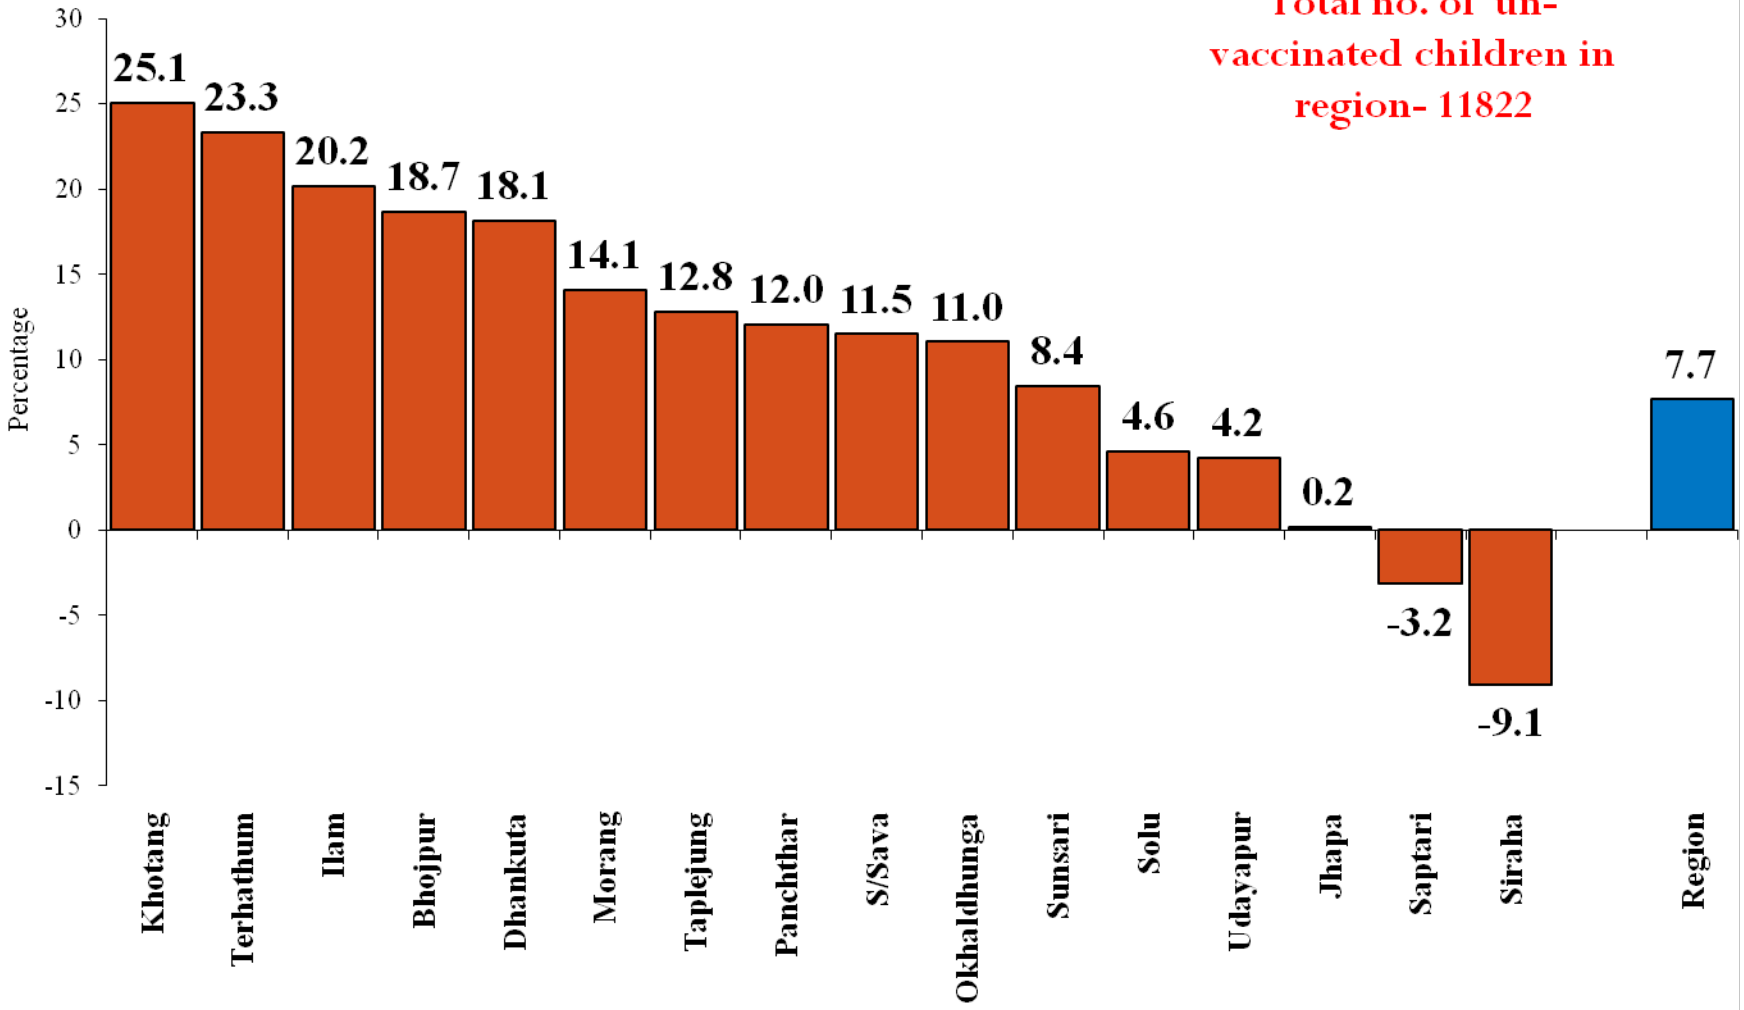


DPT3 un-vaccinated children against target F.Y. 2067/068

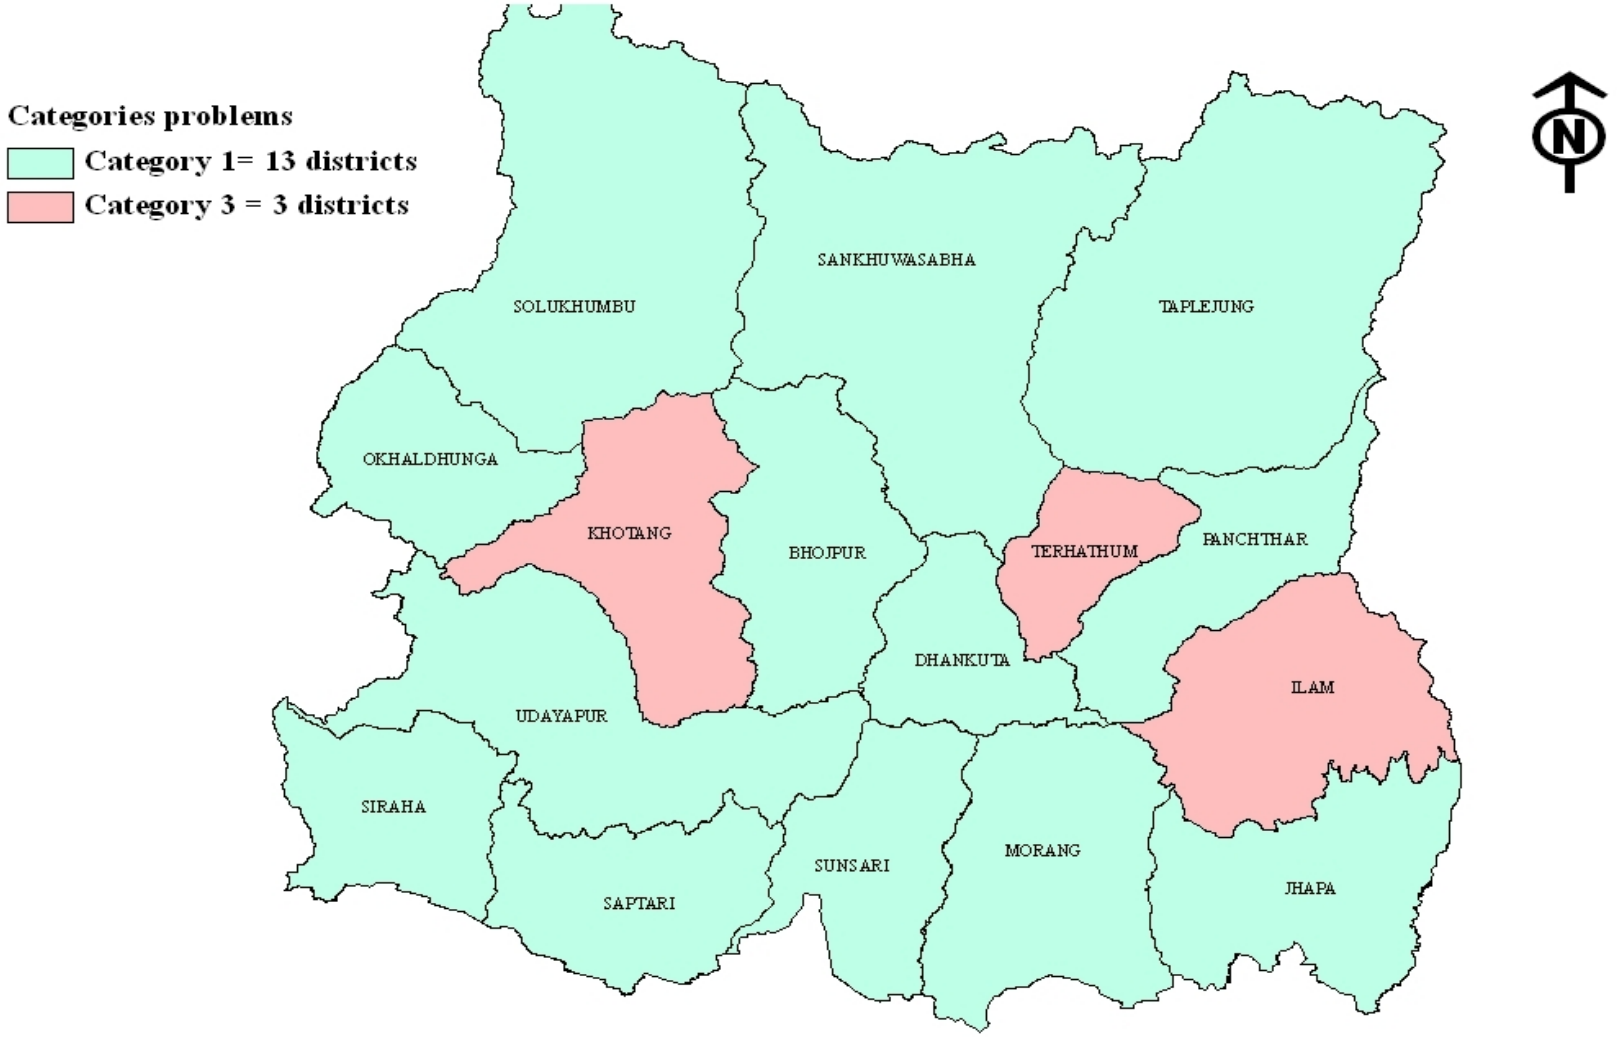
Total un-immunized children in region- 11822



Proportion of DPT3 un-vaccinated against target Population F.Y. 2067/068



Categories of DPT3 Vaccinations Districts

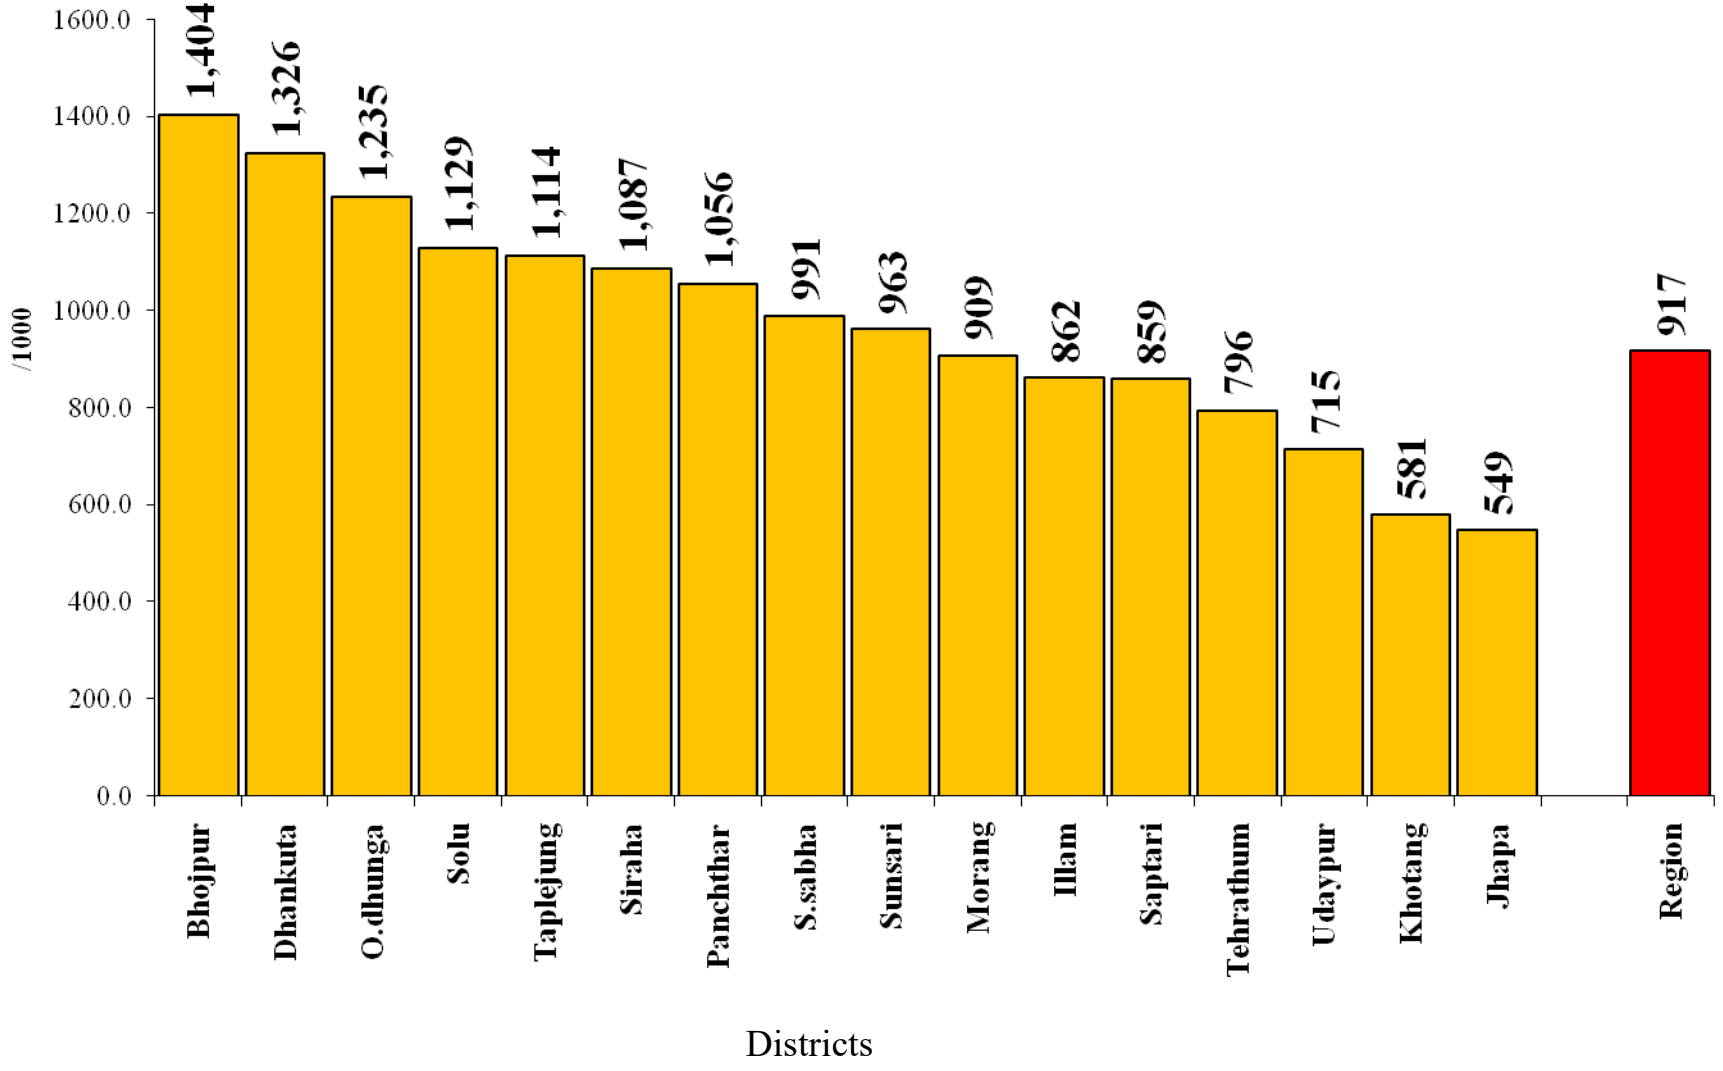


NIP OVERVIEW

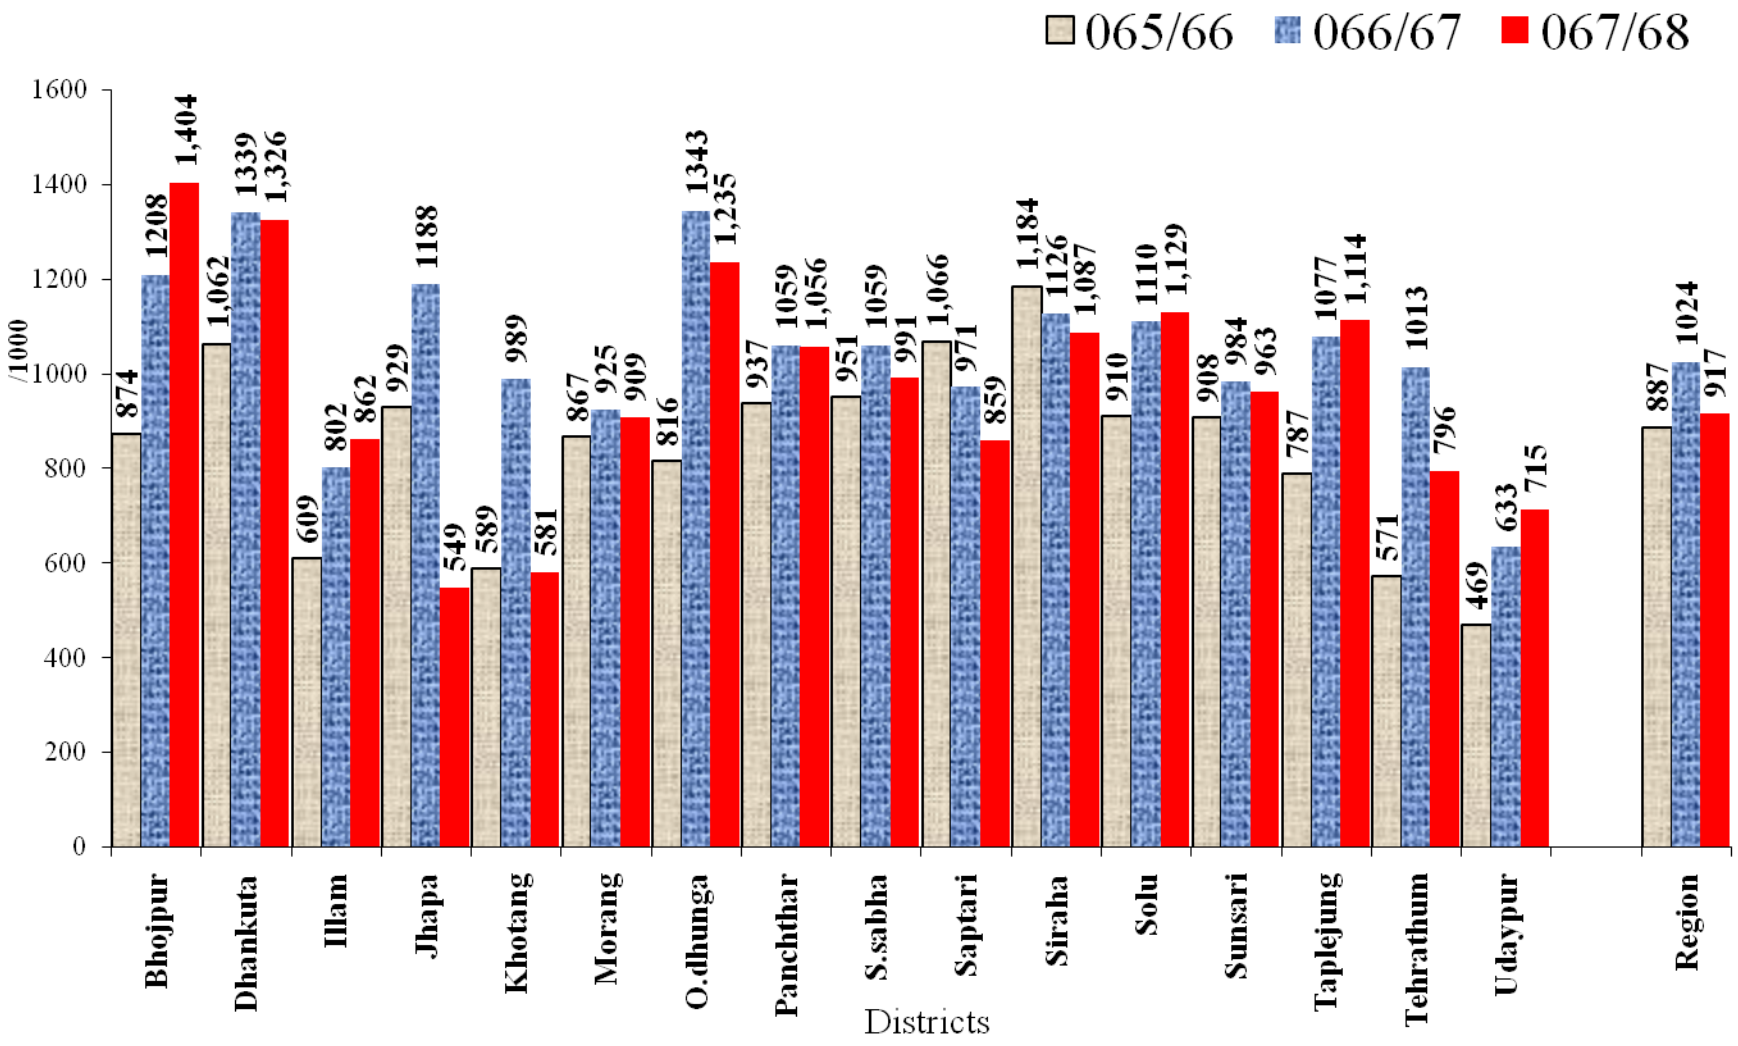
- BCG & DPT3 coverage >90% at regional level.
- Category 1 - 13 districts (High coverage & Low drop out rate)
- Category 3- 3 districts (Low coverage & Low drop out rate)
- DPT Vs. DPT3 dropout rate is within normal range (10%)

CB-IMCI Program

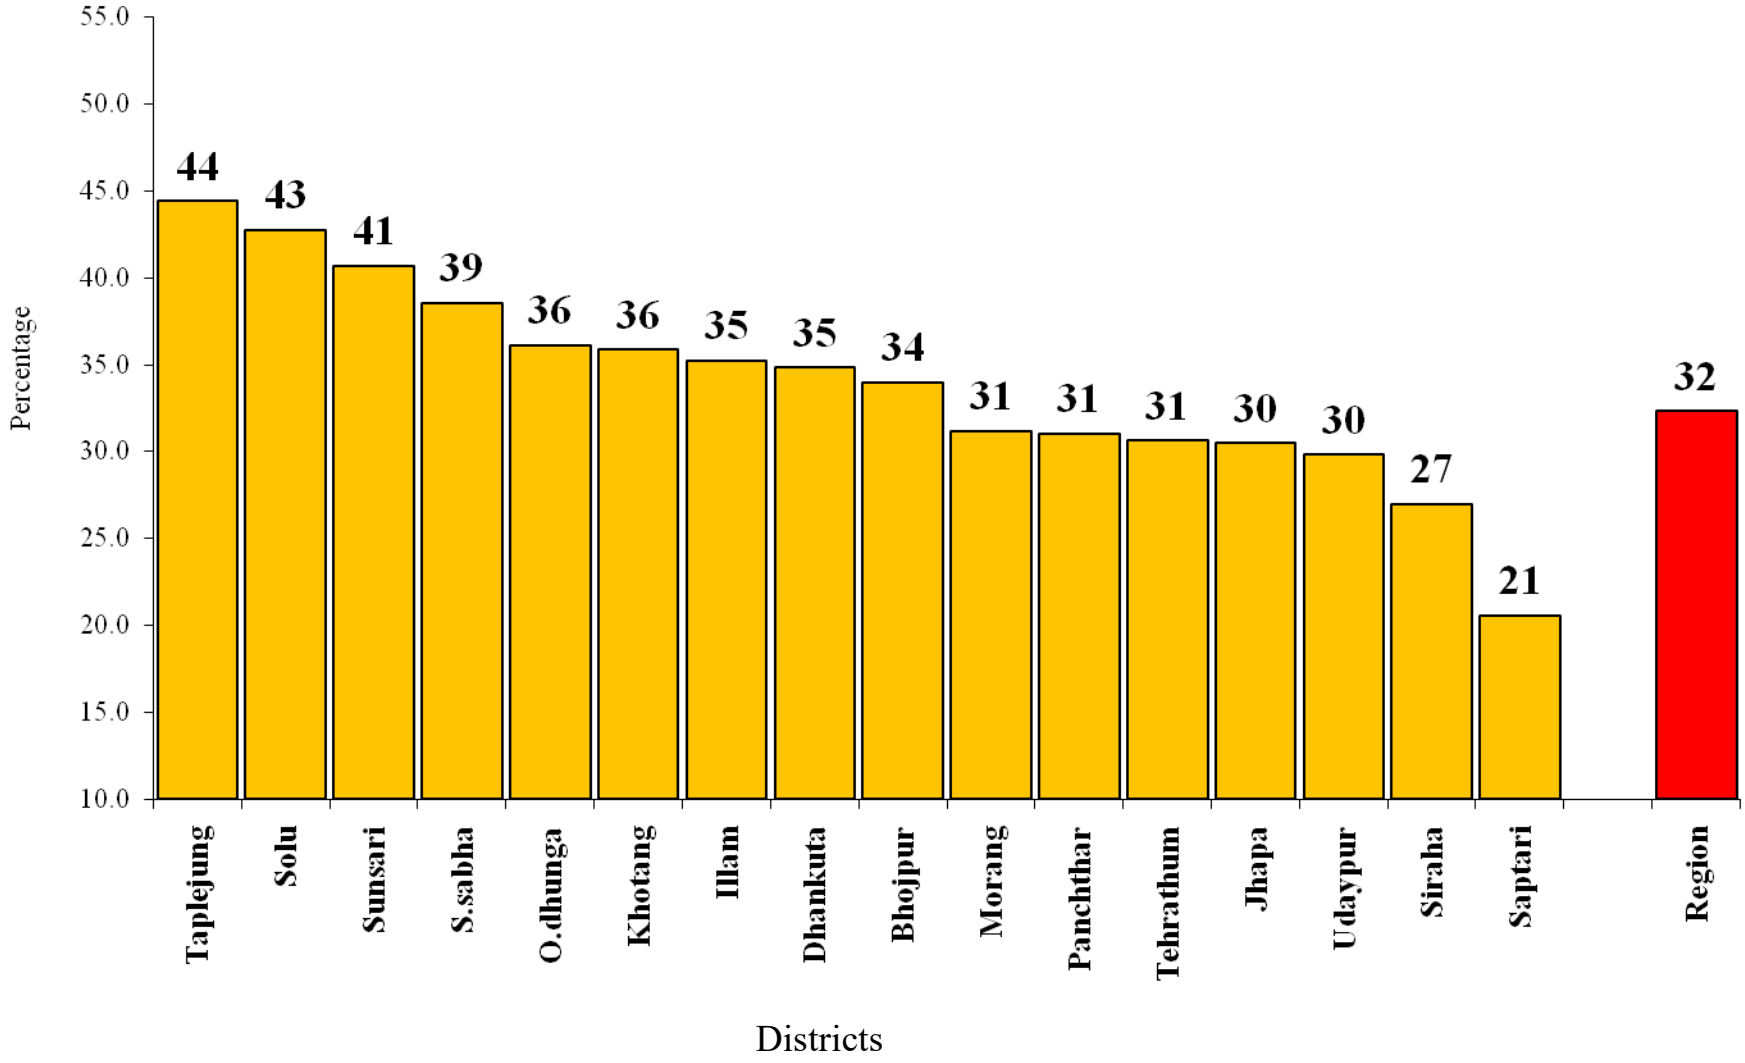
Incidence of ARI Cases Per 1000 Children (<5 years)
F.Y. 2067/068



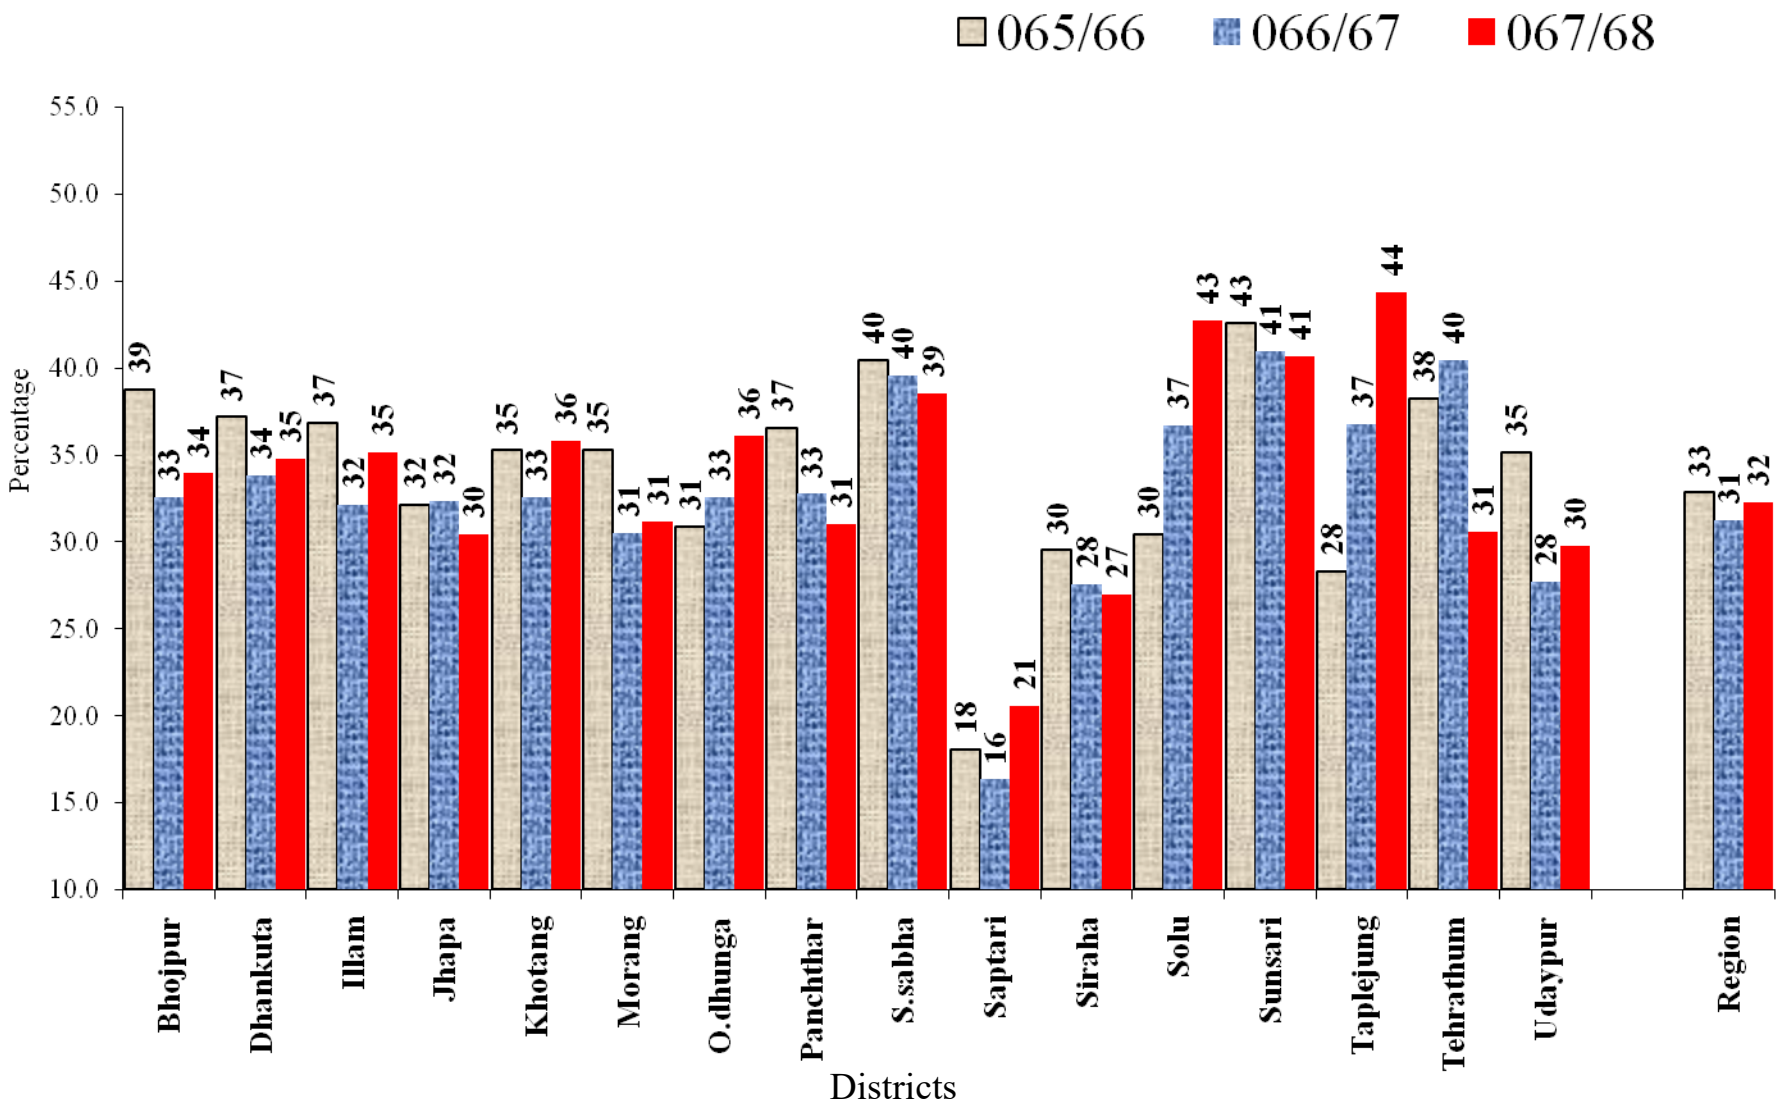
Incidence of ARI Cases Per 1000 Children (<5 years)
F.Y. 2065/66-2067/068



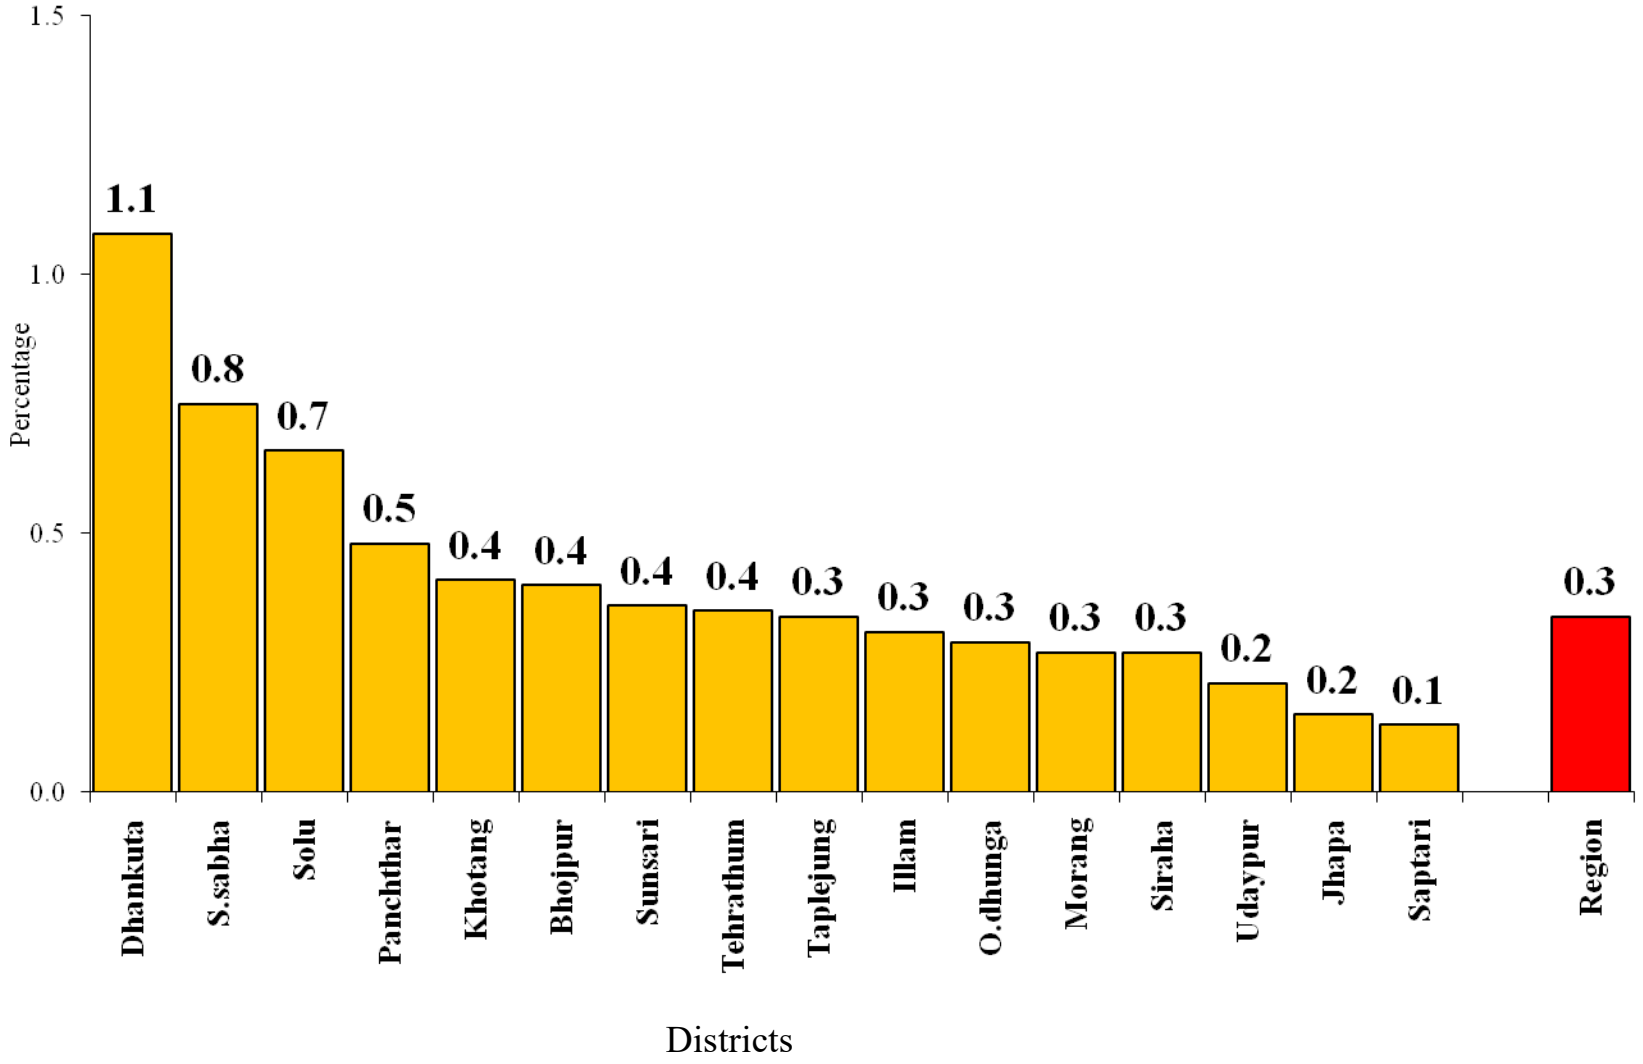
% of Pneumonia among New ARI Cases
F.Y. 2067/068



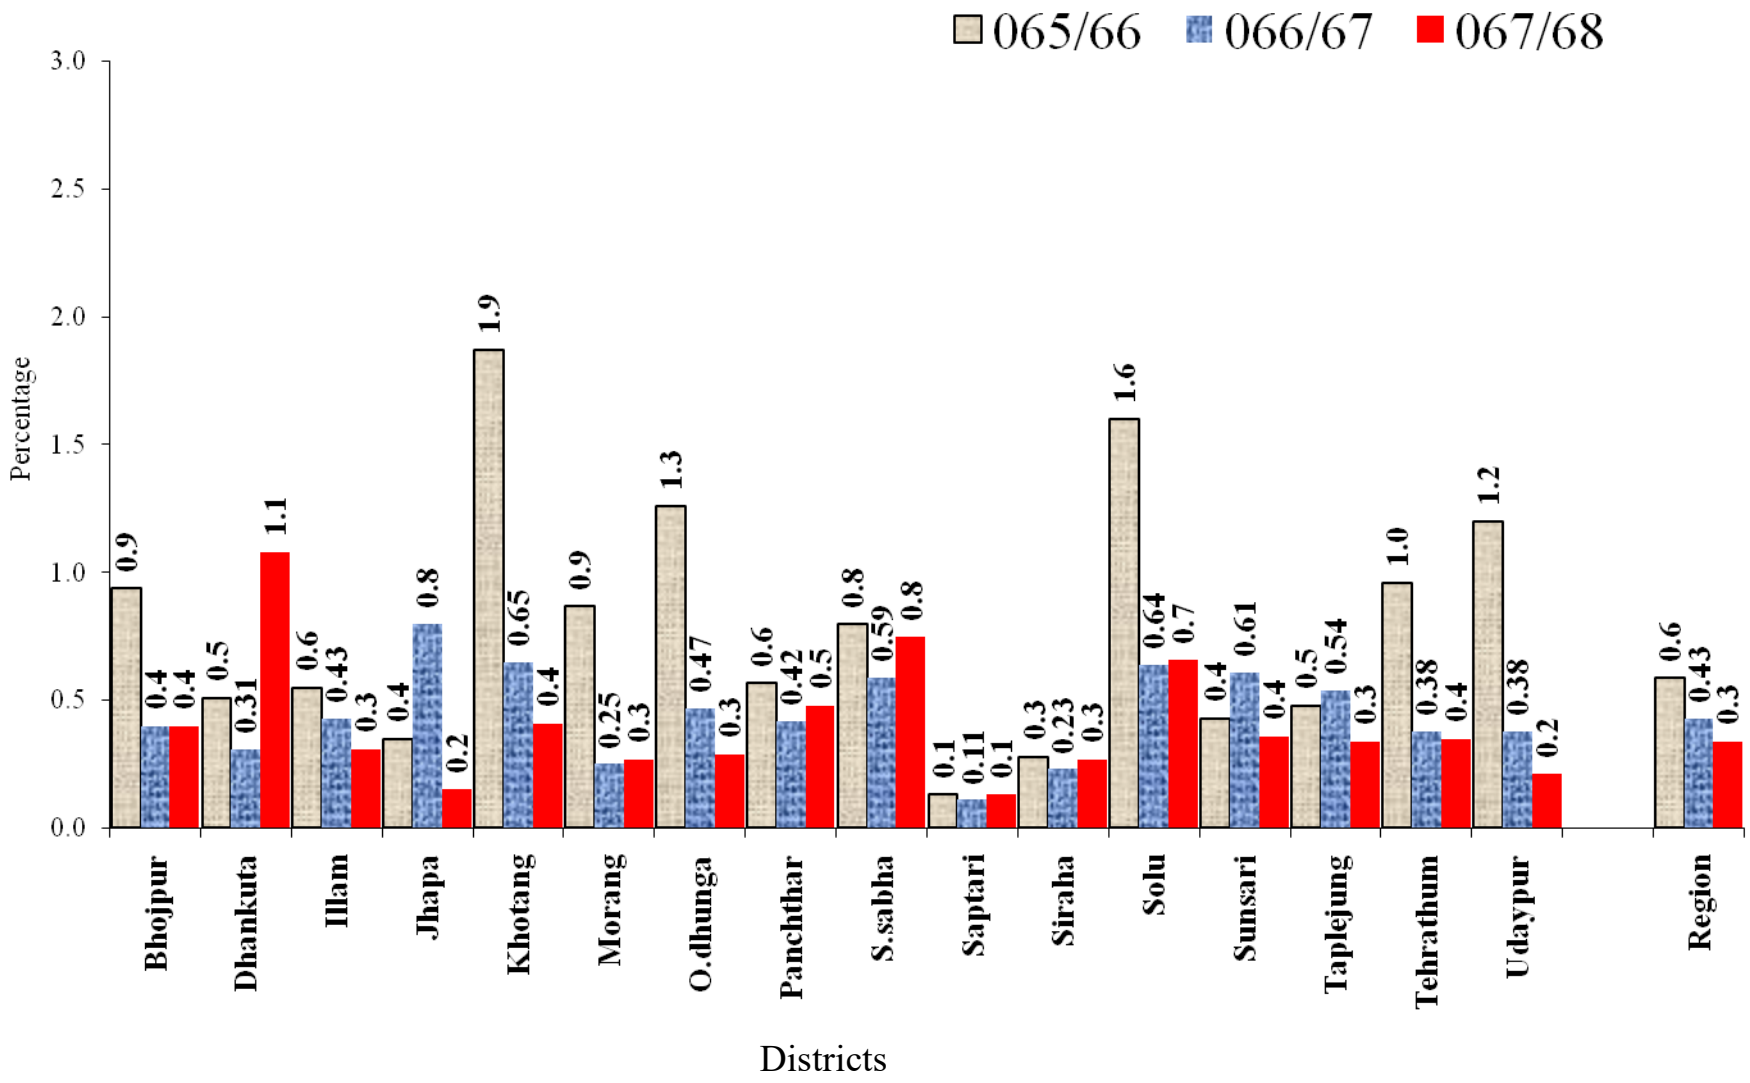
% of Pneumonia among New ARI Cases
F.Y. 2065/66-2067/068



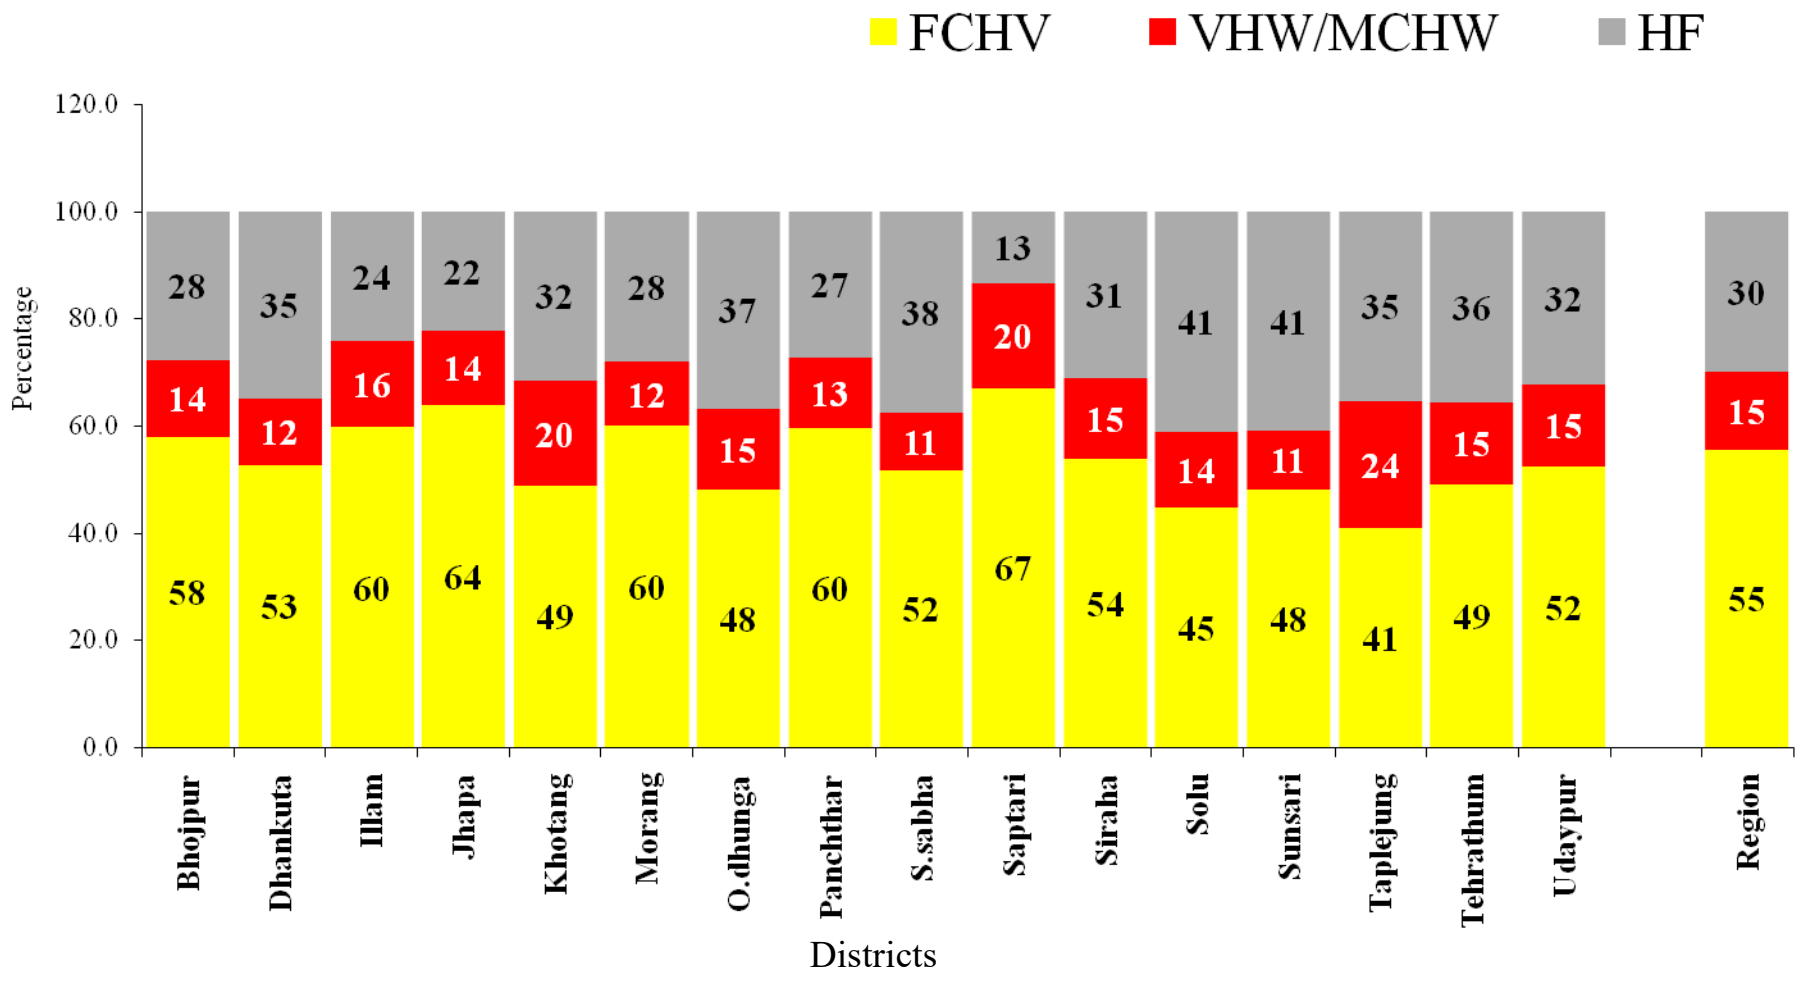
% of Severe Pneumonia among New ARI Cases F.Y. 2067/068



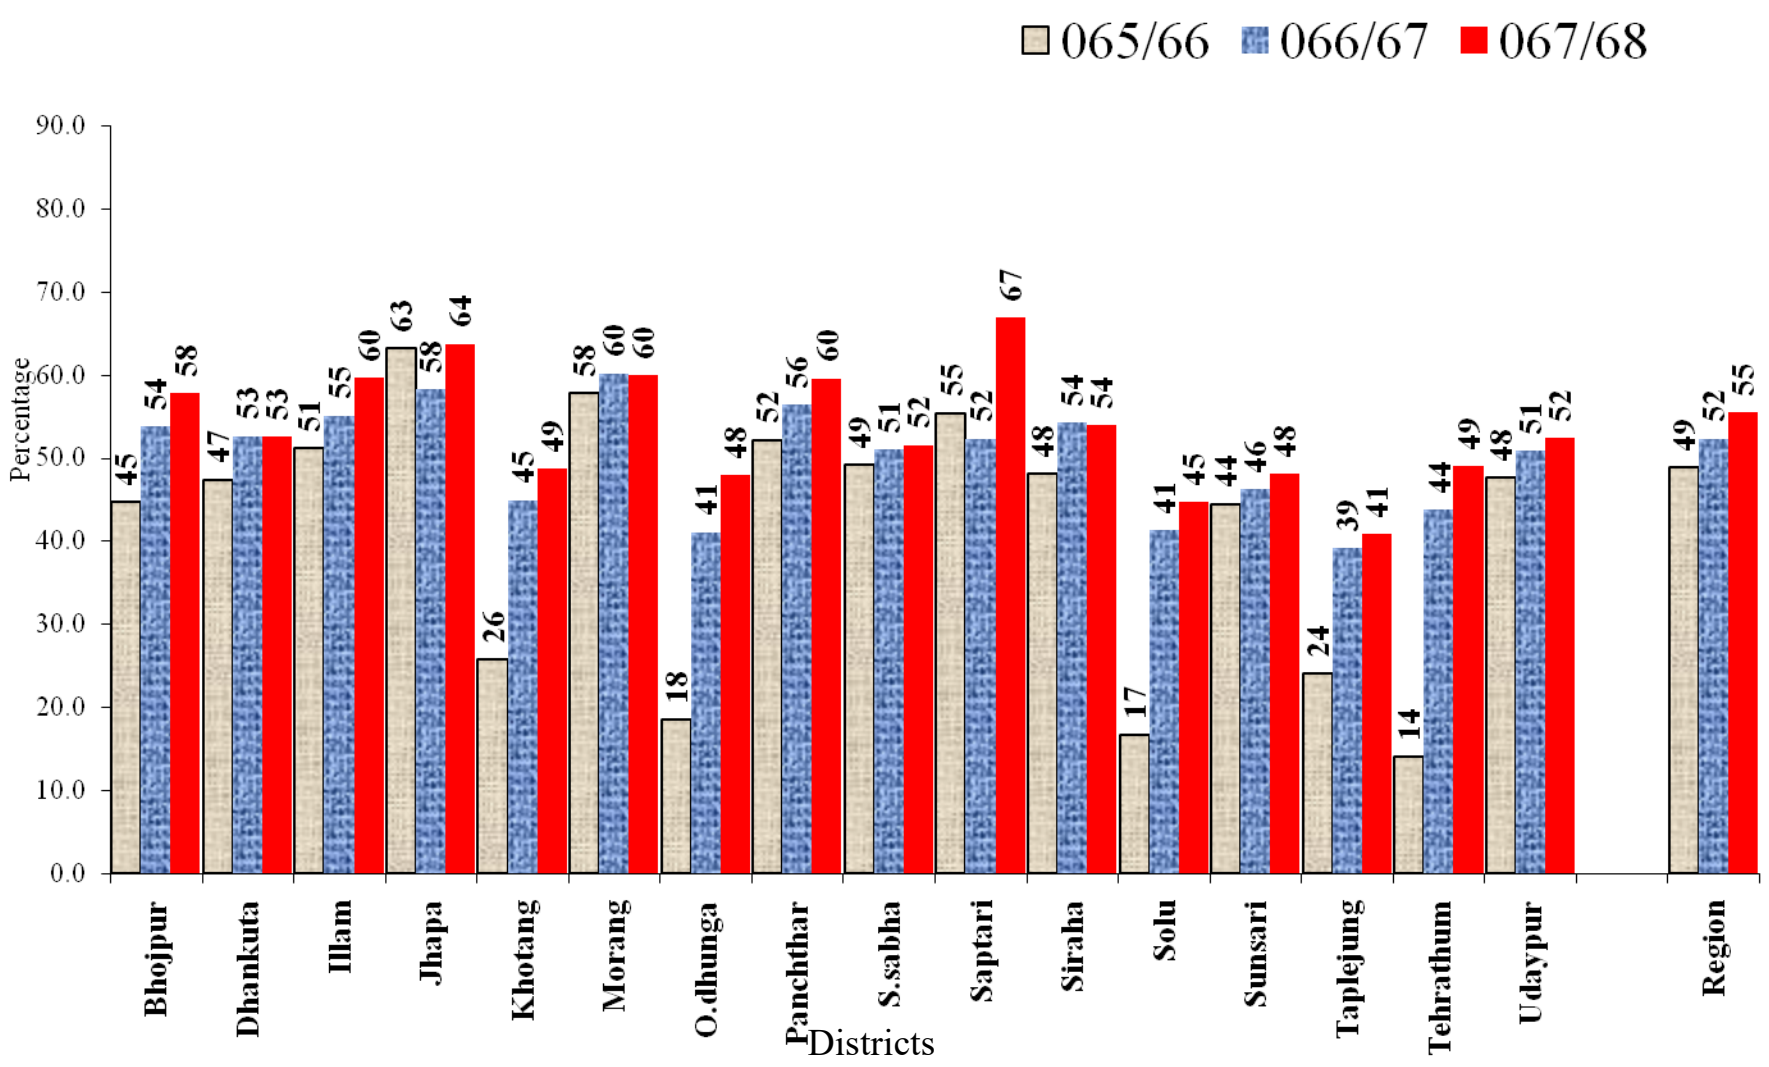
% of Severe Pneumonia among New ARI Cases
F.Y. 2065/66-2067/068



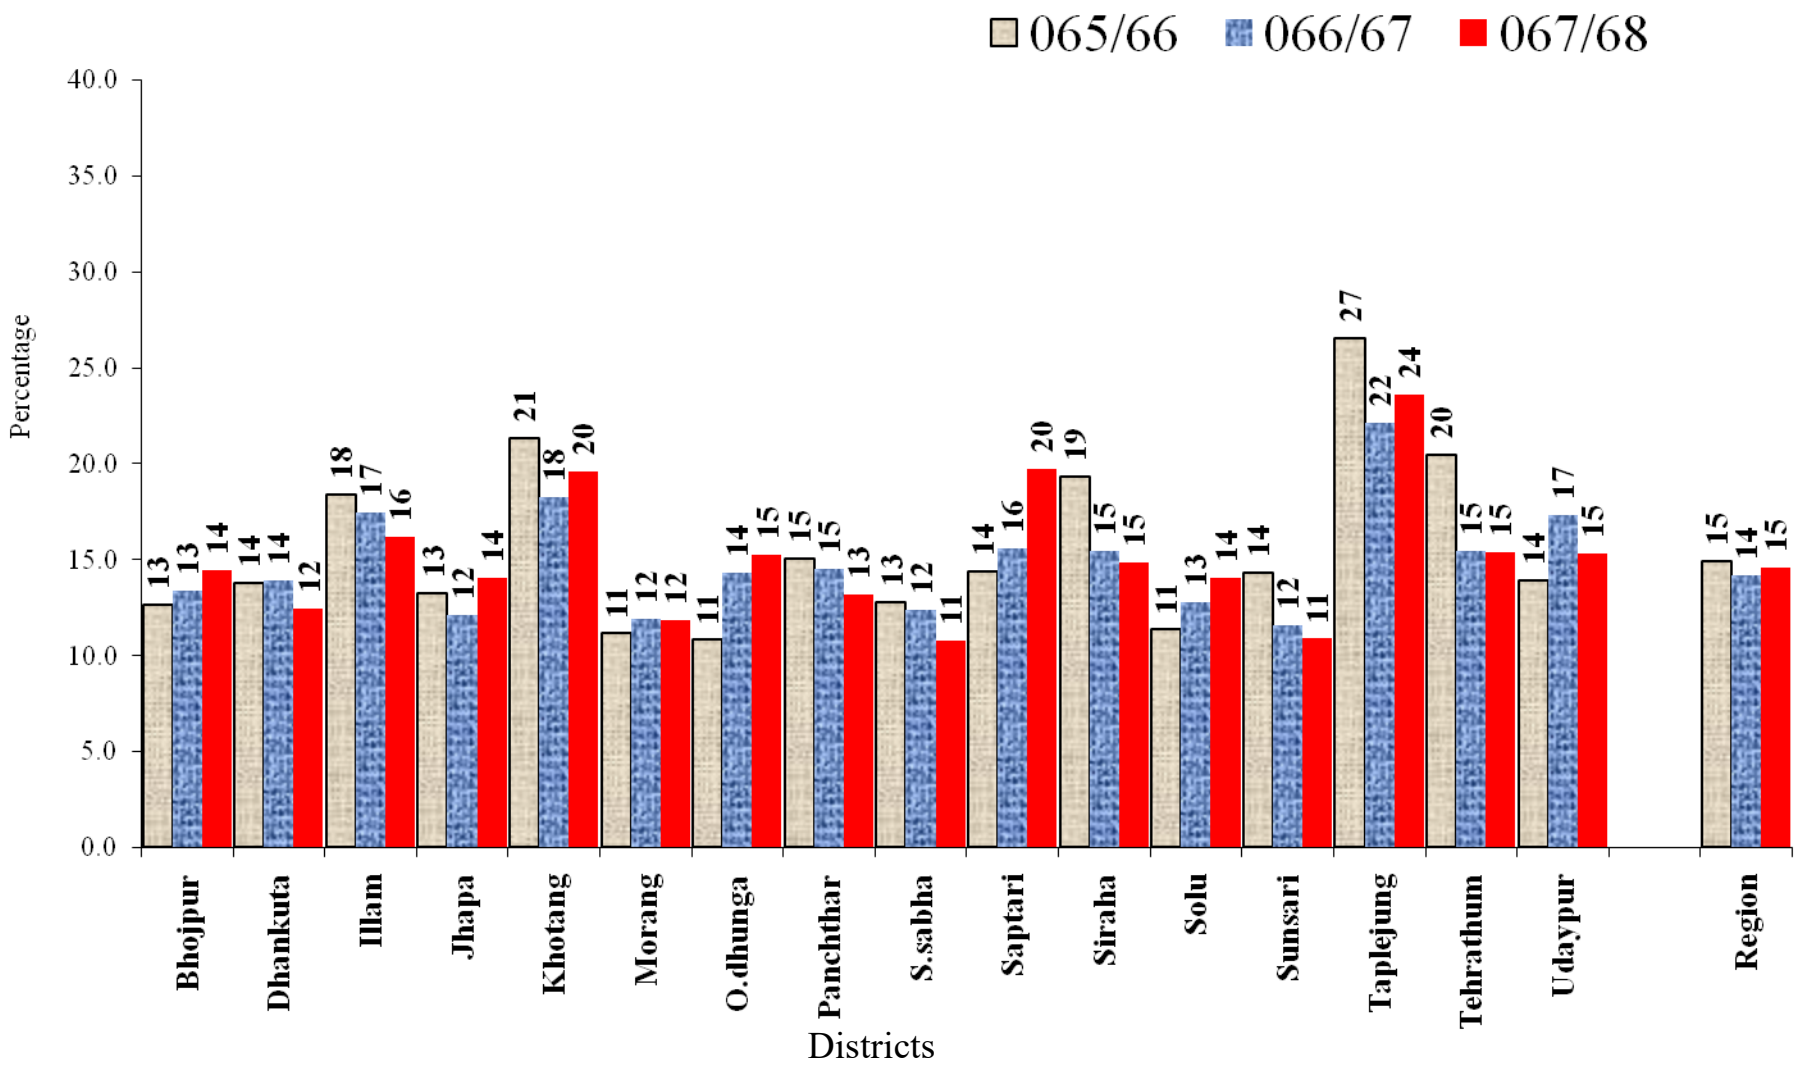
Proportion of ARI Cases Treated by FCHV, VHW/MCHW & HFs F.Y. 067/068



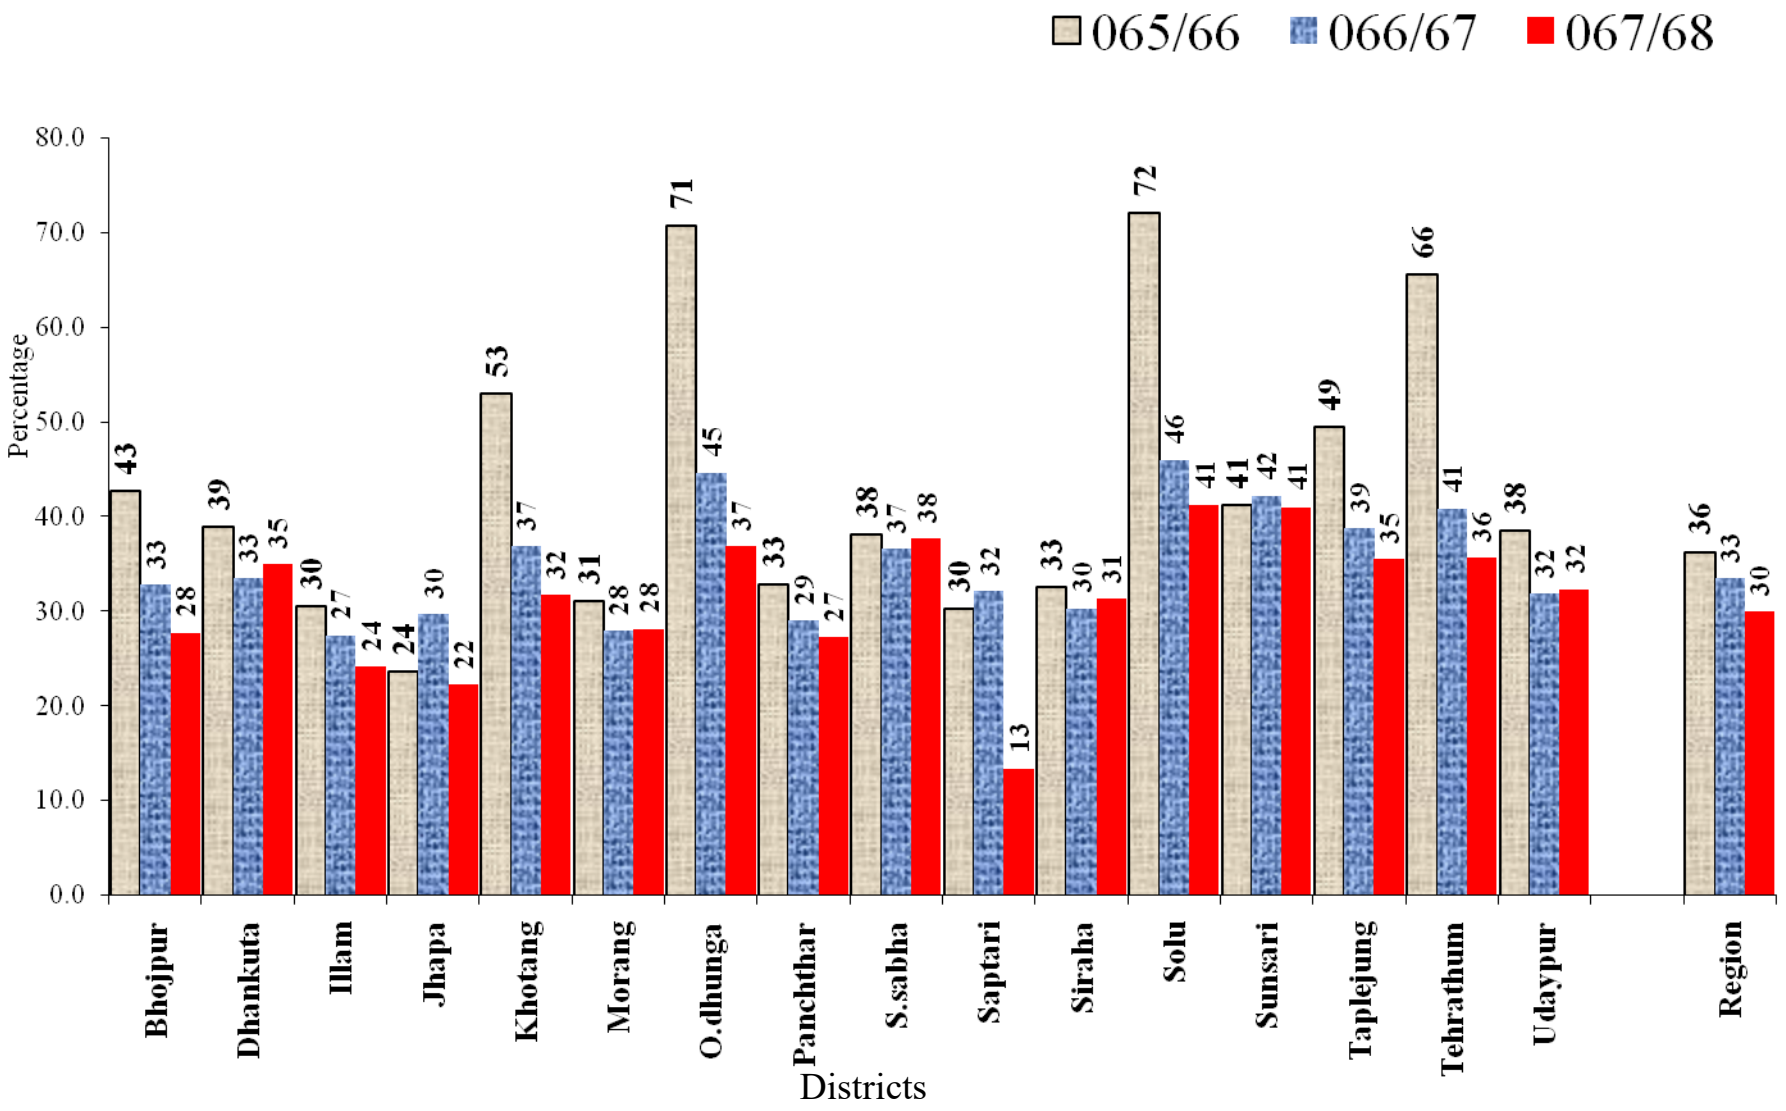
Proportion of ARI Cases Treated by FCHV
F.Y. 2065/66-2067/068



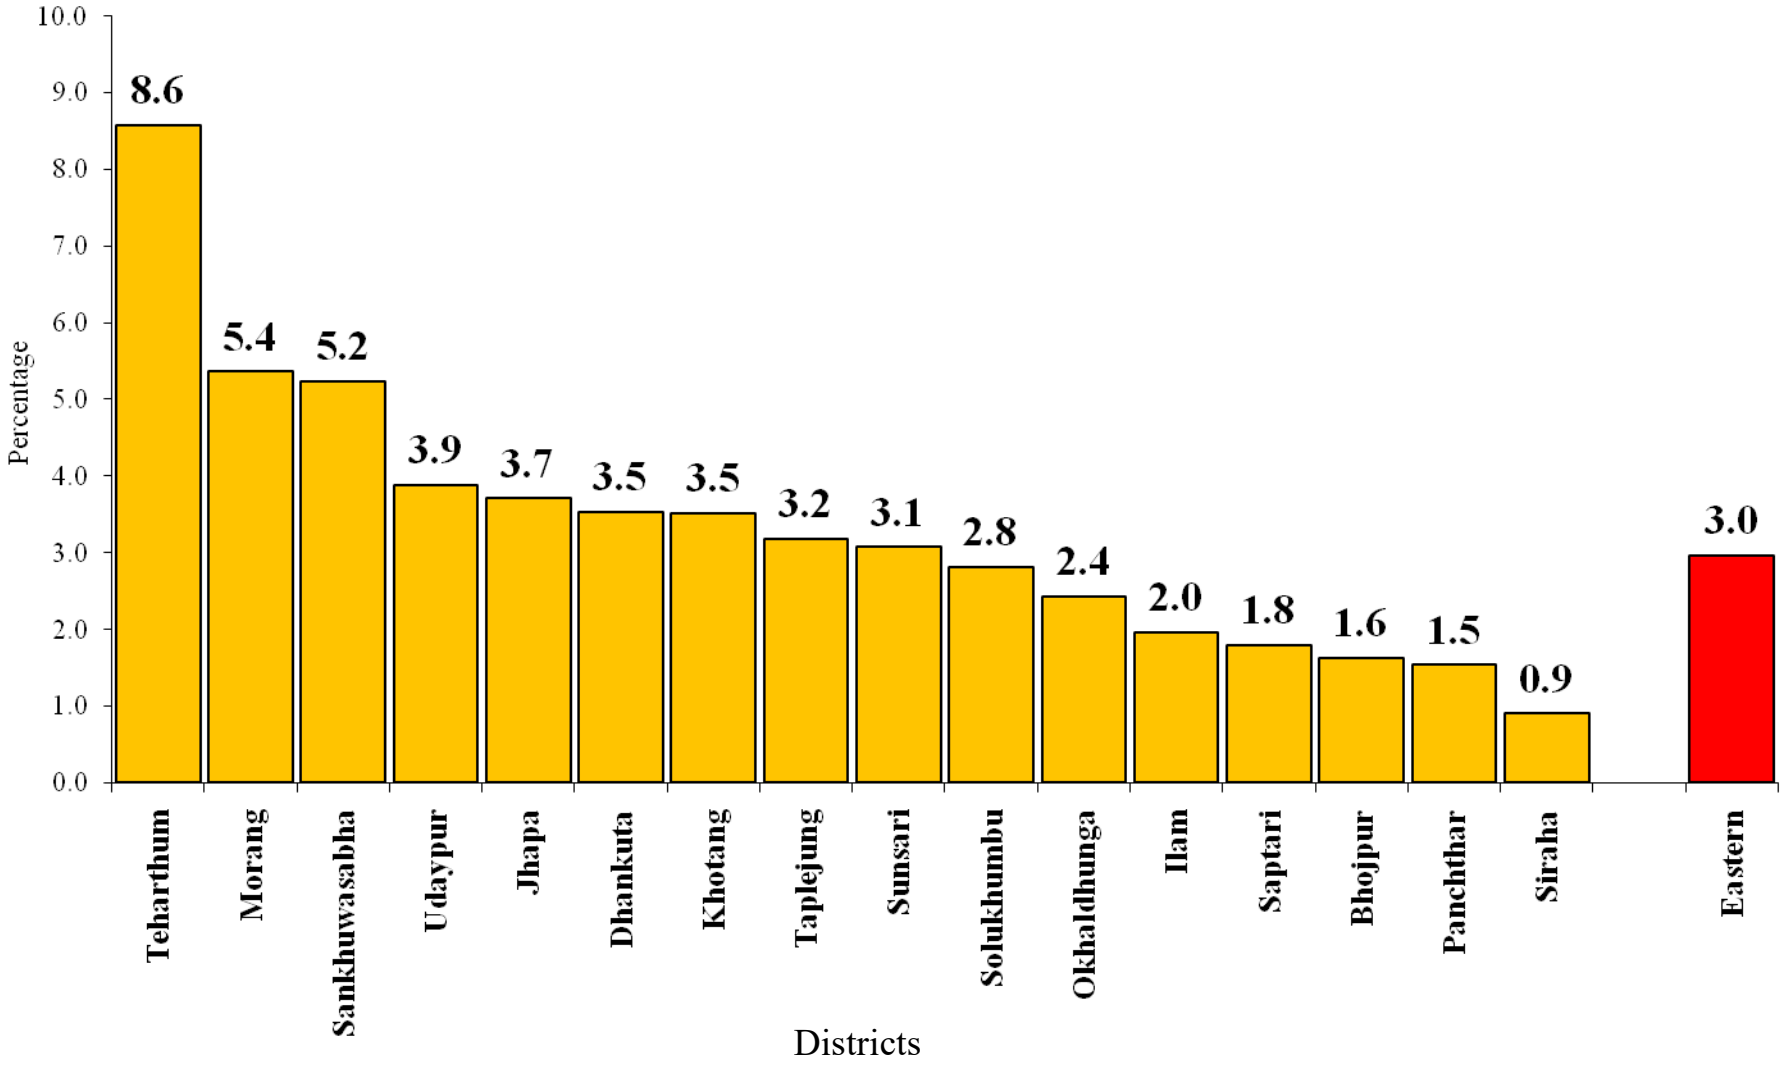
Proportion of ARI Cases Treated by VHW/MCHW F.Y. 2065/66-2067/068



Proportion of ARI Cases Treated at Health Facility
F.Y. 2065/66-2067/068



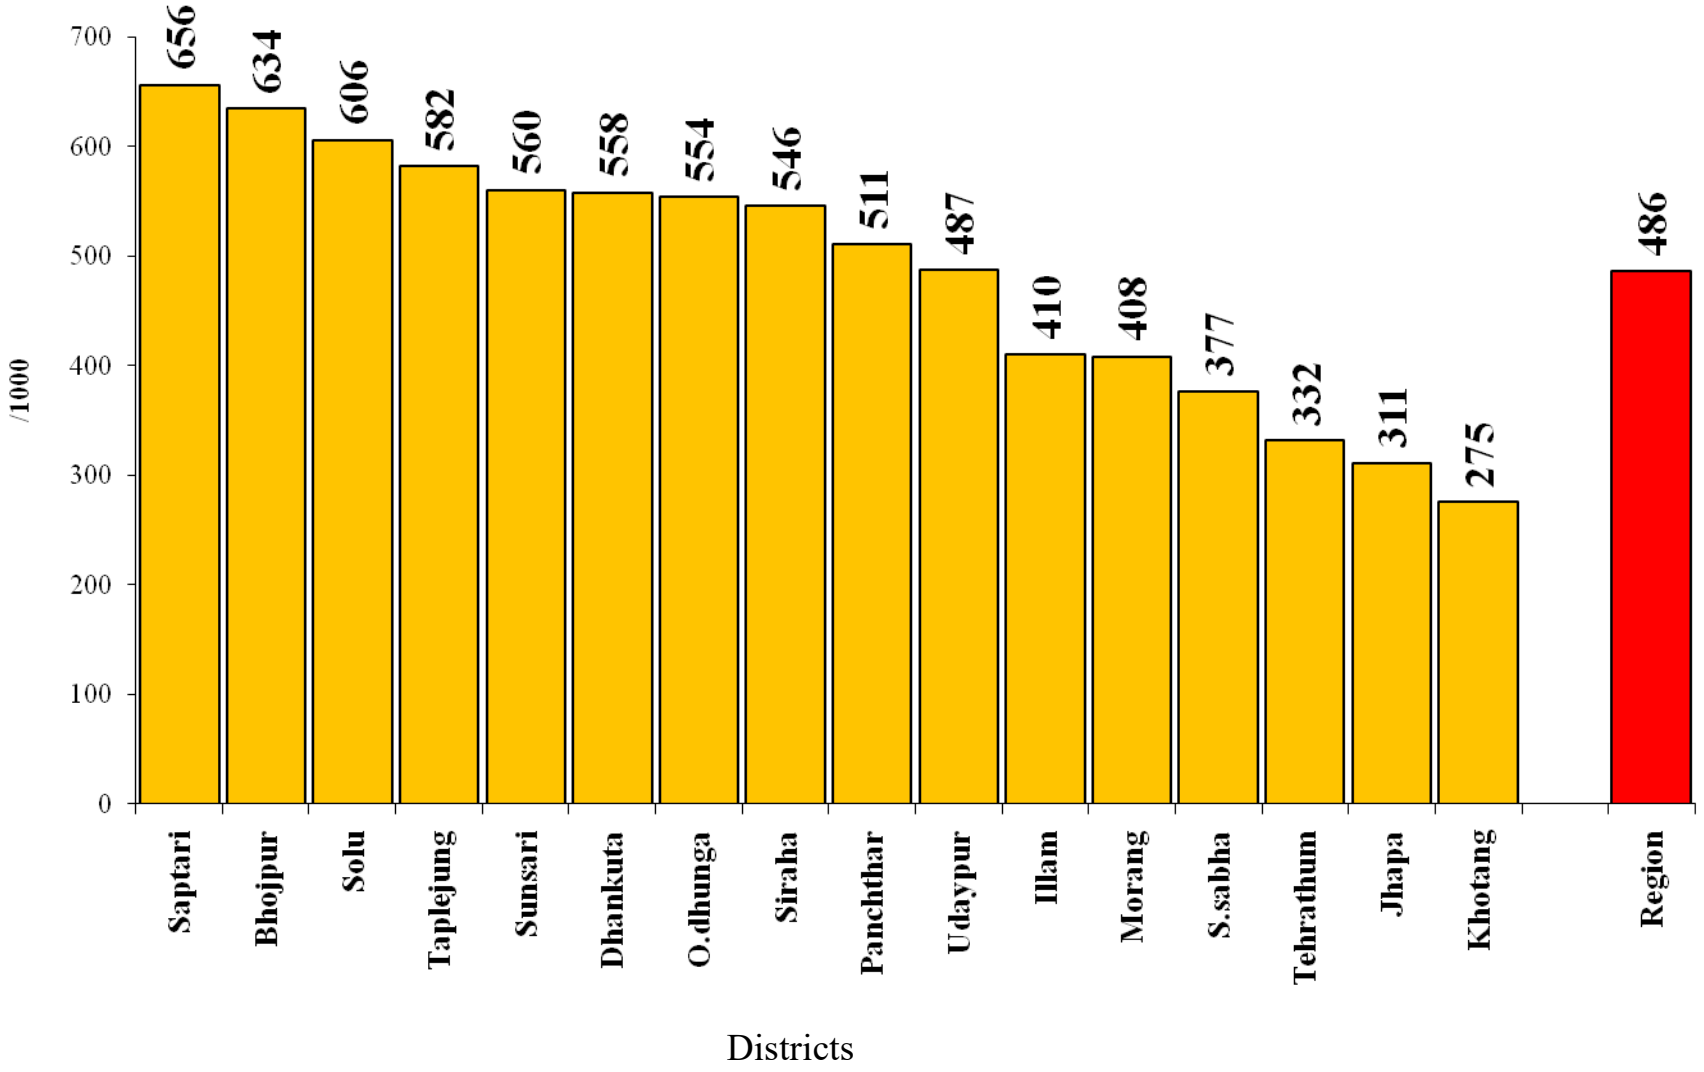
Proportion of <2 months sick case treated by HFs
F.Y. 2067/068



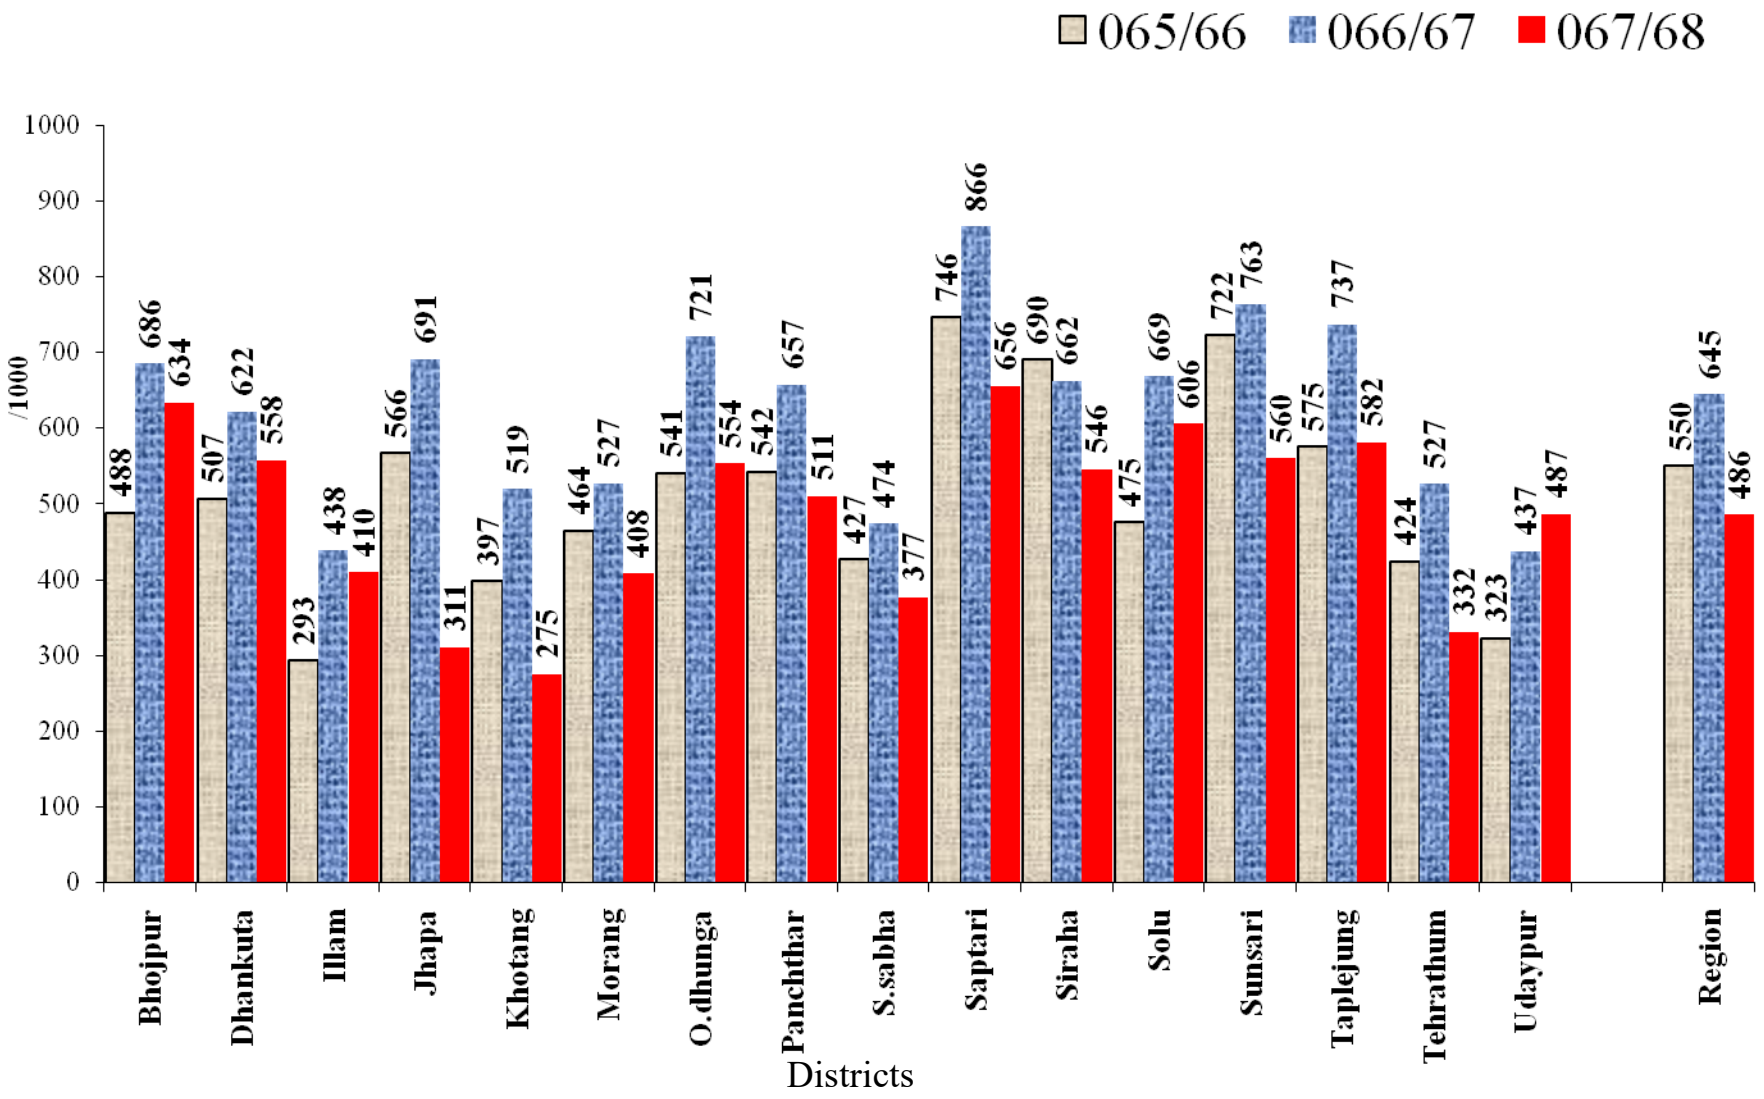
Overview of ARI Program

- **Decreasing trend of Severe Pneumonia cases.**
- **Children under 2 months treatment at HF is still low.**

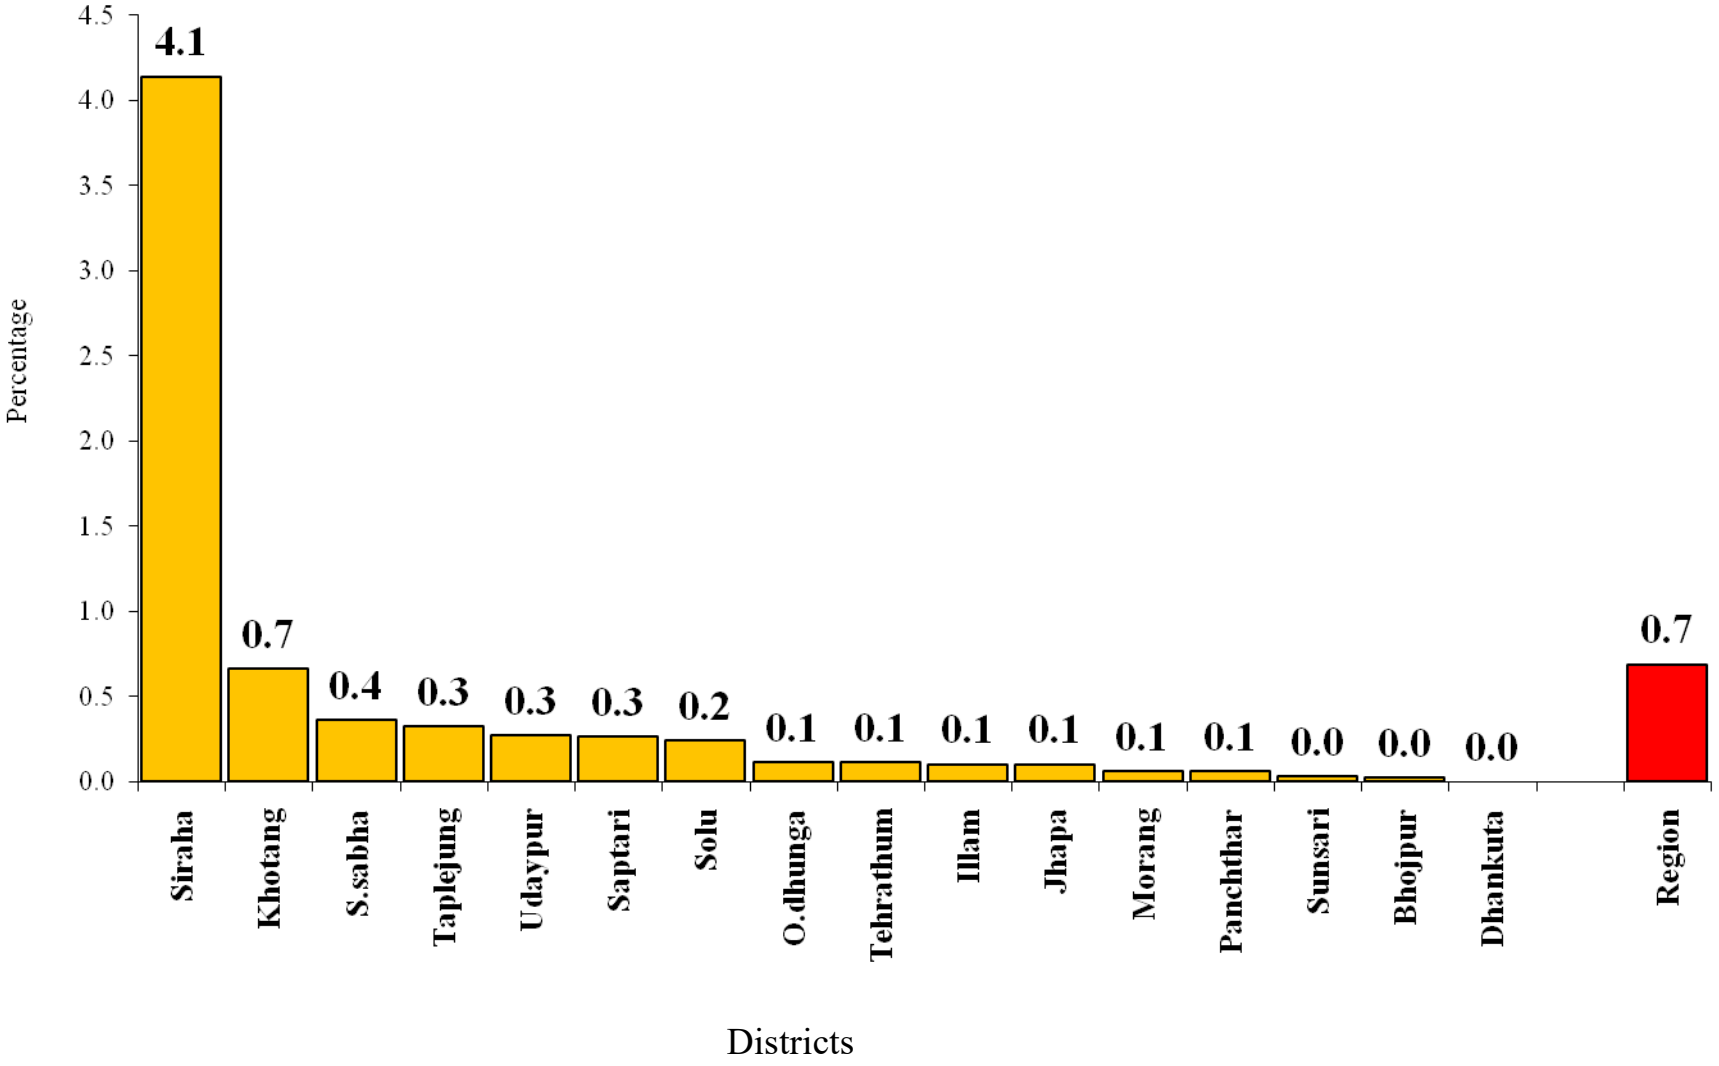
Incidence of CDD Cases Per 1000 Children (<5Years)
F.Y. 2067/068



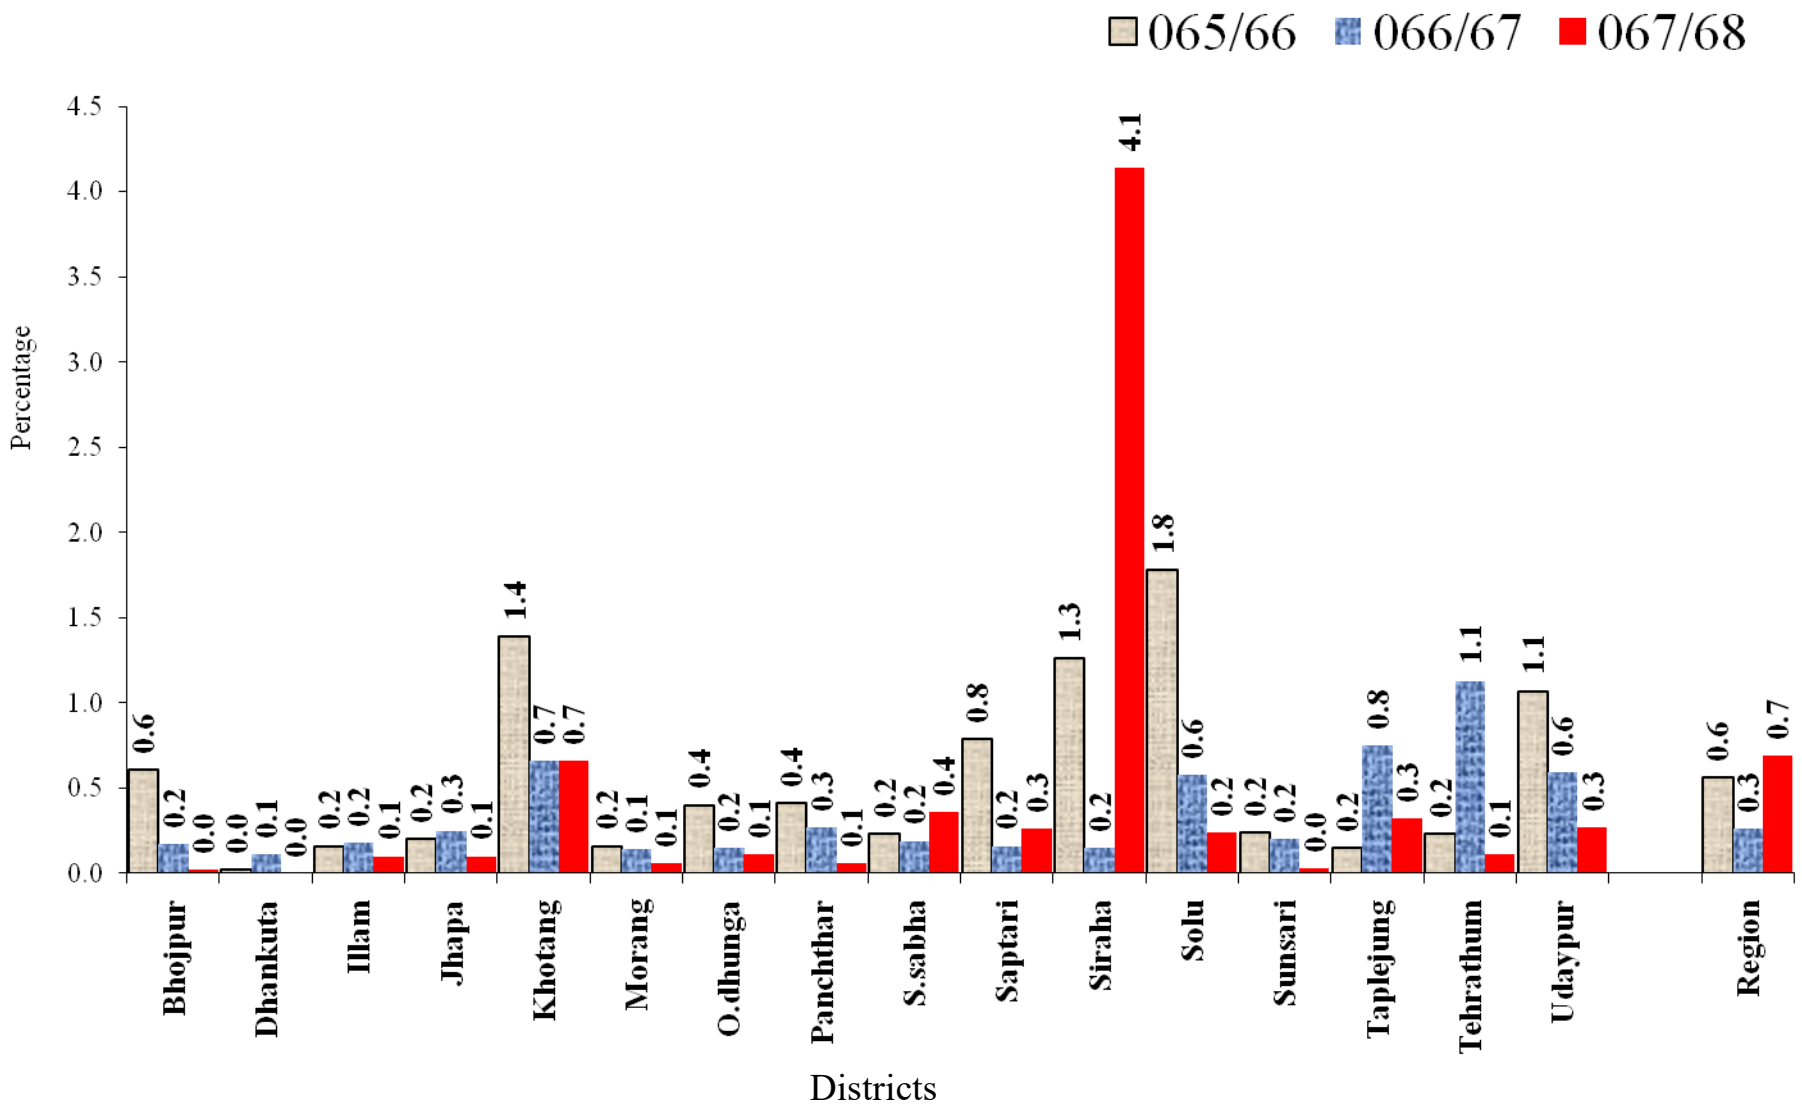
Incidence of CDD Cases Per 1000 Children (<5Years)
F.Y. 2065/66-2067/068



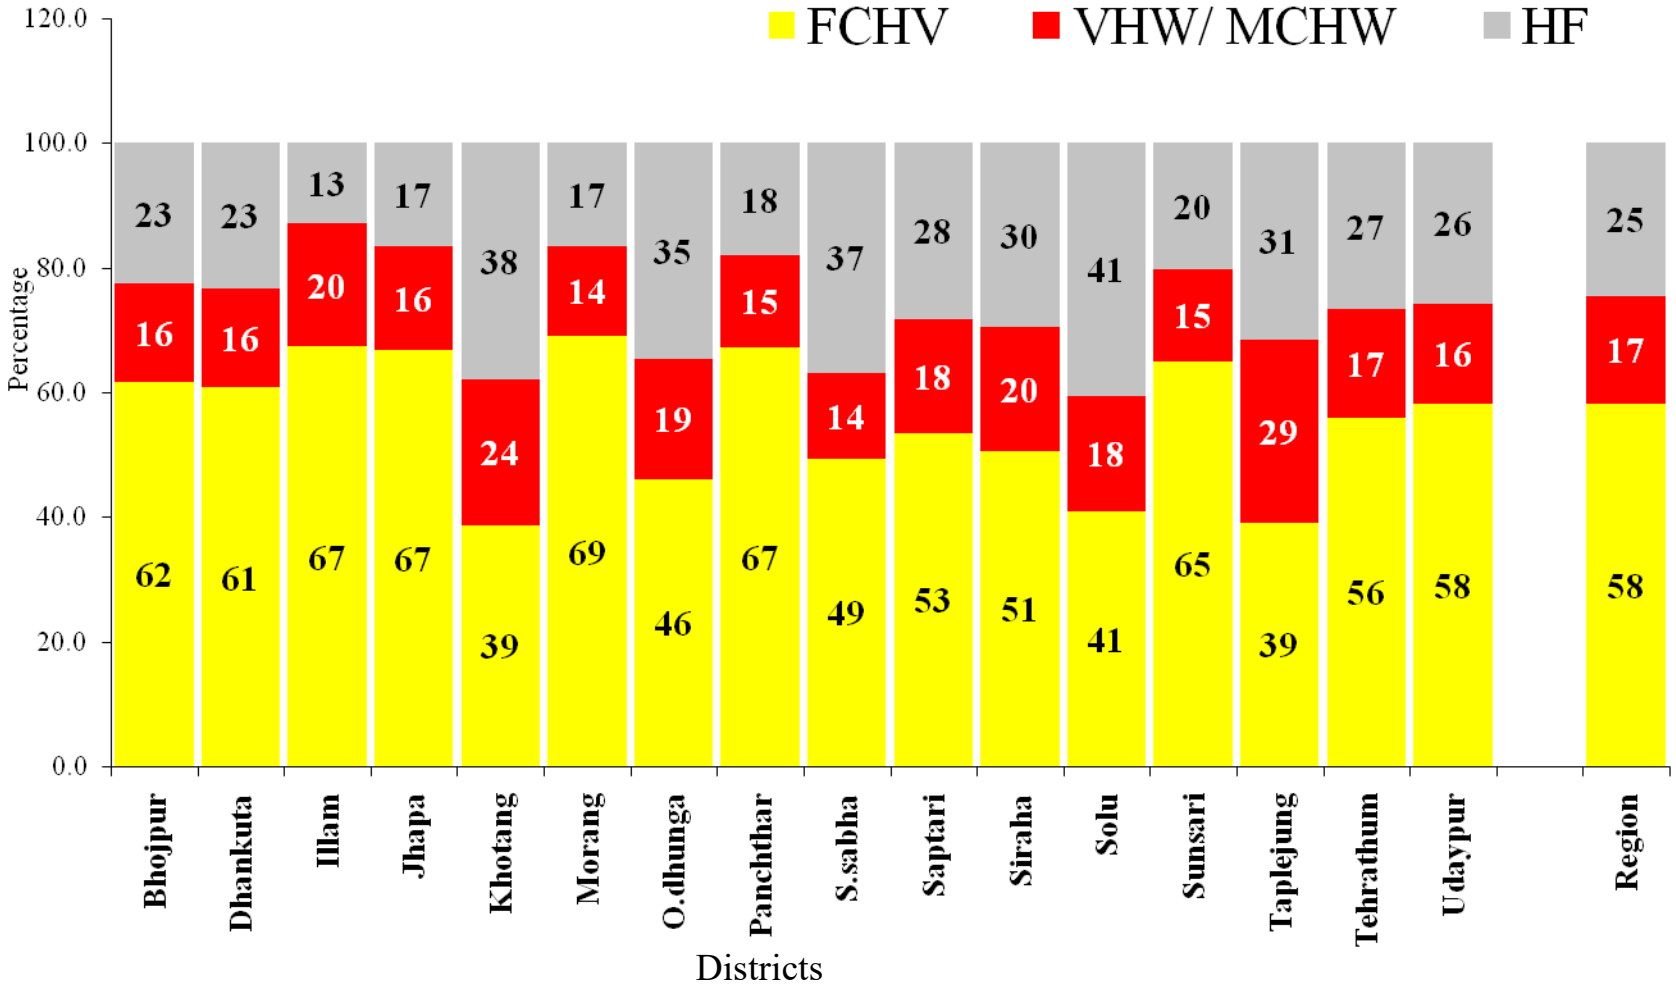
% of Severe Dehydration among Total Diarrhoea Cases
F.Y. 2067/068



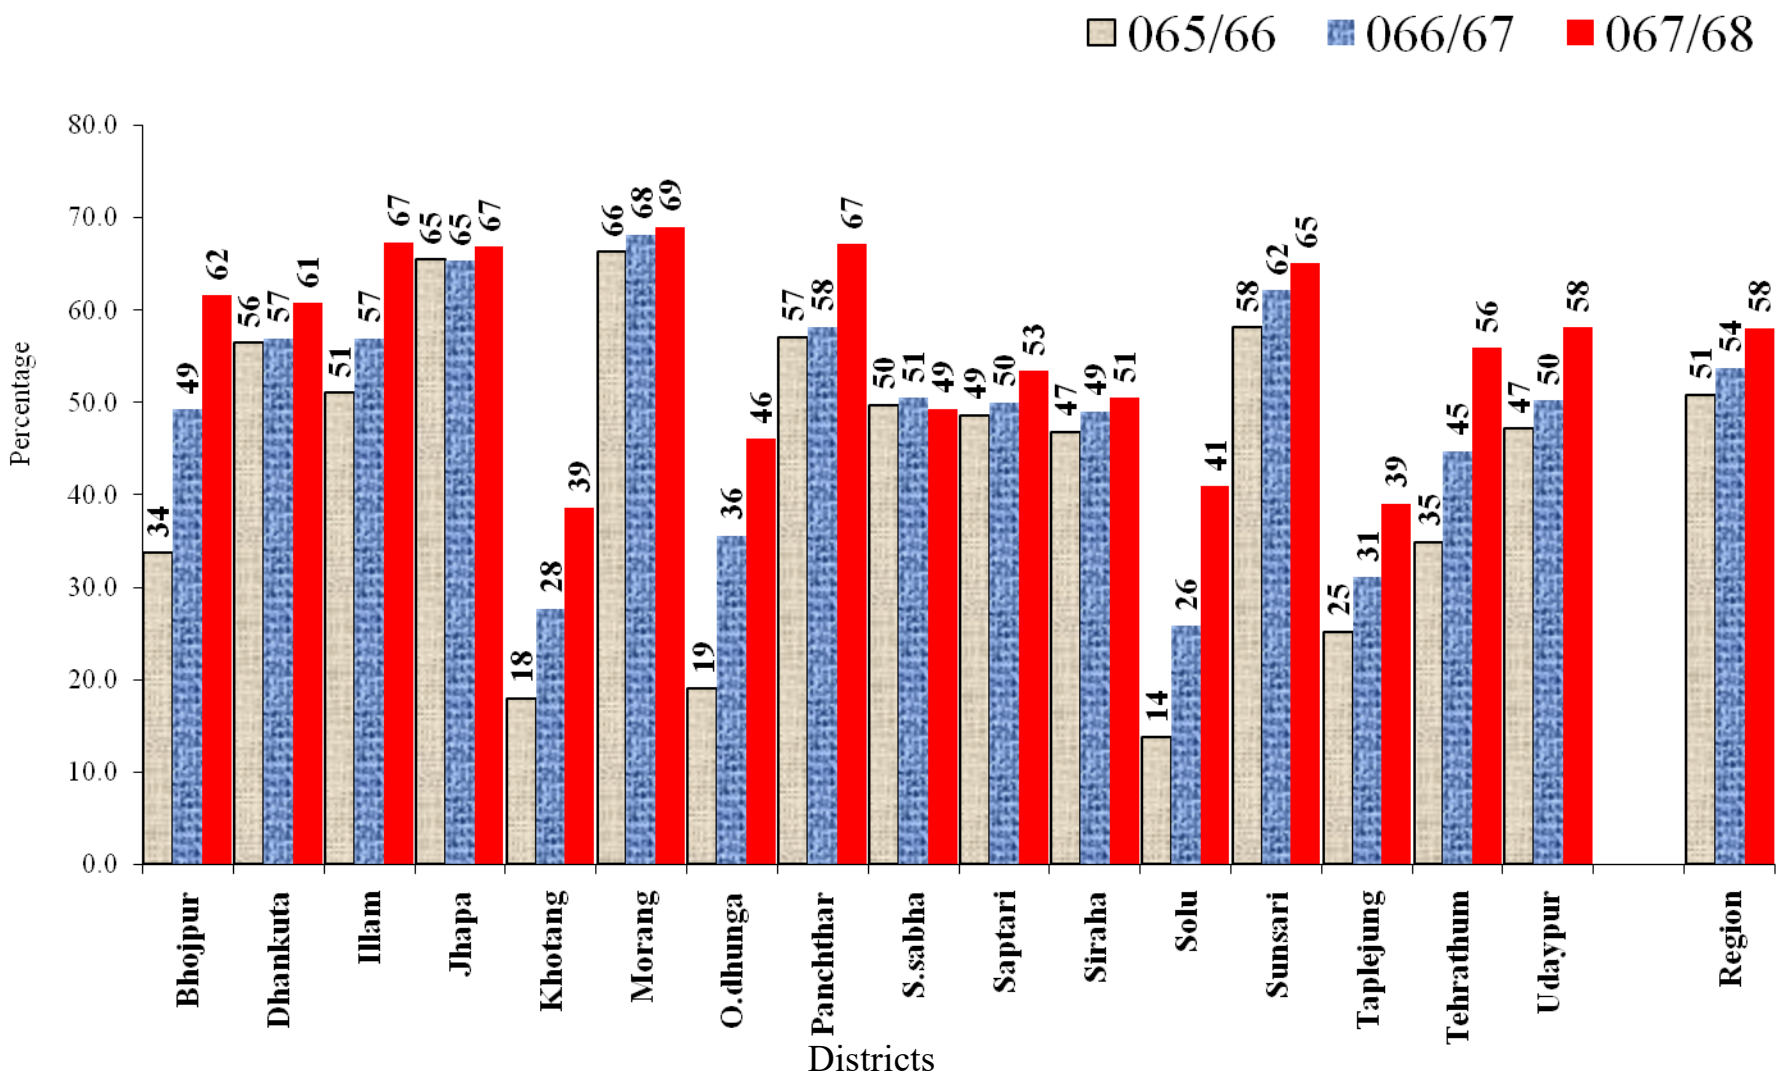
% of Severe Dehydration among Total Diarrhoea Cases
F.Y. 2065/66-2067/068



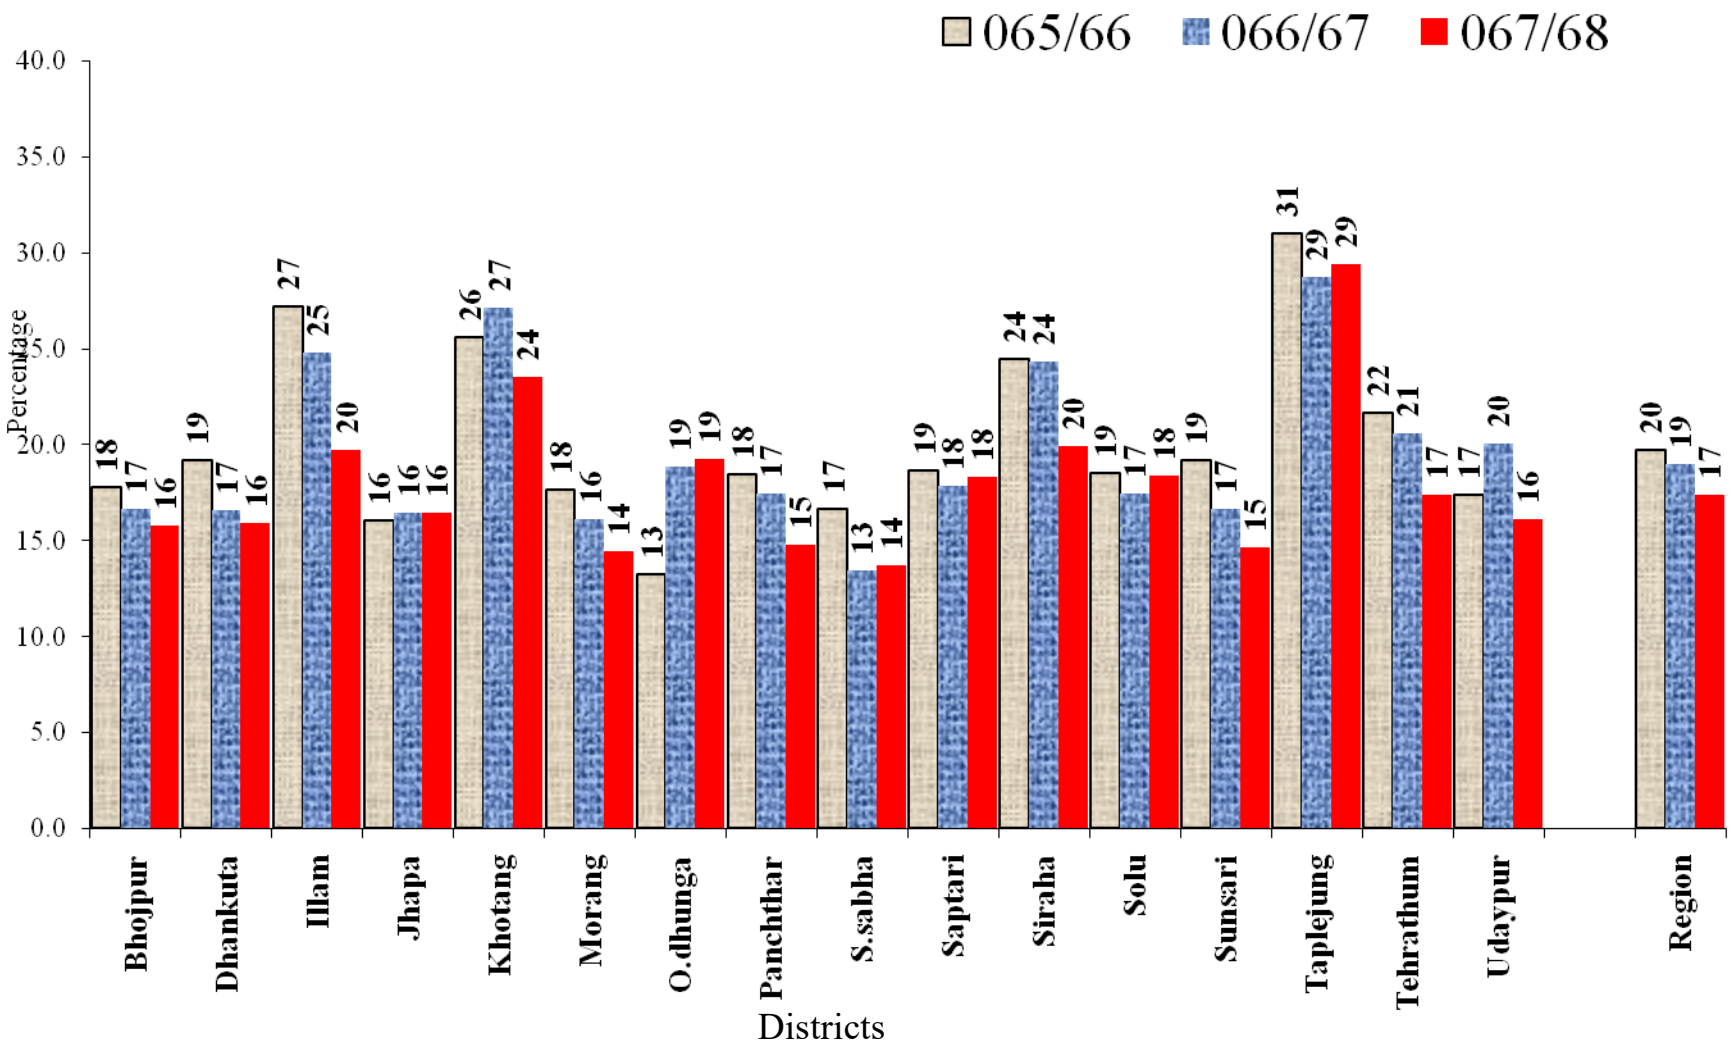
Proportion of CDD Cases Treated by FCHV, VHW/MCHW & HFs F.Y. 067/068



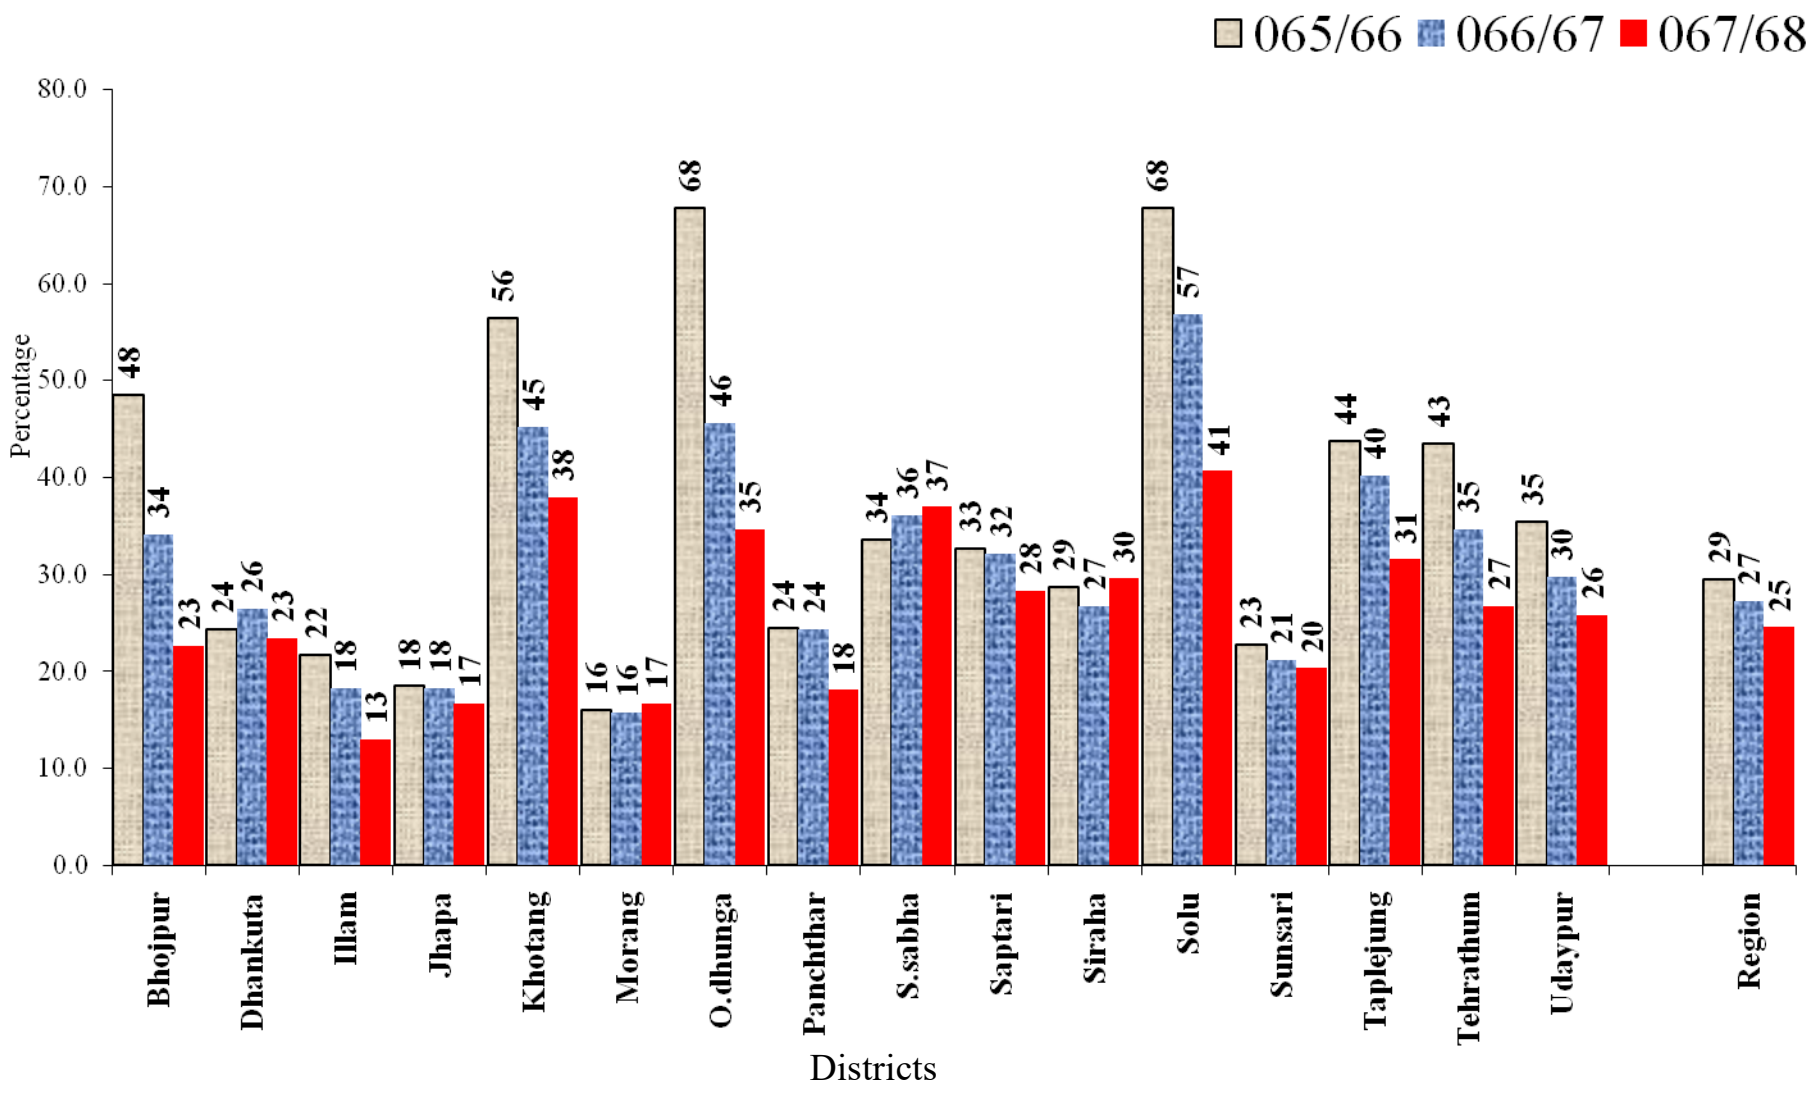
Proportion of Diarrhoeal Cases Treated by FCHV
F.Y. 2065/66-2067/068



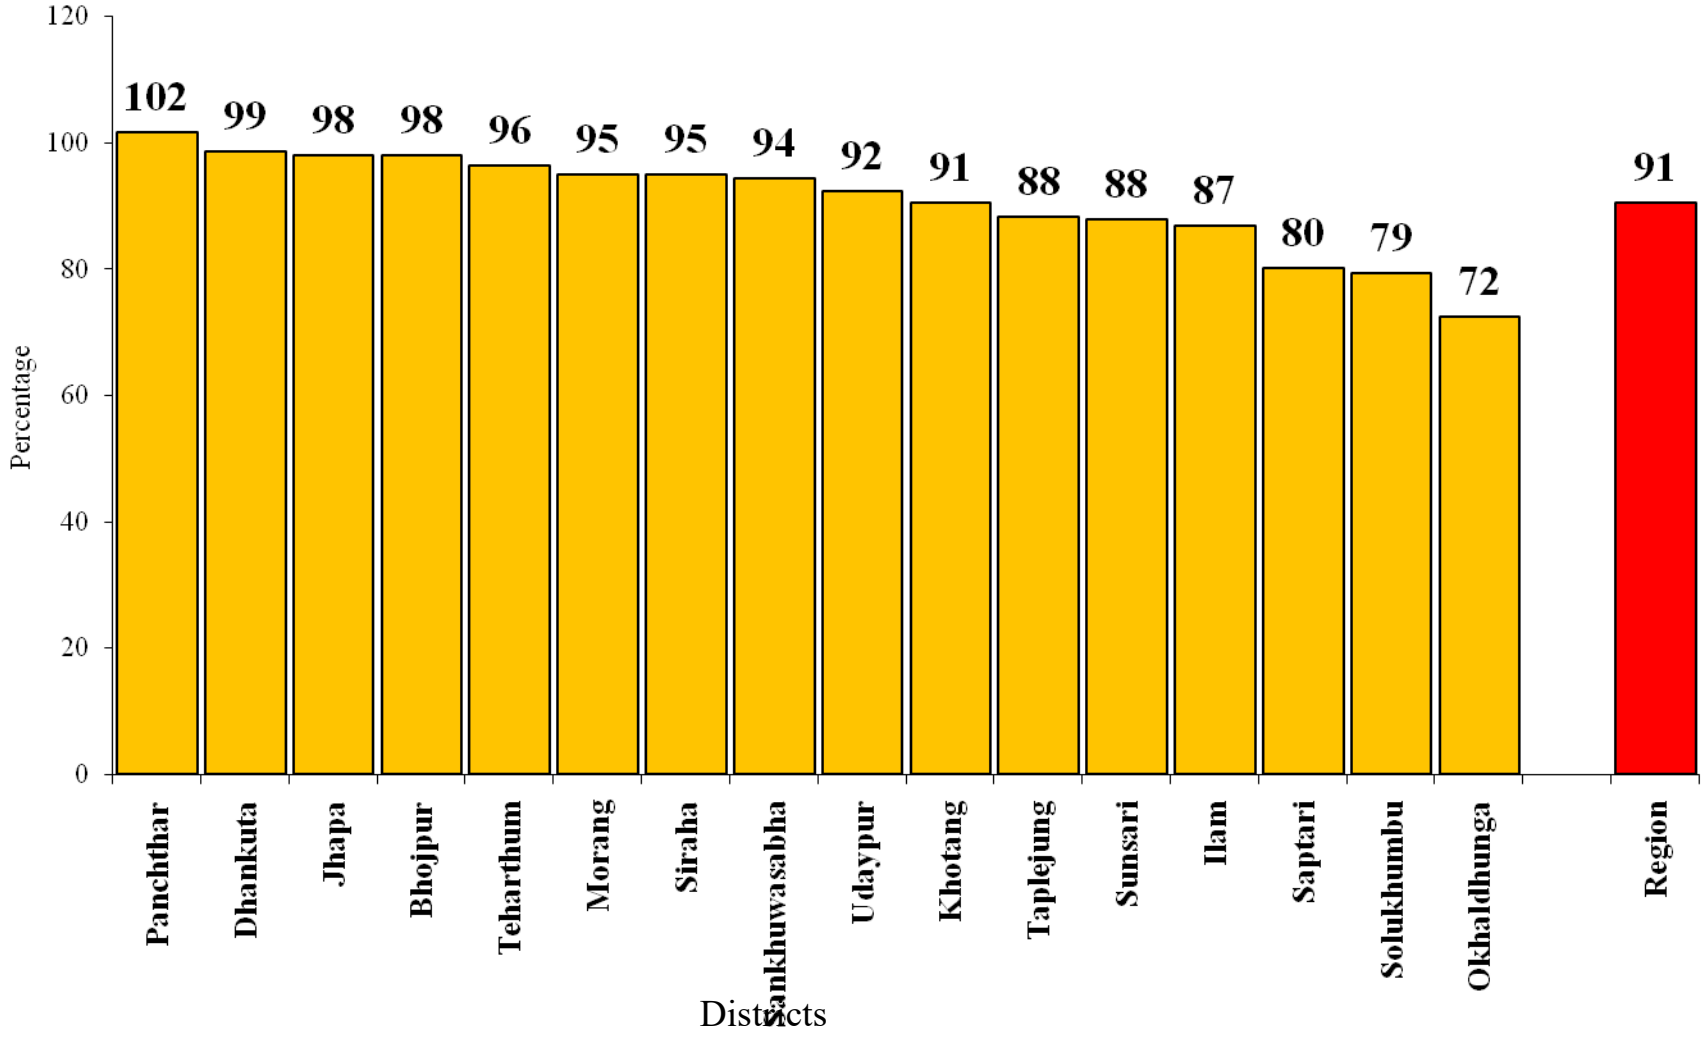
Proportion of Diarrhoeal Cases Treated by VHW/MCHW
F.Y. 2065/66-2067/068



Proportion of Diarrhoeal Cases Treated at Health Facility
F.Y. 2065/66-2067/068



Proportion of Diarrhoeal Cases Treated with ORS & Zinc F.Y. 2067/068

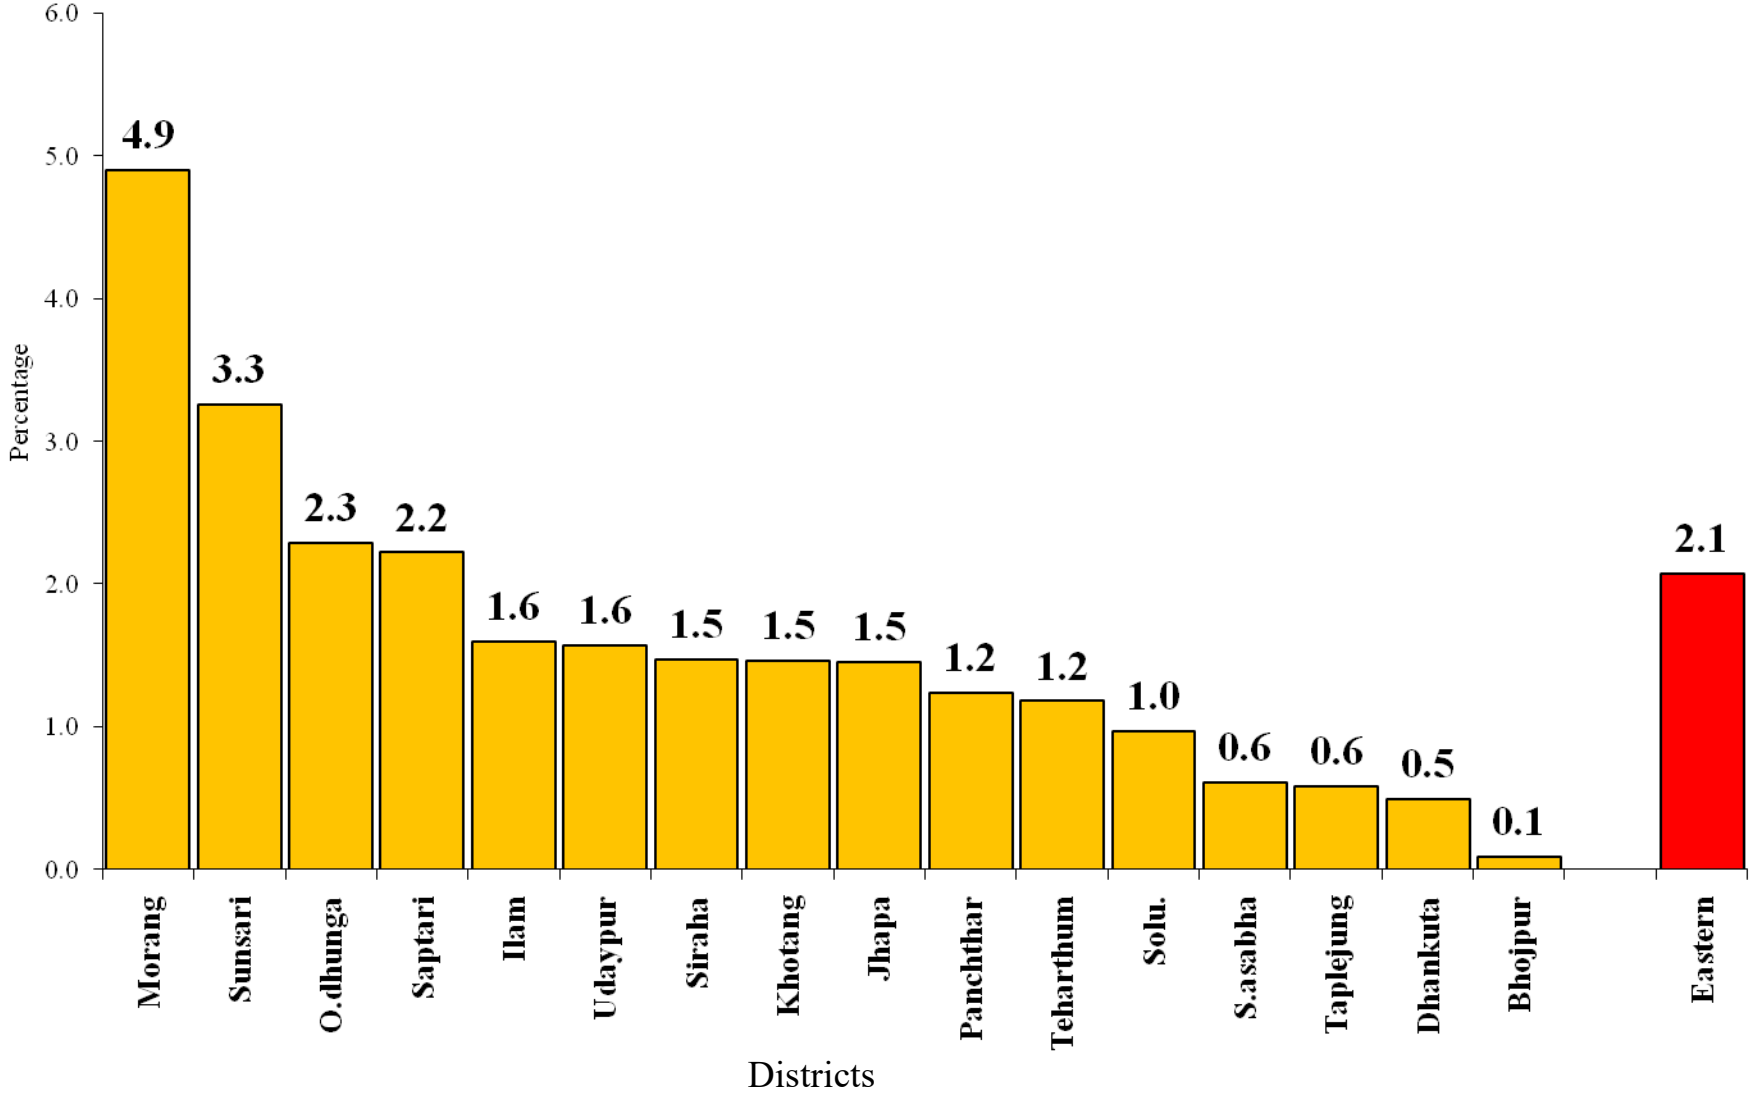


Overview

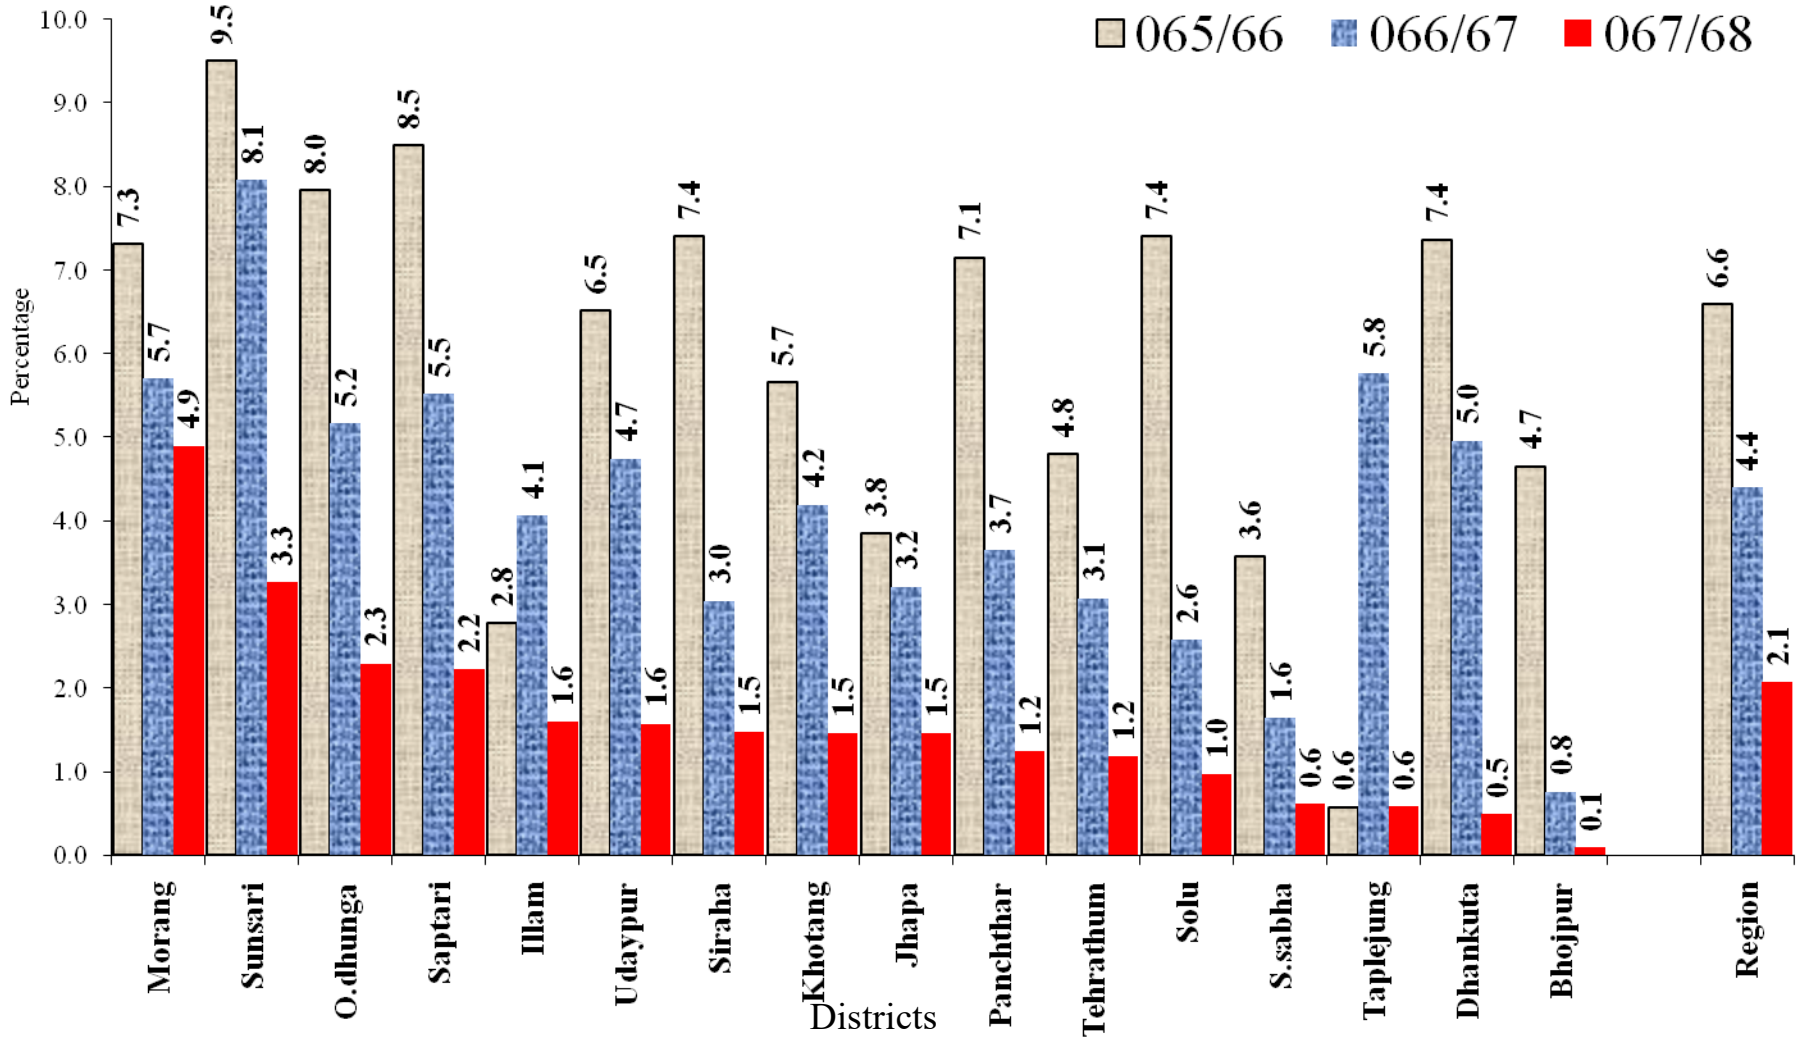
- Severe dehydration is in marginally increased.
- Cases attended by FCHVs is increasing
- No death reported due to diarrhoea.

Nutrition Program

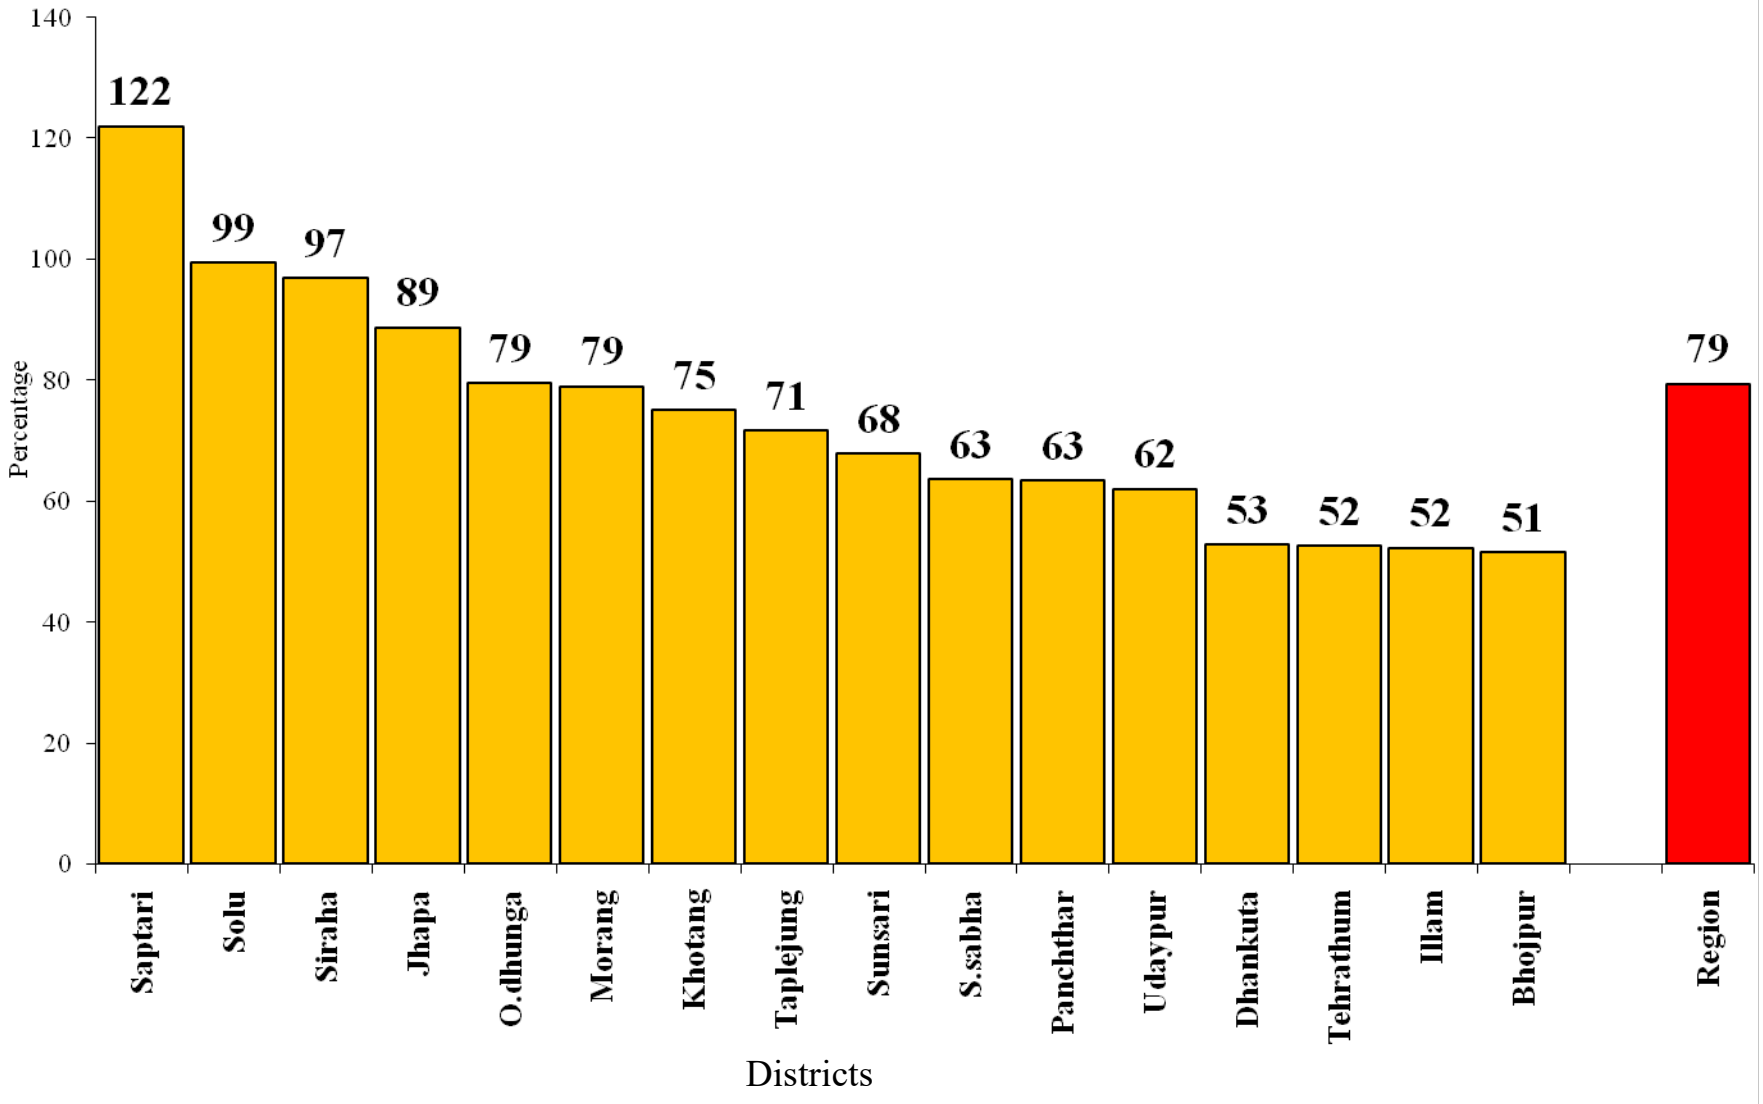
Proportion of Malnourished children as % of New Growth Monitoring <5 yrs, F.Y 2067/068



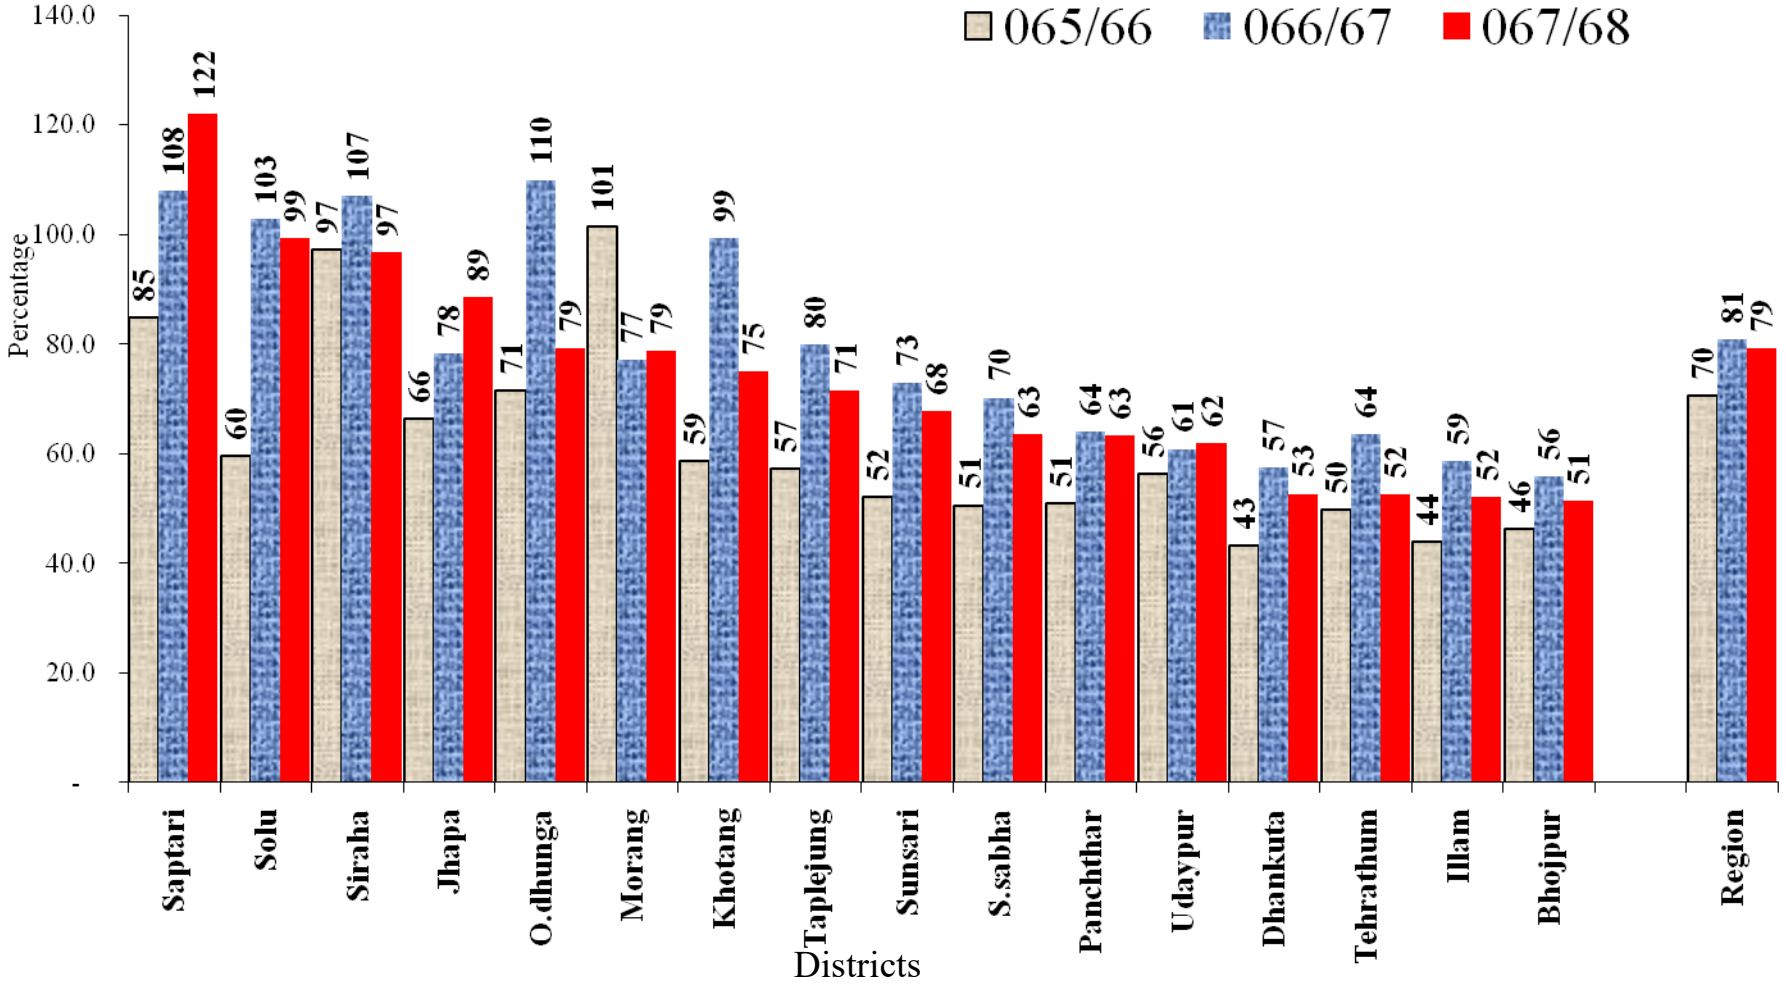
Proportion of Malnourished children as % of New Growth Monitoring <5 yrs, F.Y. 2065/66-2067/068



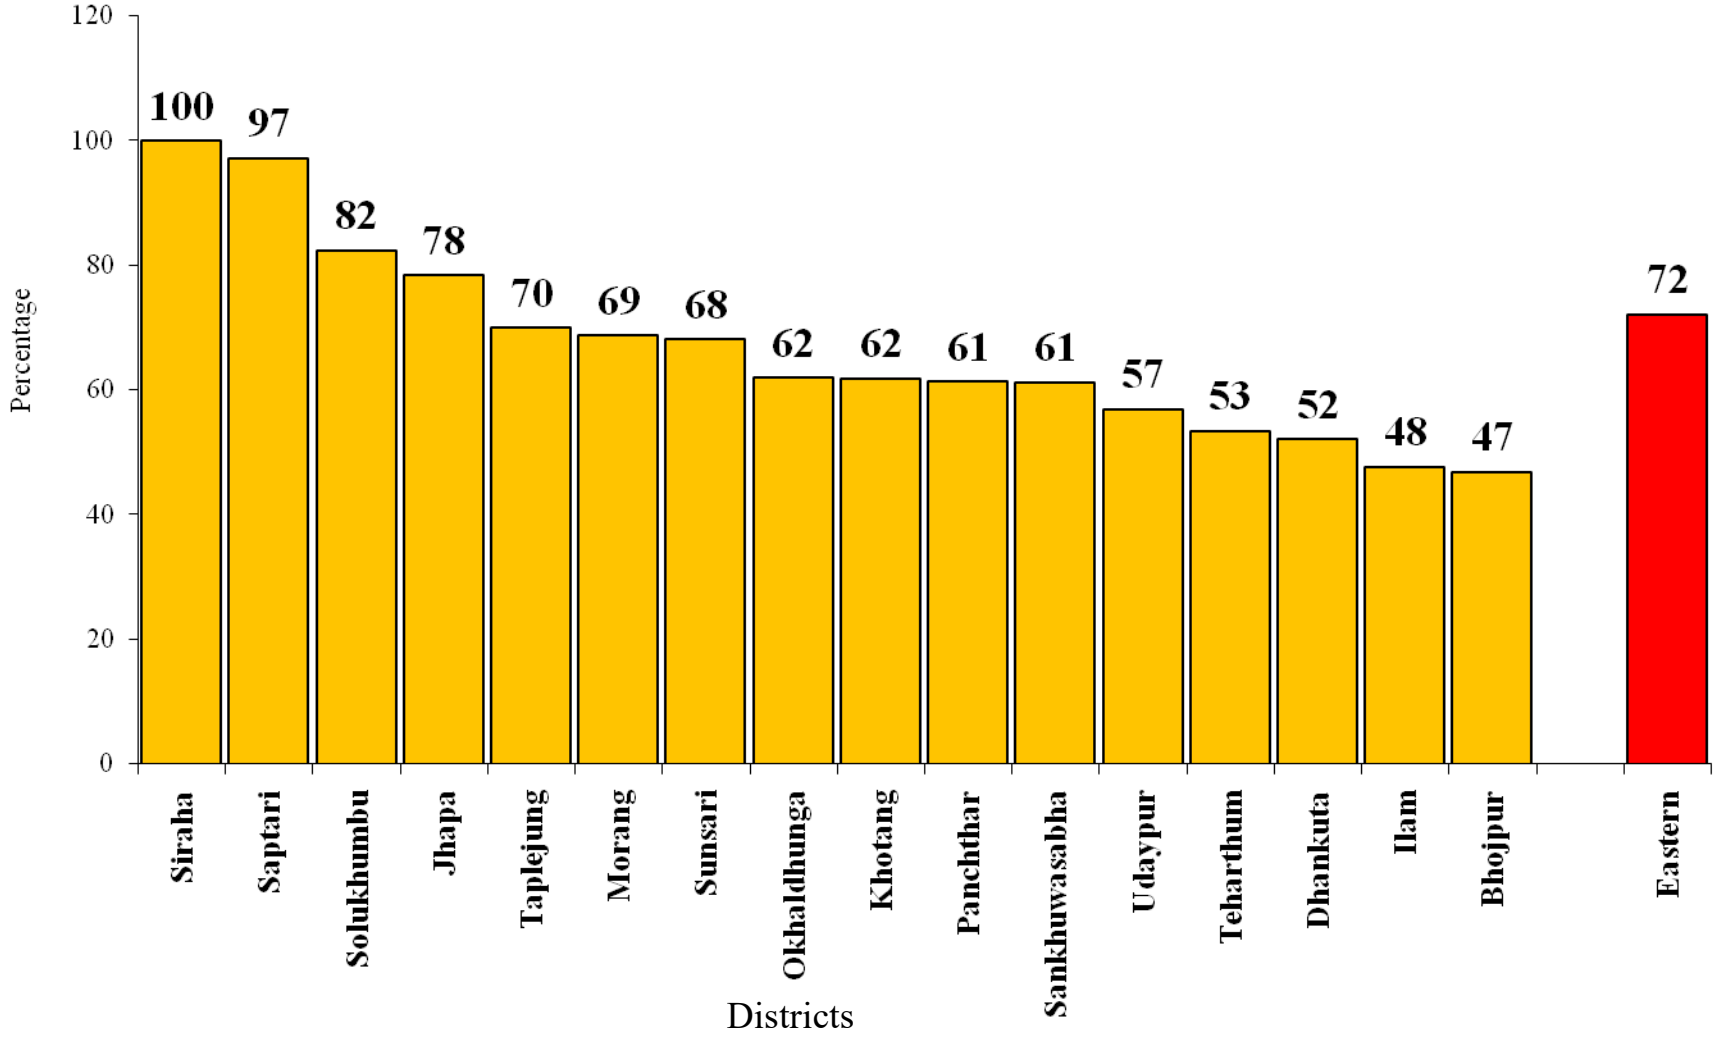
% of Expected Pregnant Mothers Supplemented with Iron Tablets F.Y. 2067/068



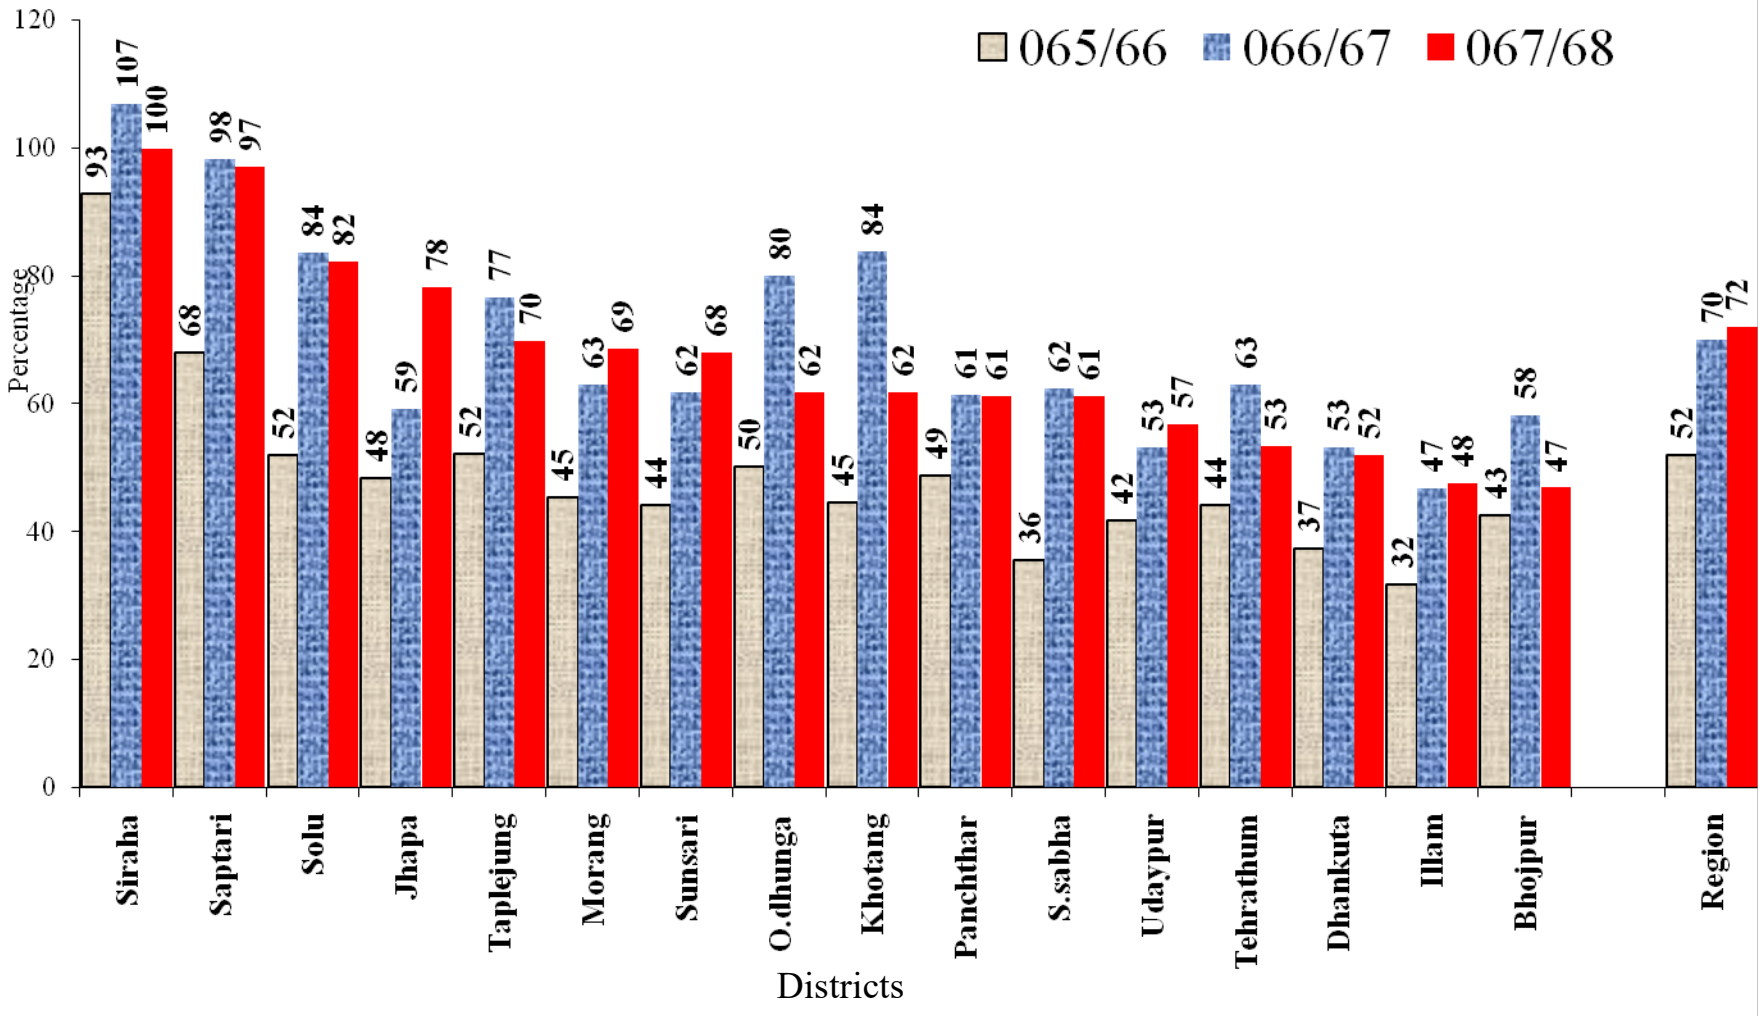
% of Expected Pregnant Mothers Supplemented with Iron Tablets F.Y. -2065/066 -2067/068



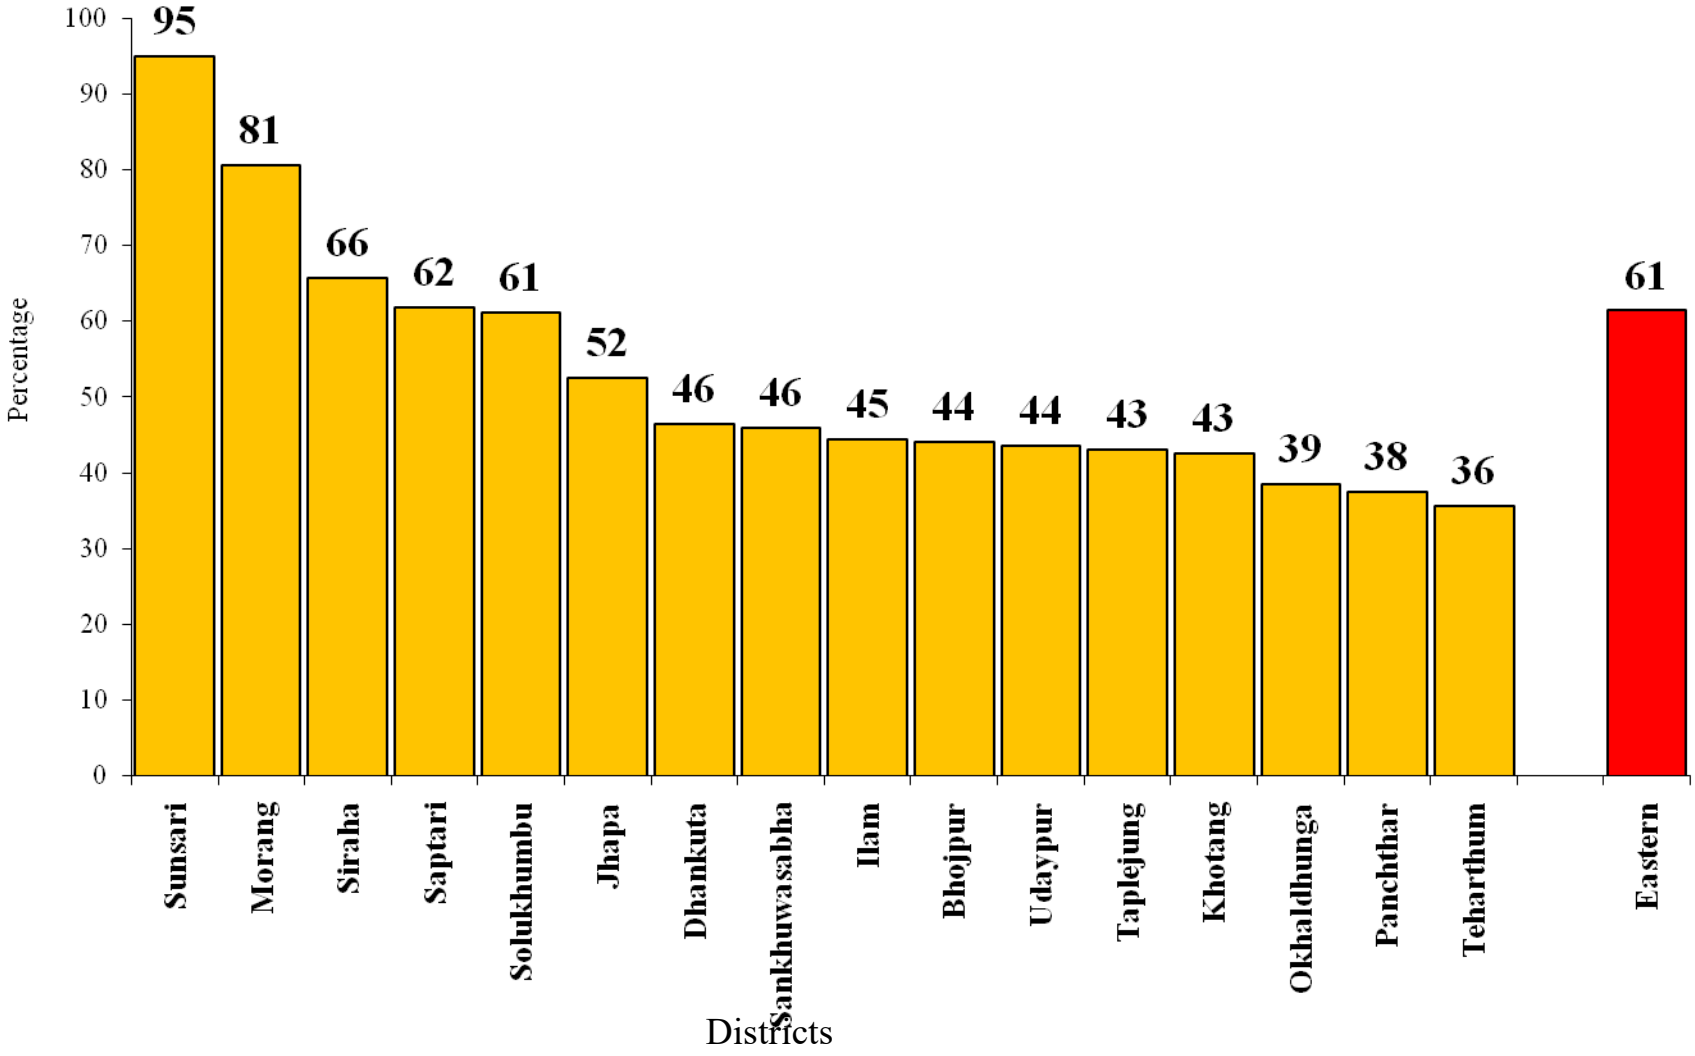
% of Expected Pregnant Mothers Supplemented with Antihelmenthic Tablets F.Y. 2067/068



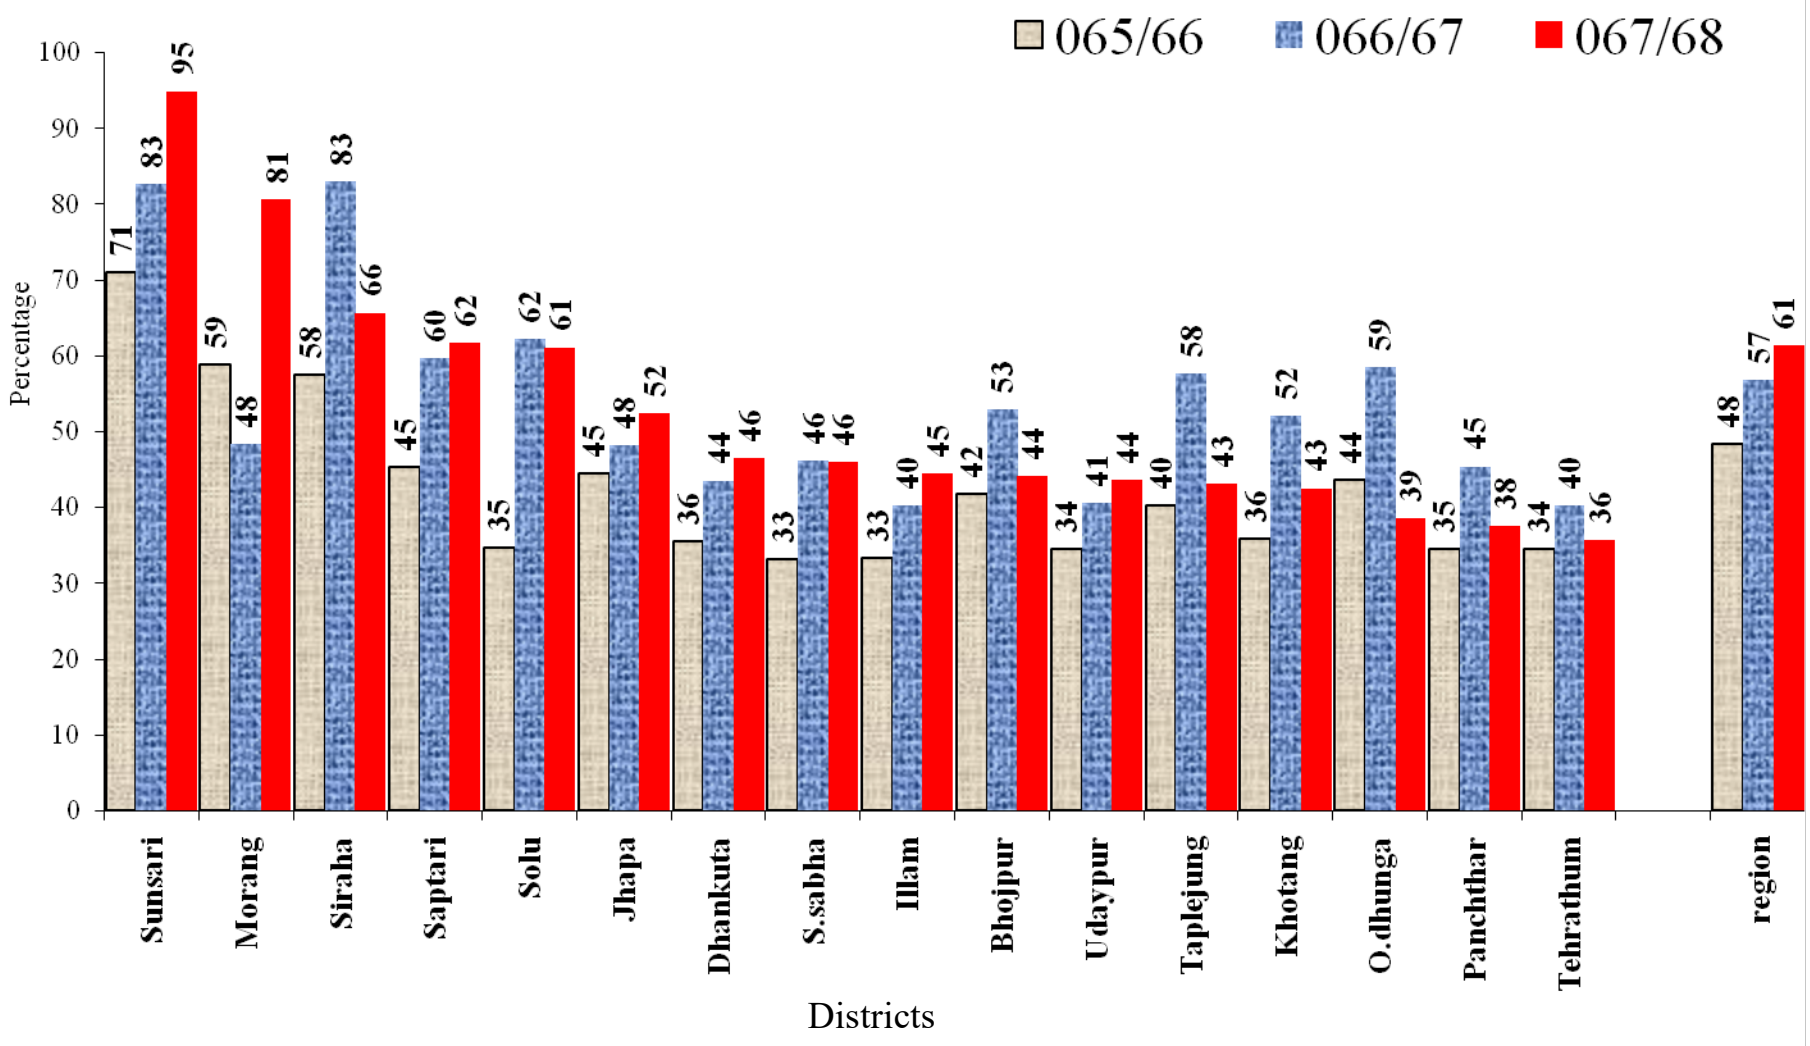
% of Expected Pregnant Mothers Supplemented with AntihelmenthicTablets F.Y. 2065/66-2067/068



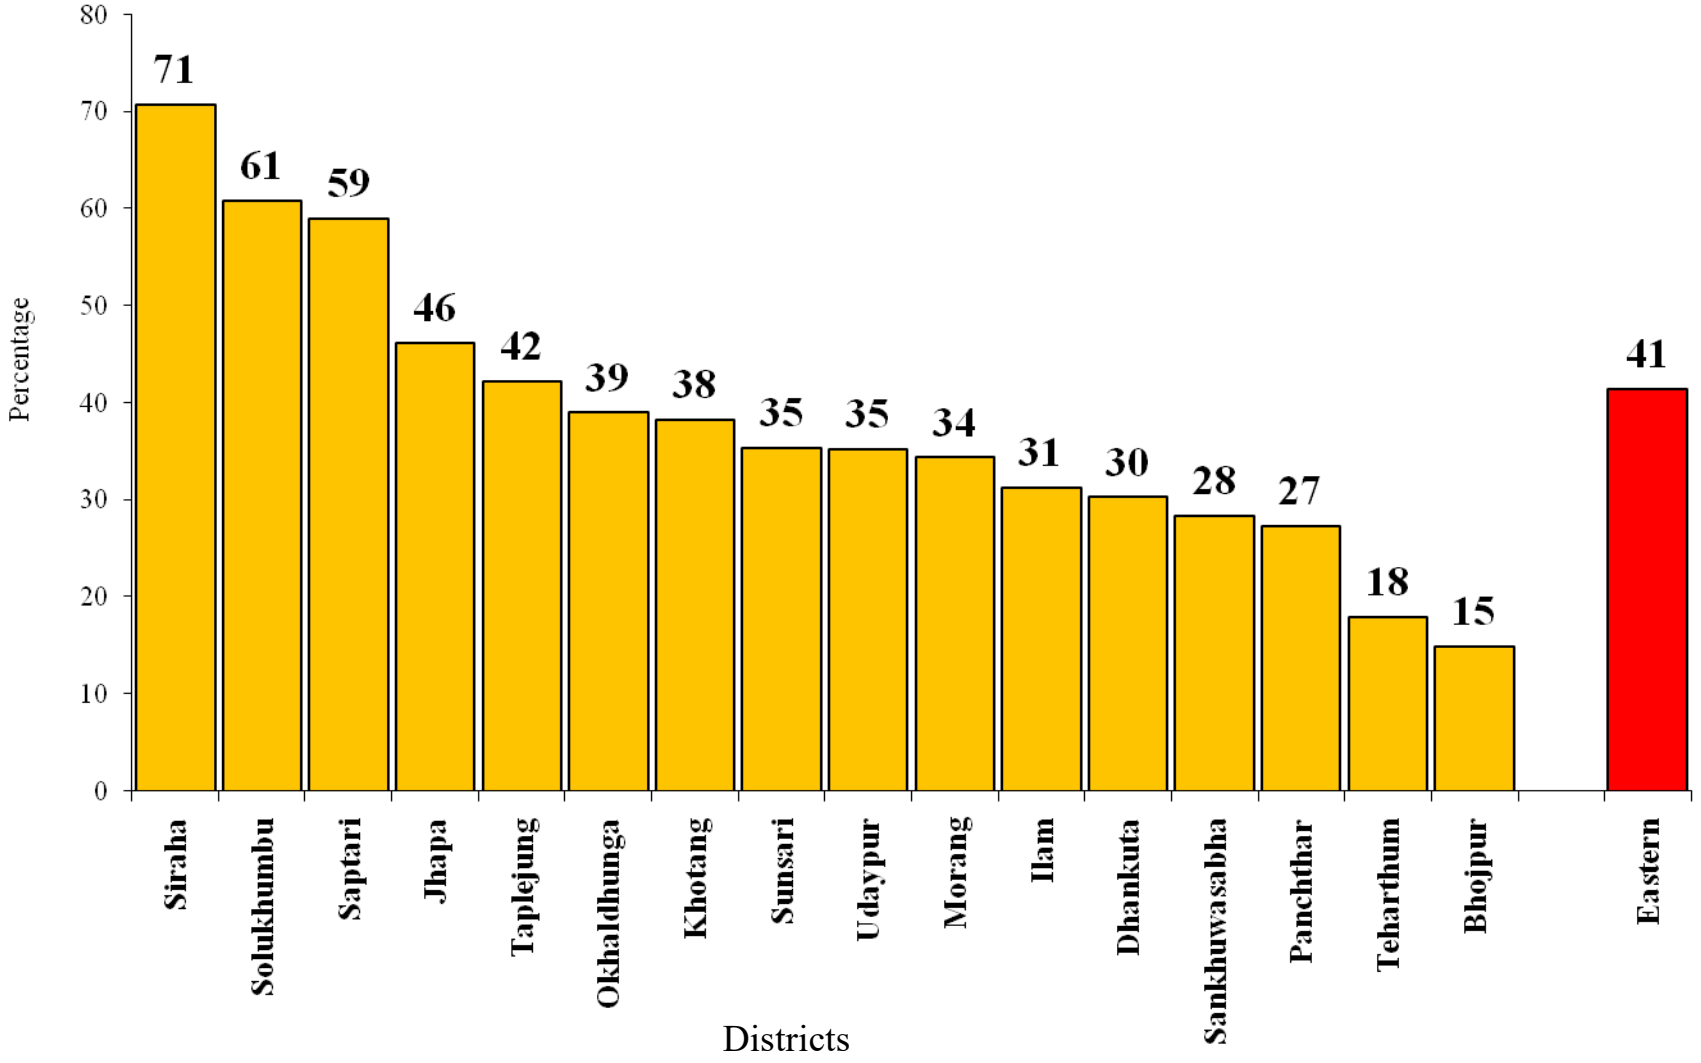
% of Postpartum Mothers Receving Vitamin 'A'
F.Y. 2065/66-2067/068



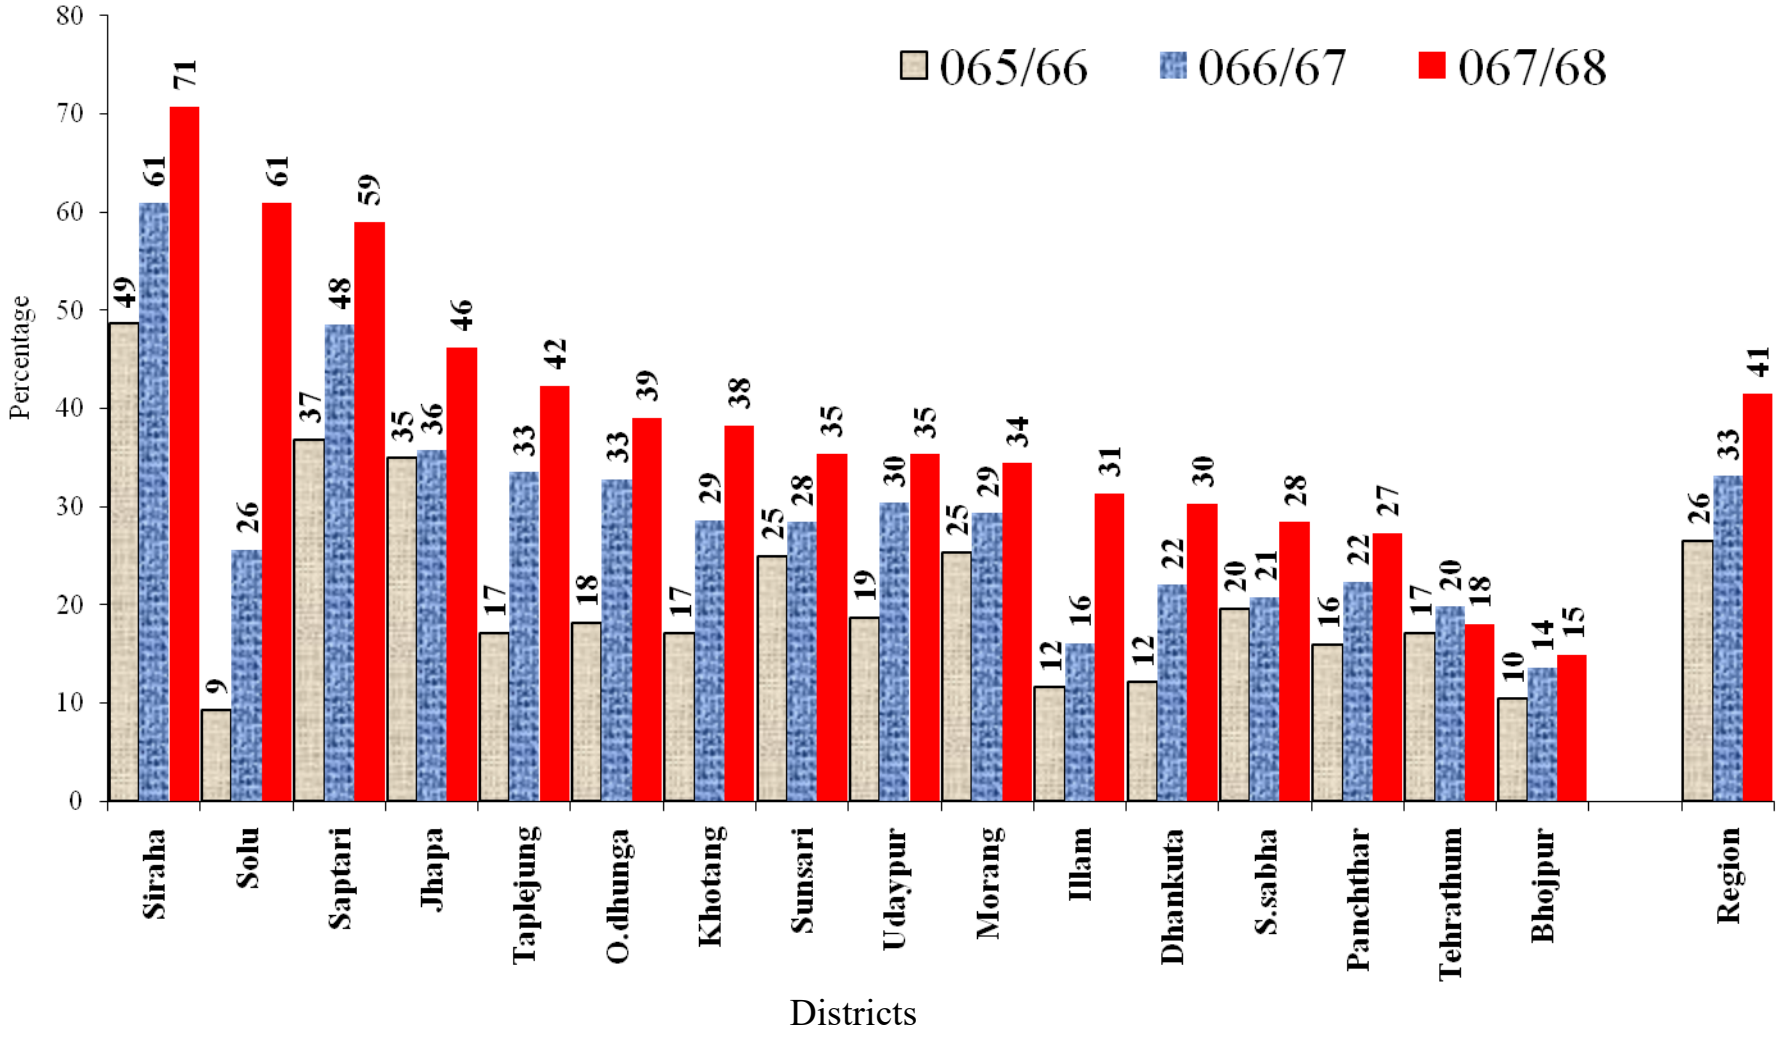
% of Postpartum Mothers Receving Vitamin 'A'
F.Y. 2065/66-2067/068



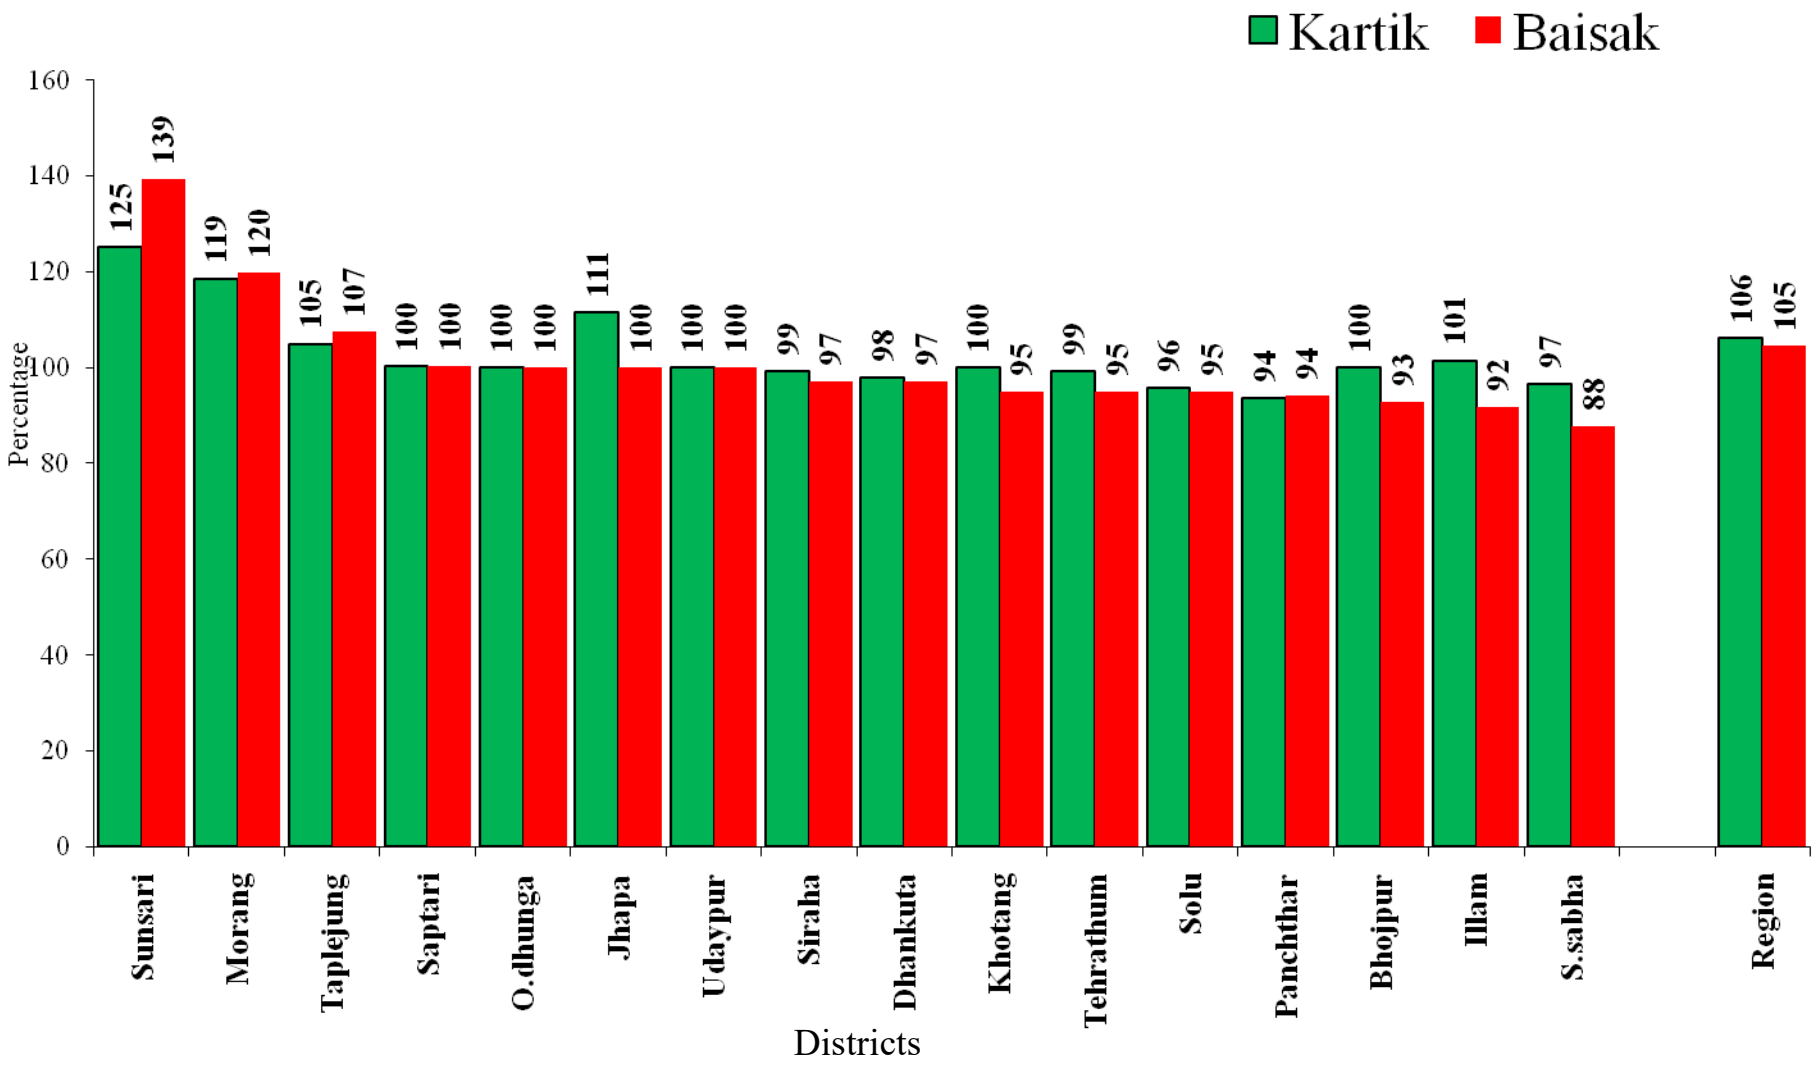
Iron Compliance (% of Mothers who Receives 225 Iron Tab Among ANC 1st Visit) F.Y. 2067/068



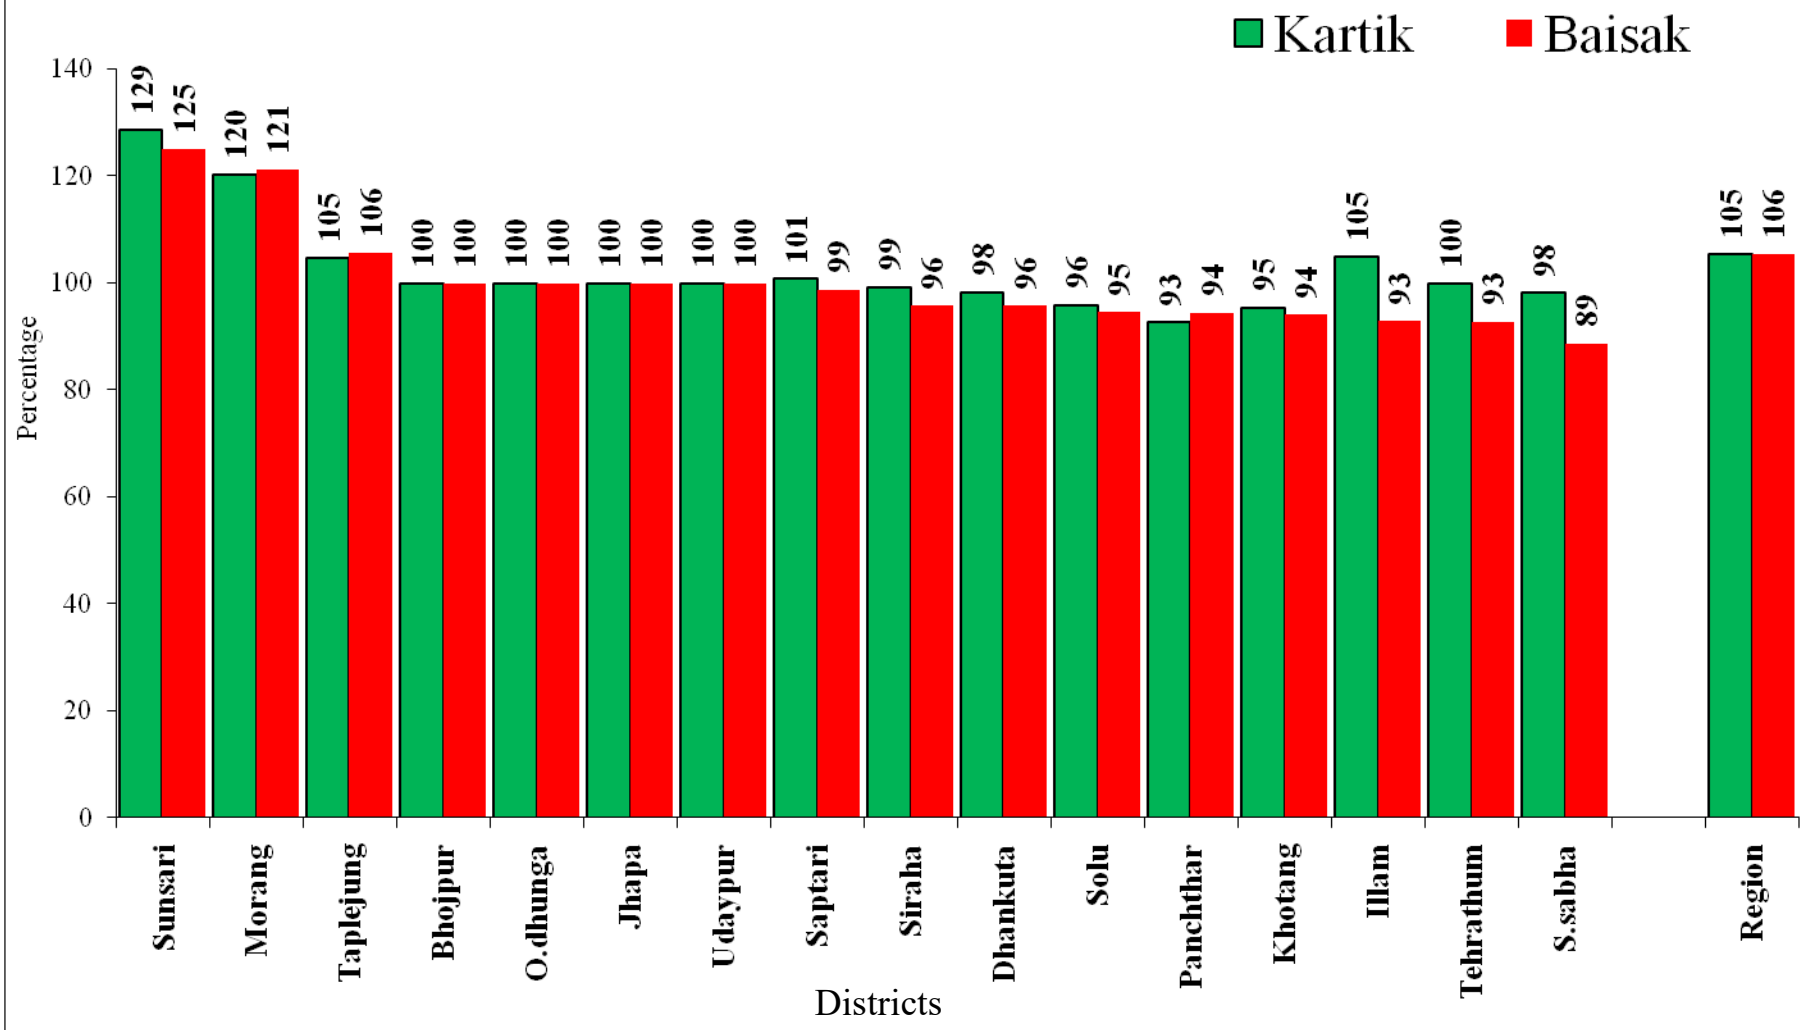
Iron Compliance (% of Mothers who Receives 225 Iron Tab Among ANC 1st Visit) F.Y. 2065/66-2067/068



Vitamin A distribution coverage 1st (Kartik) & 2nd (Baisak) round (6 months to < 5 yrs children) F.Y. 2067/068



Antihelmentic tablet distribution coverage 1st (Kartik) & 2nd (Baisak) round (1- months to < 5 yrs children) F.Y. 2067/068



Overview

- ✓ **Vitamin “A”, Albendazole & Iron supplementation not matching with ANC 1^{s} & PNC.**
- ✓ **Vitamin “A” & Albendazole supplementation increased.**
